

## Logic Model Example

**Inputs** are made up of resources (e.g., funding, people) that are being invested in the project, such as additional staff and new technology.

**Activities** are the actions or events that the project does with the resources provided, such as hire advocates, provide support groups, create survivor networks, and supply food, shelter, or other items.

**Outputs** describe the products that result from those activities and who will be included in them, such as the survivors who attend support groups or professionals that are trained.

**Projected outcomes** are both short and long term changes in behavior or knowledge as a result of the program. Short term outcomes are immediate, measurable results of the activity that are typically presented in less than two years and long term outcomes are intended project results in the future (i.e., four to five years, or more).

## Logic Model Example

Inputs	Activities	Outputs/Benefiting Population	Short-term outcomes	Long-term outcomes
VOCA funding to support 2 Spanish Speaking Direct Services Program Staff	Provide telephone screenings, triage, and referrals for Spanish speaking victims	Services for 50 Spanish-speaking victims	90% of inquiries for consultation for Spanish speaking victims will receive a response within 72 hours	Spanish speaking victims needing services will be identified and receive timely and appropriate services and referrals
VOCA funding to support 2 Advocates	Provide safety planning, 24-hour hotline, one-on-one advocacy, and support groups to victims	VOCA funded advocates will support 400 individuals with 1200 services including both individual and group settings.	<p>100% of individuals screened in as appropriate for services will receive support services, information, and referrals.</p> <p>Via a satisfaction survey, 80% of clients will report 'often true' or 'always true' for the following measures:</p> <ul style="list-style-type: none"> <li>• I feel less isolated</li> <li>• I've learned about useful resources</li> <li>• I am supported</li> <li>• I am more likely to seek help</li> </ul>	Victims feel more supported, less isolated and set up to look toward the future.
VOCA funding to support administrative travel, program supplies, and outreach materials.	<p>Publish and disseminate community outreach materials.</p> <p>Staff and volunteers are trained on available resources for victims.</p>	<p>Outreach materials distributed in over 100 locations.</p> <p>Semi-annual trainings will be provided for staff and volunteers on available resources for victims.</p> <p>Over 75 new clients referred to agency from community partners, self-referral and/or friends/family referrals.</p>	100% of staff and volunteers report feeling more knowledgeable on available resources for victims.	<p>Survivors are able to access advocacy services and find support.</p> <p>Survivors are provided with relevant resources.</p>
Volunteers (3) to support VOCA funded program and staff	Provide support via administrative tasks, front-desk support and 24-hour hotline staffing	Volunteers will provide hotline coverage and front-desk support during staff meetings and other times of need, resulting in up to 10 new clients	The front desk and hotline will be covered 100% of the time.	Less victims will be turned away by staffing limitations and therefore will find supports available in their time of need.

		having immediate access to agency supports and services.
