Wil	l the systems be modified if the exemption to the staffing requirements is granted?
	YES: NO:
If y	es, please describe.
	scribe the process utilized by the ALR to assess the staffing levels needed on an ongoing is including the methods and measures that the ALR uses to ensure that the staffing is
suf	ficient at all times (e.g., how residents are assessed for changes in condition, level of
acu	ity, functional status, etc.).
•	Has the ALR utilized contracted "Agency" staff (contracted providers) in the past 12 months?
	YES: NO:
•	If yes, has the ALR used "Agency" staff in both the Traditional and SCR?
	YES: NO:
•	Is Agency Staff used on all shifts in the SCR?
	YES: NO:
•	If no, please identify the shift(s) exempt:
•	Is Agency staff used 7 days of the week in the SCR?
	YES: NO:
•	If no, please identify the day(s) exempt:
•	Provide the number of days in the past 12 months "Agency" staff has worked in any SCR
	unit (s) from 7pm to 7am:

Please attach the ALR's written policy on the use of Agency Staff, if applicable.

OPERATIONS

•	Assuming the staffing exemption request is approved, describe the operational plan that would be commence if a Resident-specific emergency occurred in the ALR and the Floater was busy?
•	Assuming the staffing exemption is approved, describe the disaster and emergency plan that would be utilized during a building-wide emergency if there was only one staff person dedicated to the SCR?
•	Describe the current responsibilities in addition to personal care of overnight staff in the traditional Assisted Living and SCR(s), for example: laundry.

•	Assuming the exemption were granted, describe how these responsibilities of overnight staff in the traditional Assisted Living and SCR will change?
•	Does the SCR utilize emergency call buttons/pull cords in the SCR? YES: NO:
	 If yes, how many current SCR residents have demonstrated consistent ability to use the system:
	 Provide information on the shortest and longest recorded response times in the last 90 days; please explain the reason for delayed response, in both Traditional and SCR.
•	Describe how long it takes to conduct a round of hourly checks? How was this determined?

•	Describe the availability and locations of video surveillance in both SCR and traditional.

PHYSICAL SPACE

Attach detailed, easy-to-read floor plans of the Assisted Living Residence. The floor plan should include a scale to indicate all the dimensions of the residence. The plan should also clearly indicate the location of each of the following spaces within the ALR:

- Traditional AL units and the capacity for each unit
- Special Care Residences and the capacity for each unit
- Designated work area of overnight staff for both the Traditional / SCR units
- All common areas
- Wellness office/nursing stations
- All stairs and/or elevators
- All points of egress
- Proposed location of Floater(s) if granted an exemption
- Restricted Views, Separate Hallways, or visibility restrictions on SCR unit (s)
