

Competency Evaluation Tool for Epinephrine via Auto-Injector Device 'Return-Demonstration'

Name of Individual:			
Prescribed Auto-Injector Device:			
The Certified staff must observe the Trainer demonstrate a 'mock' Epinephrine administration, and then be observed by the Trainer, successfully completing a 'mock' return-demonstration of Epinephrine administration (via auto-injector 'TRAINER').			
	Pass (P), Fail (F), N/A	Comments	Procedure for Return-Demonstration of Administration of Epinephrine via Auto-Injector Device:
			The Certified staff:
1.			Follows all procedures for preparation of Epinephrine via auto-injector device for administration according to MAP Regulations, Policies, and Curriculum.
2.			Informs individual what is being done.
3.			Forms a fist around the Epinephrine via auto-injector device with the tip facing down and pulls off the safety cap (knows to NEVER put fingers over the tip).
4.			Places the Epinephrine via auto-injector device at a 90-degree angle on the individual's outer thigh (knows it may not be necessary to remove clothing since the auto-injector device may be designed to work through clothing).
5.			Holds the individual's leg firmly in place, if necessary, (e.g., if the individual is a young child) while administering the injection.
6.			With a quick motion, pushes the Epinephrine via auto-injector device firmly against the outer thigh, holds in place, and slowly counts the required number of seconds (specific to the prescribed auto-injector device before removing needle).
7.			Massages the injection site for the required number of seconds (if warranted for the prescribed auto-injector device).
8.			Knows even though a small amount of liquid may remain inside the auto-injector device after use, the device may not be used again.
9.			Knows to call 911 immediately for transportation to the emergency room.
10.			Knows that after EMS personnel arrive, the individual is cared for, and all emergency procedures are followed per Service Provider Policy, the HCP is notified.
11.			Knows how to properly dispose of the used auto-injector device.
12.			Knows how to document the Epinephrine administration according to MAP Regulations, Policies, and Curriculum.

Based on this Competency Evaluation Tool, I, as Trainer, have determined that the Certified Staff named below is competent to administer Epinephrine via auto-injector device to the **identified individual**.
