Citizenship Affirmation

I am a U.S. Citizen

Residency Affirmation

I am a resident of the Commonwealth of Massachusetts

Statement of Intent

I intend to comply with and advance the policy established by this Act.

Statement of Interest

I voted for question 2 last November because I feel strongly we here in Massachusetts are losing our Commonwealth to corporate interests rather than the interest of its citizens. I say this because I have worked in the financial district of Boston for 35 years and have witnessed the rising gap between those who work for a living and those who work in finance. I understand that politicians rely heavily on providing a strong alliance with the business community and their promises to provide a quality of life for the occupants of the state but the reality is quite different and the profits far outweigh the benefits the citizens are reaping for the sake of business..Boston is all but unaffordable to families of working people yet luxury housing is still being built at a rate far exceeding that of preserving neighborhoods for ordinary citizens. The question looms as to how much room is there at the top of an earning pyramid for our own public school children and if the state does not provide this education for their success is it fair to import these earners from elsewhere. Corporations are global and do not consider our government of the United States interest as important as our elected official and citizens should and do so why not keep the relationship dignified by removing undue influence from artificial entities. Let the people of this fine Commonwealth lead the nation back to it founding principle of a government of the people by the people for the people.
