## **RPS Testimony to DOER**

Good evening, my name is Jake Dubreuil from Southbridge, Massachusetts representing Barry Equipment Company out of Webster, MA. I as well as Barry Equipment are in favor of the proposed changes to RPS Class I and RPS Class II regulations.

1 million tons of non forest derived sources are produced annually in MA alone as supported by a UMass study completed in 2002. We support the non forest derived RPS. 85% of the support equipment that we supply our local industry are for permitted land use changes, fire mitigation and habitat creation.

With the RPS proposed changes; responsible solutions for non forest derived sources can be monitored by our state regulatory commissions and committees ultimately displacing use of fossil fuels. Thank you.

Sincerely,

A handwritten signature in blue ink that reads 'Jake Dubreuil' with a stylized flourish at the end.
