

TEMPLATE TECHNICAL SPECIFICATIONS

Notice to User:

The technical specifications included herein are preliminary, and intended to be modified, edited and completed by a competent design professional. DHCD has prepared these documents in Word format to enable users to edit the contents and thereby address a variety of construction situations for small projects. The final edited specification should then embody a project's unique requirements. Failure to properly edit these specifications may lead to safety concerns, problems during bidding, permitting, construction, and project closeout. Should the preparer of these specifications have questions or concerns, please contact the DHCD Architects and Engineers Services Unit for further guidance. All sections contain this statement to the User and this paragraph is to be removed from the final versions of the specifications. FRONT END BID DOCUMENTS MAY BE REQUIRED TO ACCOMPANY THESE SPECIFICATIONS.
