

Safety Culture Survey – for Employees

Welcome to this survey on Safety Culture at the workplace. Your agency has been selected by the Department of Labor Standards to participate in a pilot program to improve safety conditions at your workplace. The purpose of this survey is to identify areas of success and improvement. A second survey will be conducted at completion of the pilot. Thank you for your participation.

Question		Strongly Agree	Mostly Agree	Mostly Disagree	Strongly Disagree	Does not apply
1.	I have the necessary tools to perform my job tasks.					
2.	My workplace has written procedures to explain how to perform my job tasks.					
3.	I am trained to safely use the tools that I use.					
4.	If applicable, I am trained in how to safely help a client, patient, or member of the public who is agitated.					
5.	My work area is kept clean and organized.					
6.	When equipment breaks it gets fixed promptly.					
7.	Safety issues are communicated to me before I start my shift.					
8.	There is an effective way for employees to report safety issues.					
9.	My workplace has a safety committee.					
10.	When an employee gets hurt at work, the incident is evaluated to prevent it from happening to someone else.					
11.	Comments to improve employee safety at your workplace:					
12.	What is your job title (optional):					

Thank you for participating in this Safety Culture Survey. Results will be compiled by the Department of Labor Standards and provided to your agency.
