

A photograph of a construction worker wearing a yellow hard hat, sunglasses, and a high-visibility vest, holding blueprints. The background shows the wooden framework of a building under construction.

Supplier Diversity Office (SDO) HUB Construction Classes

The HUB for construction is a centralized portal designed to facilitate and manage construction projects through the entire lifecycle. Learn the best way to use this tool by taking the free classes below!

Construction Opportunities for Owner Project Managers (OPMs)

In this class, participants will learn how to use the Hub to create and manage projects, select vendors, and award projects to prime contractors.
