ELECTRIC OPERATING REVENUES (Account 400)

1. Report below the amount of Operating Revenue for the year for each prescribed account and the amount of increase or decrease over the preceding year.
 2. If increases and decreases are not derived from previously reported figures explain any inconsistencies.
 3. Number of customers should be reported on the basis of number of meters, plus number of flat rate accounts, except that where separate meter readings are

added for billing purposes, one customer shall be counted for each group of meters so added. The average number of customers means the average of the 12 figures at the close of each month. If the customer count in the residential service classification includes customers counted more than once because of special services, such as water heating, etc., indicate in a footnote the number of such duplicate customers included in the classification.

4. Unmetered sales should be included below. The details of such sales should be given in a footnote.
 5. Classification of Commercial and Industrial Sales, Account 442, according to small (or Commercial) and Large (or Industrial) may be according to the basis of classification regularly used by the respondent if such basis of classification is not greater than 1000 Kw of demand. See Account 442 of the Uniform System of Accounts. Explain basis of classification.

PURCHASED POWER (Account 555)
(EXCEPT INTERCHANGE POWER)

1. Report power purchased for resale during the year. Exclude from this schedule and report on page 56 particulars concerning interchange power transactions during the year.
2. Provide subheadings and classify purchases as to (1) Associated Utilities, (2) Nonassociated Utilities, (3) Associated Nonutilities, (4) Other Nonutilities, (5) Municipalities, (6) R.E.A Cooperatives, and (7) Other Public

Authorities. For each purchase designate statistical classification in column (b), thus: firm power, FP; dump or surplus power, DP; other, O, and place an "x" in column (c) if purchase involves import across a state line.
3. Report separately firm, dump, and other power purchased from the same company. Describe the nature of any purchases classified as Other Power, column (b).

PURCHASED POWER (Account 555)
(EXCEPT INTERCHANGE POWER)

4. If receipt of power is at a substation indicate ownership in column (e), thus: respondent owned or leased, RS; seller owned or leased, SS.
5. If a fixed number of kilowatts of maximum demand is specified in the power contract as a basis of billing, this number should be shown in column (f). The number of kilowatts of maximum demand to be shown in columns (g) and (h) should be actual based on monthly readings and

should be furnished whether or not used in the determination of demand charges. Show in column (i) type of demand reading (instantaneous, 15, 30, or 60 minutes integrated).
6. The number of kilowatt hours purchased should be the quantities shown by the power bills.
7. Explain any amount entered in column (n) such as fuel or other adjustments.

INTERCHANGE POWER (Included in Account 555)

1. Report below the kilowatt-hours received and delivered during the year and the net charge or credit under interchange power agreements.
2. Provide subheadings and classify interchanges as to (1) Associated Utilities, (2) Nonassociated Utilities, (3) Associated Nonutilities, (4) Other Nonutilities, (5) Municipalities, (6) R.E.A. Cooperatives, and (7) Other Public Authorities. For each interchange across a state line place an "x" in column (b).
3. Particulars of settlements for interchange power

shall be furnished in Part B, Details of Settlement for Interchange Power. If settlement for any transaction also includes credit or debit amounts other than for increment generation expenses, show such other component amounts separately, in addition to debit or credit for increment generation expenses, and give a brief explanation of the factors and principles under which such other component amounts were determined. If such settlement represents the net of debits and credits under an interconnection, power pooling,

coordination, or other such arrangement, submit a copy of the annual summary of transactions and billings among the parties to the agreement. If the amount of settlement reported in this schedule for any transaction does not represent all of the charges and credits covered by the agreement, furnish in a footnote a description of the other debits and credits and state the amounts and accounts in which such other amounts are included for the year.

MONTHLY PEAKS AND OUTPUT

1. Report hereunder the information called for pertaining to simultaneous peaks established monthly (in kilowatts) and monthly output (in kilowatt-hours) for the combined sources of electric energy of respondent.

2. Monthly peak col. (b) should be respondent's maximum Kw load as measured by the sum of its coincidental net generation and purchases plus or minus net interchange minus temporary deliveries (not interchange) or emergency power to another system. Monthly peak including such emergency deliveries should be shown in a footnote with a brief explanation as to the nature of the emergency.

3. State type of monthly peak reading (instantaneous 15, 30, or 60 minute integrated.)

4. Monthly output should be the sum of respondent's net generation and purchases plus or minus net interchange and plus or minus net transmission or wheeling. Total for the year should agree with line 15 above.

5. If the respondent has two or more power systems and physically connected, the information called for below should be furnished for each system.

POWER WHEELING SERVICE
SCHEDULE PWS
Effective: January 1, 2009

- 1. Designation PWS
- 2. Available In all areas served by Russell Electric Light Department
- 3. Applicable Independent Power Producers, other electric utilities, and qualifying cogeneration or small power producers with generating facilities who desire to sell power to others located on or off Russell's system. Capacity contingent upon availability and at the discretion of Russell Electric Light Department
- 4. Rate Total monthly rate per kilowatt of contracted capacity:
Contracted capacity (i.e.) 1000kW times 28.00kW divided by 12 months.
Monthly bill (i.e.) \$2333.33 plus a line loss factor payment.
- 5. Minimum Bill To cover the cost of meter reading and processing:
Per meter per billing: \$40.00 three phase

To cover the cost of annual inspections:
Three phase per billing: \$20.00

Monthly rate per kW of contracted capacity.
- 6. Payment Bills are due when rendered. Payment must be made within twenty-five (25) days. Thereafter, 1.5% per month interest will be added to unpaid balance. Public accounts subject to Sec. 94D of C. 164 MGL. The above rate will be updated annually by the Department
- 7. General Terms and Conditions Russell Electric Light Department shall own and install any interconnection facilities on the Department side of the meter. The cost associated with these facilities will be borne by the Customer. These costs include, but are not limited to, the costs of connection, switching, metering, transmission, distribution, safety provisions, and administrative costs incurred by the Department directly related to the installation and maintenance of the facilities necessary to permit interconnected operations with the Customer. The Customer shall pay for these interconnection costs as determined as follows:

A one-time lump-sum payment equal to the estimated new installed cost of all interconnection facilities provided by the Department.

In addition to the costs detailed above, the actual costs associated with relocating and/or rearranging existing facilities to allow interconnected operation will also be borne the Customer. Payment for these costs shall be on a one-time lump-sum basis and calculated in the same manner that the Department charges its other customers for similar work.

The customers will have equipment specifications and plans for control devices, interconnection facilities and protective devices approved by the Department in advance of energizing the facility. Such protective devices shall include an outdoor manual disconnect switch. The relays and protective equipment shall be subject, at all reasonable times, to inspection by the Department's authorized representative. At the Department's request the Customer shall furnish, install and maintain, at its expense, corrective apparatus which results in an average power factor of not less than 90% lagging.

Parallel operation must cease, immediately and automatically, during system outages and other emergency or abnormal conditions specified by the Department. The Customer

POWER WHEELING SERVICE
SCHEDULE PWS (cont.)

7. General Terms and
Conditions (cont.)

must cease parallel operation upon notification by the Department if such operation is determined to be unsafe, to interfere with the supply of service to others, or to interfere with system operation or maintenance. The Department accepts no responsibility whatsoever for damage or injury to any person or property caused by failure of the Customer to operate in compliance with Department requirements.

Customer will contract for a fixed monthly transmission capacity reservation for a minimum period of three years. Contract will continue on an annual basis thereafter.

Customer shall give advance notice of six months for purposes of increasing capacity reservation. Increased capacity shall be contingent upon availability and at the discretion of the Department.

Inadvertent excess and un-contracted additional capacity requirements placed on the Russell system shall be billed at twelve times the above rate for such excess. The excess will continue to be billed at twelve times the above rate, until such time as the excess condition is removed or until contracted with the Department.

Failure of the Customer to comply with any of the requirements set forth above may result in disconnection from the Department's system. The Department's General Terms and Conditions in effect from time to time where not inconsistent with any specific provisions above, are a part of this rate.

General Terms & Conditions

Effective: January 1, 2009

1. General:

This Terms and Conditions Statement ("Agreement") has been established to convey the conditions that you ("Customer") agree to when requesting service from Russell Electric Light ("REL"). The benefits and obligations of this Agreement will commence on the day that you, as the Customer, are connected to REL's service and will inure to and be binding upon the successors and assigns, survivors and executors or administrators of the original parties. REL reserves the right to revise, amend, supercede, supplement or change these Terms and Conditions from time to time in accordance with applicable laws, regulations and policy. The Terms and Conditions shall remain consistent with the Department of Public Utilities & Energy ("DPU") standards. In the event that any of the Terms and Conditions is in conflict with any applicable DPU rule or regulation, DPU rules and regulations shall govern.

2. Application:

Service shall not be supplied unless and until the Customer completes an "Application for Service". The Application must be accurate, true, complete and signed by the Customer of Record. All Customer's electrical needs present and future, if known, should be stated at the time of the application.

3. Deposit

A deposit will be required on any commercial or residential account. A two hundred dollar security deposit will be required for all customers. Deposits may be waived if the Customer provides REL with proof that the Customer is the owner of the property for which service is requested. REL reserves the right to request a deposit at any time, and from time to time, on any account that does not remain in good standing.

Interest is payable annually on all deposits which are retained longer than six (6) months at a rate that is at or above such rate specified by applicable laws and regulations. Such rate may be credited to a Customer's account. Refunds on deposits shall be returned if after twenty-four (24) months of service Customer has paid all bills for usage in the twenty-four (24) month period from the date of deposit and without leaving such bills unpaid within forty-five (45) days of receipt.

All deposits shall be due and paid before service will be provided.

4. Metering:

For the purpose of determining the amount of electricity used, a meter or meters will be installed and maintained by REL on the Customer's premises. All meters, wires and other apparatus furnished by REL are and shall remain the sole and exclusive property of REL. Customer agrees that the wiring upon the premises of the Customer to which service will be connected shall be installed and maintained by Customer in accordance with the requirements of the National Electrical Code and all requirements of the Town of Russell.

REL or its authorized agent shall have access to the Customer's premises at all reasonable times to install, read, inspect, test, operate, maintain, repair, or remove its equipment, to discontinue service, to determine the rate or rates for the Customer's electric service, or for any other purpose reasonably related to the provision of electric service.

The Customer shall not injure, interfere with, destroy or tamper with any meter or other property of REL. The Customer shall be responsible for the care and protection of any of REL's property located or installed on the Customer's premises and shall not permit anyone but REL or its authorized representatives to have access to such property. REL's property, machinery or equipment shall not be handled or operated by anyone other than REL or its authorized representatives without the express written consent of REL. REL will lock or seal all enclosures containing meters or metering equipment, and no person, except an employee or duly authorized agent of REL shall be permitted to, in any way, change or modify REL's meters or other equipment, and no seals or locks shall be permitted to be removed without the written authorization of REL. Customer shall indemnify and hold REL harmless, should any violations of these provisions result in injury, death or damage to persons or property.

Subject to the provisions of Massachusetts General Laws ("M.G.L."), Chapter 164 and applicable DPU regulations, when a meter is found to be tampered with, service to that meter will be disconnected. To have service restored, the Customer shall be required to pay charges (related to disconnection, damages and investigation) and may be required to pay an additional security deposit. Service shall not be restored until Customer has paid all charges in full. Instances of tampering with meters will be reported to the appropriate authorities. Customer may also be subject to criminal and civil penalties pursuant to the M.G.L.

5. Meter Reading / Bills:

A bill based on an actual or estimated reading of REL's metering equipment shall be rendered monthly, payable upon receipt. When a Customer is serviced through more than one meter, each meter will be considered separately.

If REL cannot obtain a meter reading, it shall render an estimated bill, provided REL has not rendered an estimated bill for the billing period prior to that for which the estimate is made, except in the case where circumstances reasonably beyond the control of REL prevent it from obtaining an actual meter reading. Subject to the provisions of M.G.L., Chapter 164 and applicable DPU regulations, if any Customer, directly or indirectly, prevents or hinders any such employee or agent of REL from entering such premises for the purposes of making such examination, REL may pursuant to M.G.L. c. 164, § 116 make a complaint to any court or magistrate authorized to issue criminal process.

6. Classification:

REL determines a Customer's appropriate rate based on information provided by Customer at the time of application for service. The rates are updated to provide each Customer the most advantageous rate available. It is the Customer's responsibility to assure itself that it is on a rate most advantageous to itself. Customer should promptly notify REL of any change in circumstances, which may qualify Customer for a more advantageous rate.

7. Discontinuance of Service / Nonpayment:

A. Unsafe wiring, fraud, or theft: REL may discontinue service without notice if a Customer's wiring is found to be in a dangerous or unsafe condition or as is necessary to protect REL from fraud or theft. Service shall not be resumed until the Town of Russell Wiring Inspector certifies to REL that any dangerous or unsafe condition has been corrected and all wiring is in accordance with the applicable laws and regulations.

B. Unsatisfactory Equipment: REL may discontinue service and remove its equipment if, in its judgment, the equipment has become unsatisfactory for further service due to deterioration, civil commotion, vandalism, state of war, explosion, fire, storm, flood, lightning, or any other cause reasonably beyond REL's control. Customer may be required to pay the applicable charges for the remainder, in any, of the applicable term of service.

C. Access to Premises: Subject to the provisions of M.G.L., Chapter 164 and applicable DPU regulations, if any Customer, directly or indirectly, prevents or hinders any employee or agent of REL from entering a premises for the purposes of making an examination, removing meters for the purpose of work relating to supply or regulation of

supply, or for the purpose of ascertaining the quantity of electricity consumed or supplied, such Customer shall be subject to termination of service.

D. Non-Payment of Charges: If a Customer defaults on payments due to REL, service may be discontinued in accordance with DPU Regulations 220 CMR 25.00-25.05, to the extent that such regulation is applicable. REL shall not restore service until the Customer has:

1. Made an Application for Service and paid all bills due for service previously furnished; and
2. Made a satisfactory deposit to insure payment of future bills; and
3. Paid the costs of reconnection of the premises for which service has been discontinued.

REL shall not be responsible or liable for loss or damage to any person or property resulting from disconnection of service regardless of whether service is disconnected at the Customer's request or by REL and regardless of whether the Customer owns the premises to which service has been supplied.

In the event of an actual or threatened shortage of energy supplies or resources, REL may, in its sole discretion, curtail, allocate, or interrupt electric service to any Customer or Customers, if REL determines, in its sole discretion, that any part of the generation, transmission or distribution systems REL utilizes may be threatened by a condition that may affect its ability to continue to supply electric service of sufficient quality, quantity and reliability.

Although REL will make every effort to make necessary repairs and changes to its system without having to suspend the delivery of service, REL reserves the right to suspend service in order to make repairs or changes.

8. Collection:

Lien upon real estate for nonpayment of service charge under Massachusetts General Law Chapter 164, Section 58B through 58F inclusive regarding tax liens for unpaid Municipal Electric charges. Notwithstanding such lien, any such overdue rate or charge may be collected through any other legal means, including the shutting off of electricity or services. The Customer is responsible for any collection costs, including court costs and attorneys' fees associated with any unpaid balances, meter tampering, theft of services, fraud or otherwise.

9. Limitations of Liability:

The Town of Russell, REL, and all of their respective agents and employees shall be afforded the maximum exemption of limitations of liability available under applicable laws and regulations arising on account of their actions or omissions relating directly or indirectly any provision of electrical service. Without limiting the generality of the foregoing, and except to the extent otherwise expressly provided in M.G.L. Chapter 258:

Neither the Town of Russell, nor REL nor any of their respective agents or employees shall be liable to any person:

- A. For any failure by REL to supply electric service or for any interruption in the supply of or delay in the restoration of such service.
- B. For any damage to any person (including personal injury or death) or any damage to any property, directly or indirectly, arising as a result of the electric service provided by REL, the presence of REL's apparatus or equipment on any Customer's premises, or any acts or omissions of REL.

C. For discontinuance of electrical service to any Customer who fails to comply with, or perform any of the Customer's obligations under these Terms and Conditions, applicable laws and regulations, or other agreements with REL.

D. The discontinuance of electrical service if any equipment or apparatus of any Customer interferes with service provided by REL or with the delivery of service to other Customers or interferes with the integrity of REL's system.

E. For any variation, or interruption in electrical service including without limitation, any such variation or interruption because of abnormal or reduced voltage, emergency load reduction programs, blackouts, or any causes beyond the reasonable control of REL, including, but not limited to, accidents, war, civil commotion, acts of God, labor difficulties, acts of Customers, or acts of any public authority.

10. Inspection:

Approval by the Town of Russell Wiring Inspector for electric service is required before service can be initiated to any new, or newly wired or rewired building, structure or residence.

11. Payment:

Bills are due when rendered. The minimum charge as defined under REL's rate schedules shall be applicable at all times. All payments of bills rendered must be paid within twenty-five (25) days of billing date. Thereafter, 1.5% per month interest will be added to unpaid balance of non-residential bills. Public accounts subject to Sec. 94D of Chapter 164 MGL.
