Re: SENIOR CITIZEN DISCOUNT PROGRAM & STANDARD VIDEO CABLE SERVICE

Dear Members of the Board,

The purpose of this letter is to outline the Senior Citizen Discount that Comcast will be offering eligible Seekonk residents upon the signing of the Renewal License dated November 3, 2010, and the continuation of the Standard Video Cable Service offering for the Seekonk schools and other municipal buildings. Comcast's decision to offer the above shall be a voluntary program in effect for the duration of this license.

SENIOR CITIZEN DISCOUNT PROGRAM:

Although Comcast offers a level of Basic Service that it feels is affordable, it is pleased to be able to provide a discount to qualified Senior Citizens in the Town of Seekonk for the duration of the license. To that end, Comcast will offer a discount of \$2.00 off its monthly Standard Service rate or that Digital Level of Service which most closely resembles the Standard Service as of the rate card in effect as of the date of execution of the Renewal License. Said discount will be provided to those subscribers aged sixty-five (65) or older, who are Heads of Household and are income eligible as hereinafter required. The subscriber must provide proof of his/her eligibility for the discount according to the following requirements:

1. PROOF OF AGE 65 OR OVER:

Acceptable documentation would include any of the following:

- a) Driver's License;
- b) Birth Certificate;
- c) Passport; or
- d) Lease.

2. HEAD OF HOUSEHOLD:

Acceptable documentation in the customer's name would include any one of the following:

- a) Lease;
- b) Deed;
- c) Tax bill; or

d) Cable bill if current customer.

3. INCOME ELIGIBILITY:

Acceptable documentation would include proof of receipt of any one of the following form of Federal, State or Municipal aid:

- a) Supplemental Security Income (SSI);
- b) Medicaid; or
- c) Massachusetts Fuel Assistance;

The purpose of the Senior Citizen Discount is to provide assistance to those eligible Seniors who are in real financial need of the discount. Therefore, Comcast has developed the criteria listed above that will provide the "needs-based" discount. Notwithstanding the above requirements, those subscribers who are currently enrolled in the Senior Discount program shall not be asked to qualify for the new discount.

Service To Public Buildings:

Comcast will continue to provide Standard Service or the Digital Level of Service most closely resembling Standard Service in Seekonk as of this date per the rate card, to the schools and municipal buildings which receive free drops and monthly cable service pursuant to Section 3.5 of the Renewal License, for the duration of this license. Comcast's decision to offer any part of the above program, which is in excess of that required by State Regulations, is a voluntary offer.

SECTION 2.4 - RESERVATION OF AUTHORITY

Nothing in this Renewal License shall: (a) abrogate the right of the Issuing Authority to perform any public works or public improvements of any description; (b) be construed as a waiver of any codes or bylaws/regulations of general applicability and not specific to the Cable Television System, Licensee, or this License; or (c) be construed as a waiver or release of the rights of the Issuing Authority in and to the Public Ways. SECTION 2.5 - NON-EXCLUSIVITY OF LICENSE

(a) This Renewal License shall not affect the right of the Issuing Authority to grant to any other Person a license or right to occupy or use the Public Ways or streets, or portions thereof, for the construction, upgrade, installation, operation or maintenance of a Cable Television System within the Town of Seekonk; or the right of the Issuing Authority to permit the use of the Public Ways and places of the Town for any purpose(s) whatsoever. (e) In the event that the Licensee believes that in the future another Licensee which has been granted a cable television license in the Town, has been provided relief by the Issuing Authority from a material obligation(s) of its license, which may include amendments to the license, that causes said other cable television license to be more favorable or less burdensome than this Renewal License, the Licensee may request, in writing, that the Issuing Authority convene a public hearing on that issue. Along with said written request, the Licensee shall provide the Issuing Authority with written reasons for its belief. The Licensee shall provide the Issuing Authority with such financial or other relevant information as is requested. At the public hearing, the Issuing Authority shall afford the Licensee an opportunity to demonstrate that such relief causes said other cable license to be more favorable or less burdensome than this Renewal License. Should the Licensee demonstrate that any such relief causes said other cable television license to be more

favorable or less burdensome than the Renewal License, the Issuing Authority shall consider and negotiate, in good faith, equitable amendments to this Renewal License.

SECTION 2.6 – POLICE AND REGULATORY POWERS

By executing this Renewal License, the Licensee acknowledges that its rights are subject to the powers of the Town and its right to adopt and enforce generally applicable by-laws in the lawful exercise of its police powers to the extent permitted by applicable law, with respect to the safety and welfare of the public. The Licensee shall comply with all applicable federal and State laws and regulation, and Town by-laws and lawful regulations, provided such Town bylaws and regulations are not specific to this License, the Licensee and/or Cable System. Any conflict between the terms of this Renewal License and any present or future lawful exercise of the Town's police and regulatory powers shall be resolved in a court of competent jurisdiction. Nothing in this Section 2.6 shall be deemed to prohibit the right of the Licensee to challenge the legality of a Town by-law or regulation.

SECTION 2.7 – REMOVAL OR ABANDONMENT

Upon termination of this Renewal License by passage of time or otherwise, unless: (1) the Licensee has its license renewed for another term, or (2) unless otherwise operating under the terms of this Renewal License as allowed by applicable law, the Licensee shall remove all of its supporting structures, poles, transmission and distribution systems, and other appurtenances from the Public Ways and shall restore the areas to their original condition as is reasonably possible and as soon as reasonably possible. If such removal is not complete within six (6) months of such termination, the Issuing Authority may deem any property not removed as having been abandoned. Upon written request of the Licensee, the Issuing Authority may waive this requirement for good cause shown.

SECTION 2.8 – TRANSFER OF THE RENEWAL LICENSE

(a) Pursuant to M.G.L. c. 166A, Section 7, as may be amended from time to time, neither the Renewal License, nor control thereof, shall be transferred, assigned or disposed of in any manner, voluntarily or involuntarily, directly or indirectly, or by transfer of control of any Person, company and/or other entity holding such Renewal License to any other Person, company and/or other entity, without the prior written consent of the Issuing Authority, which consent shall not be arbitrarily or unreasonably withheld. Such consent shall be given only after a public hearing upon a written application therefore on forms as may be prescribed by the FCC and/or the Cable Division. An application for consent to a transfer or assignment, if required, shall be signed by the Licensee and by the proposed transferee or assignee or by their representatives, evidence of whose authority shall be submitted with the application. A transfer or assignment of a license or control thereof between commonly controlled entities, between affiliated companies, or between parent and subsidiary corporations, shall not constitute a transfer or assignment of a license or control thereof under this Renewal License, unless otherwise provided by applicable federal or state law. An “affiliated company” is any Person or entity who owns or controls, is owned or controlled by, or is under common ownership or control with, such Person or entity.

(b) Pursuant to applicable state and federal law, as may be amended, in considering a request to transfer control of the Renewal License, the Issuing Authority shall consider the transferee's financial capability, management experience, technical expertise and legal ability to operate a Cable System under the existing license and may consider any other criteria allowable under applicable law or regulation.

(c) The consent or approval of the Issuing Authority to any assignment or transfer of the Renewal License granted to the Licensee shall not constitute a waiver or release of the rights of the Town in and to the streets and Public Ways or any other rights of the Town under the Renewal License, and any such transfer shall, by its terms, be expressly subordinate to the terms and conditions of the Renewal License.

(d) The Licensee shall submit to the Issuing Authority an original and one (1) copy, unless otherwise required by applicable law, of the application and FCC Form 394 requesting such transfer or assignment consent.

(e) The consent of the Issuing Authority shall be given only after a public hearing to consider the written application for transfer. Unless otherwise allowed by applicable law(s), the Issuing Authority shall make a decision on said written application within one hundred and twenty (120) days of receipt of said application. After 120 days, the application shall be deemed approved, unless said 120 day period is extended in writing by mutual agreement of the parties pursuant to applicable law.

(f) Any proposed controlling or owning Person or transferee approved by the Issuing Authority shall be subject to all of the terms and conditions contained in the Renewal License.

SECTION 2.9 – EFFECT OF UNAUTHORIZED TRANSFER ACTION

(a) Any transfer of the Cable System without the Licensee and the transferee complying with Section 2.8 above shall be null and void, and shall be deemed a material breach of this Renewal License.

(b) If the Issuing Authority denies its consent to any such action and a transfer has nevertheless been effected, the Issuing Authority may revoke and terminate this Renewal License, unless such transfer is otherwise allowable by applicable law.

(c) The grant or waiver of any one or more of such consents shall not render unnecessary any subsequent consent or consents, nor shall the grant of any such consent constitute a waiver of any other rights of the Town.

The Developer shall be responsible for the digging and back-filling of all trenches.

Section 6.3(a) below. (This date shall hereinafter also be referred to as the “I-Net Transition Date”.) From the I-Net Transition Date through the end of this Renewal License, the Licensee shall have no further responsibility to operate or maintain an I-Net within the Town. Licensee shall maintain ownership of all plant, electronics and other components of the existing Licensee-owned I-Net.

(b) Prior to the I-Net Transition Date, the Licensee shall maintain the I-Net to meet FCC Technical Standards, including as prescribed by 47 CFR Part 76 for video with accompanying audio signals. Licensee shall make repairs to the I-Net within a reasonable time after notice of a repair need.

(b) Pursuant to Section 4.3(a) above, underground cable lines shall be placed beneath the pavement sub-grade in compliance with applicable Town by-laws, rules, regulations and/or standards. It is the policy of the Town that existing poles for electric and communication purposes are utilized wherever possible and that underground installation is preferable to the placement of additional poles.

(c) Except as provided for in paragraph (a) herein, in the event that the Licensee is required to place existing aerial plant underground, the Licensee reserves its right to pass those costs through to Subscribers if and to the extent allowed by applicable law. In the event the Town develops an undergrounding project for which it plans to utilize Town funds to reimburse utilities for the cost of said undergrounding, it shall notify the Licensee of such and discuss with the

Licensee how the Licensee may be eligible for such funding consistent with equitable principles and applicable law.

(d) Nothing in this Section shall be construed to require the Licensee to construct, operate, or maintain underground any ground-mounted appurtenances such as customer taps, line extenders, system passive devices, amplifiers, power supplies, pedestals, or other related equipment.

SECTION 4.4 - TREE TRIMMING

Licensee shall have authority to trim trees upon and overhanging public streets, alleys, sidewalks and ways and places of the Town so as to prevent the branches of such trees from coming in contact with the wires, cables and equipment of Licensee, in accordance with MGL c. 87 and any Town bylaws/ordinances and regulations.

SECTION 4.5 – STRAND MAPS

(b) Licensee shall have the right to seek reimbursement under any applicable government program for reimbursement.

SECTION 4.9 - EMERGENCY REMOVAL OF PLANT

The Licensee shall have a representative present during such inspections.

SECTION 4.11 – PRIVATE PROPERTY

The Licensee shall be subject to all laws, by-laws and/or regulations regarding private property in the course of constructing, upgrading, installing, operating and maintaining the Cable Television System in the Town. SECTION 4.12 – PEDESTALS

In any cases in which pedestals housing active and passive devices are to be utilized, in Town Public Ways or within the Town public lay-out, such equipment must be installed in accordance with applicable Town, regulations and/or by-laws.

SECTION 4.13 – SERVICE INTERRUPTIONS

Except where there exists an emergency situation necessitating a more expeditious procedure, the Licensee may interrupt Service for the purpose of non-routine repairing, constructing or testing the Cable Television System only during periods of minimum use and, when practical, only after a minimum of forty-eight (48) hours notice to all affected Subscribers.

Licensee takes no responsibility for changes in its equipment or services that might render inoperable the remote control devices acquired by Subscribers.

SECTION 5.4 - STEREO TV TRANSMISSIONS

All broadcast signals that are transmitted to Licensee's headend in stereo shall be transmitted in stereo to Subscribers.

SECTION 5.5 – CABLE CHANNELS FOR COMMERCIAL USE

Pursuant to 47 U.S.C. 532 (Section 624 of the Cable Act), Licensee shall make available channel capacity for commercial use by persons unaffiliated with Licensee. (a) Use of channel capacity for Public, Educational and Governmental (“PEG”) Access shall be provided in accordance with federal law, 47 U.S.C. 531, and as further set forth below. Licensee does not relinquish its ownership of or ultimate right of control over a channel by designating it for PEG use. A PEG Access User – whether an individual, educational or governmental user – acquires no property or other interest by virtue of the use of a channel so designated, and may not rely on the continued use of a particular channel number, no matter how long the same channel may have been designated for such use. The PEG Access channels shall, other than provided in Section 6.1(c) below, be used exclusively as and/or for PEG Access channels and PEG Access Programming. The Licensee shall not exercise editorial control over any public, educational, or governmental use of channel capacity, except Licensee may refuse to transmit any public access program or portion of a public access program that contains obscenity, indecency, or nudity pursuant to Section 611 of the Cable Act, to the extent allowed by applicable law. This Section 6.1(c) shall not be effective for the first twelve (12) months of this Renewal License.

(d) The Licensee shall not change the PEG Access channel locations, without advance reasonable written notice to the Issuing Authority and its designated Access provider. SECTION 6.3 – PEG ACCESS CABLECASTING

From the Effective Date of this Renewal License Through the I-Net Transition Date

(a) In order that PEG Access Programming can be cablecast over Licensee's downstream PEG Access Channel(s) from the Effective Date of this Renewal License through the I-Net Transition Date (see Section 3.8(a) above), all PEG Access Programming shall be transmitted from any I-Net Building referenced in Exhibit 3.8 to the Licensee's hub-site or headend. Said

The Licensee shall not be responsible for the Town Fiber Link, including its maintenance, repair or replacement.

Applicable Both Before and After the I-Net Transition Date

(d) The Licensee shall provide, maintain, repair and/or replace all necessary switching and/or processing equipment located at its hub-site or headend in order to receive and switch upstream signals carrying PEG Access Programming to the appropriate Subscriber Network downstream PEG Access Channel in an efficient and timely manner. The Licensee shall own,

maintain, repair and/or replace any headend or hub-site audio and/or video signal processing equipment. The Licensee shall not charge the Town and/or its designee(s) for the aforementioned Licensee responsibilities.

Said statement shall list all of the general categories comprising Gross Annual Revenues as defined in Section 1.1(m).

(d) In the event that payments required to be made herein by the Licensee are not tendered on or before the dates fixed herein, interest due on such required payments shall accrue and be paid to the Issuing Authority or its designee from the date due at the Prime Rate at the Federal Reserve Bank of Boston or its successor.

FCC CUSTOMER SERVICE OBLIGATIONS

TITLE 47--TELECOMMUNICATION

CHAPTER I--FEDERAL COMMUNICATIONS COMMISSION

PART 76--CABLE TELEVISION SERVICE

Subpart H--General Operating Requirements

Sec. 76.309 Customer Service Obligations

(a) A cable franchise authority may enforce the customer service standards set forth in paragraph (c) of this Section against cable operators. The franchise authority must provide affected cable operators ninety (90) days written notice of its intent to enforce the standards. (b) Nothing in this rule should be construed to prevent or prohibit:

(1) A franchising authority and a cable operator from agreeing to customer service requirements that exceed the standards set forth in paragraph (c) of this Section;

(2) A franchising authority from enforcing, through the end of the franchise term, pre-existing customer service requirements that exceed the standards set forth in paragraph (c) of this Section and are contained in current franchise agreements;

(3) Any State or any franchising authority from enacting or enforcing any consumer protection law, to the extent not specifically preempted herein; or

(4) The establishment or enforcement of any State or municipal law or regulation concerning customer service that imposes customer service requirements that exceed, or address matters not addressed by the standards set forth in paragraph (c) of this Section.

(c) Effective July 1, 1993, a cable operator shall be subject to the following customer service standards:

(1) Cable system office hours and telephone availability--

(i) The cable operator will maintain a local, toll-free or collect call telephone access line which will be available to its subscribers 24 hours a day, seven days a week.

(A) Trained company representatives will be available to respond to customer telephone inquiries during normal business hours.

(B) After normal business hours, the access line may be answered by a service or an automated response system, including an answering Machine. Inquiries received after normal business hours must be responded to by a trained company representative on the next business day.

(ii) Under normal operating conditions, telephone answer time by a customer representative, including wait time, shall not exceed thirty (30) seconds when the connection is made. If the call needs to be transferred, transfer time shall not exceed thirty (30) seconds. These standards shall be met no less than ninety (90) percent of the time under normal operating conditions, measured on a quarterly basis.

(iii) The operator will not be required to acquire equipment or perform surveys to measure compliance with the telephone answering standards above unless an historical record of complaints indicates a clear failure to comply.

(iv) Under normal operating conditions, the customer will receive a busy signal less than three (3) percent of the time.

(v) Customer service center and bill payment locations will be open at least during normal business hours and will be conveniently located.

(2) Installations, outages and service calls. Under normal operating conditions, each of the following four standards will be met no less than ninety-five (95) percent of the time measured on a quarterly basis:

(i) Standard installations will be performed within seven (7) business days after an order has been placed. "Standard" installations are those that are located up to 125 feet from the existing distribution system.

(ii) Excluding conditions beyond the control of the operator, the cable operator will begin working on "service interruptions" promptly and in no event later than 24 hours after the interruption becomes Known. The cable operator must begin actions to correct other service problems the next business day after notification of the service problem.

(iii) The "appointment window" alternatives for installations, service calls, and other installation activities will be either a specific time or, at maximum, a four-hour time block during normal business hours. (The operator may schedule service calls and other installation activities outside of normal business hours for the express convenience of

the customer.)

(iv) An operator may not cancel an appointment with a customer after the close of business on the business day prior to the scheduled appointment.

(v) If a cable operator representative is running late for an appointment with a customer and will not be able to keep the appointment as scheduled, the customer will be contacted. The appointment will be rescheduled, as necessary, at a time that is convenient for the customer.

(3) Communications between cable operators and cable subscribers--

(i) Notifications to subscribers--

(A) The cable operator shall provide written information on each of the following areas at the time of installation of service, at least annually to all subscribers, and at any time upon request:

(1) Products and services offered;

(2) Prices and options for programming services and conditions of subscription to programming and other services;

(3) Installation and service maintenance policies;

(4) Instructions on how to use the cable service;

(5) Channel positions programming carried on the system; and,

(6) Billing and complaint procedures, including the address and telephone number of the local franchise authority's cable office.

(B) Customers will be notified of any changes in rates, programming services or channel positions as soon as possible in writing. Notice must be given to subscribers a minimum of thirty (30) days in advance of such changes if the change is within the control of the cable operator. In addition, the cable operator shall notify subscribers thirty (30) days in advance of any significant changes in the other information required by paragraph (c)(3)(i)(A) of this Section. Notwithstanding any other provision of Part 76, a cable operator shall not be required to provide prior notice of any rate change that is the result of a regulatory fee, franchise fee, or any other fee, tax, assessment, or charge of any kind imposed by any Federal agency, State, or franchising authority on the transaction between the operator and the subscriber.

(ii) Billing--

(A) Bills will be clear, concise and understandable. Bills must be fully itemized, with itemizations including, but not limited to, basic and premium service charges and equipment charges. Bills will also clearly delineate all activity during the billing period, including optional charges, rebates and credits.

(B) In case of a billing dispute, the cable operator must respond to a written complaint from a subscriber within 30 days.

(iii) Refunds--Refund checks will be issued promptly, but no later than either--

(A) The customer's next billing cycle following resolution of the request or thirty (30) days, whichever is earlier, or

(B) The return of the equipment supplied by the cable operator if service is terminated.

(iv) Credits--Credits for service will be issued no later than the customer's next billing cycle following the determination that a credit is warranted.

(4) Definitions--

(i) Normal business hours--The term "normal business hours" means those hours during which most similar businesses in the community are open to serve customers. In all cases, "normal business hours" must include some evening hours at least one night per week and/or some weekend hours.

(ii) Normal operating conditions--The term "normal operating conditions" means those service conditions which are within the control of the cable operator. Those conditions which are not within the control of the cable operator include, but are not limited to, natural disasters, civil disturbances, power outages, telephone network outages, and severe or unusual weather conditions. Those conditions which are ordinarily within the control of the cable operator include, but are not limited to, special promotions, pay-per-view events, rate increases, regular peak or seasonal demand periods, and maintenance or upgrade of the cable system.

(iii) Service interruption--The term "service interruption" means the loss of picture or sound on one or more cable channels.

EXHIBIT 9.5

BILLING AND TERMINATION OF SERVICE

207 CMR 10.00

10.01: Billing Practices Notice

- (1) Every cable television operator shall give written notice of its billing practices to potential subscribers before a subscription agreement is reached. Such notice shall include practices relating to the frequency and timing of bills, payment requirements necessary to avoid account delinquency, billing dispute resolution procedures and late payment penalties.
- (2) A copy of the cable television operator's billing practices notice, work order and sample subscriber bill shall be filed by March 15th of each year with the Commission, the issuing authority, and the company's local office, where they shall be available for public inspection. If an operator amends its billing practices notice, work order or subscriber bill after submitting the annual filing, it shall file copies of the amendments with the Commission, the issuing authority and the company's local office.
- (3) At least 30 days prior to implementing a change of one of its billing practices, the cable television operator shall notify in writing the Commission, the issuing authority and all affected subscribers of the change and include a description of the changed practice.
- (4) Statements about billing practices in work orders, marketing, materials and other documents shall be consistent with the billing practices notice.

10.02: Services, Rates and Charges Notice

- (1) The cable television operator shall give notice of its services, rates and charges to potential subscribers before a subscription agreement is reached.
- (2) At least 30 days prior to implementing an increase in one of its rates or charges or a substantial change in the number or type of programming services, the operator shall notify, in writing, the Commission, the issuing authority and all affected subscribers of the change and include a description of the increased rate or charge. The notice shall list the old and new rate or charge and, if applicable, the old and new programming services provided.
- (3) Every cable television operator shall fully disclose in writing all of its programming services and rates, upon request from a subscriber.
- (4) Every cable television operator shall fully disclose in writing all of its charges for installation, disconnection, downgrades and upgrades, reconnection, additional outlets, and rental, purchase and/or replacement due to damage or theft of equipment or devices used in relation to cable services, upon request from a subscriber.
- (5) Every cable television operator shall provide written notice of the charge, if any, for service visits and under what circumstances such charge will be imposed, upon request from a subscriber.
- (6) A copy of the cable operator's programming services, rates and charges shall be filed by March 15th of each year with the Commission, the issuing authority and the company's local office where it shall be made available for public inspection. If an operator amends its notice after the annual filing, it shall file a copy of the amendment with the Commission, the issuing authority and the company's local office.
- (7) A cable operator shall not charge a subscriber for any service or equipment that the subscriber has not affirmatively requested by name. This provision, however, shall not preclude the addition or deletion of a specific program from a service offering, the addition or deletion of specific channels from an existing tier of service, or the restructuring or division of existing tiers of service that do not result in a fundamental change in the nature of an existing service or tier of service.

10.03: Form of Bill

- (1) The bill shall contain the following information in clear, concise and understandable language and format:
 - (a) The name, local address and telephone number of the cable television operator. The telephone number shall be displayed in a conspicuous location on the bill and shall be accompanied by a statement that the subscriber may call this number with any questions or complaints about the bill or to obtain a description of the subscriber's rights under 207 CMR 10.07 in the event of a billing dispute;
 - (b) the period of time over which each chargeable service is billed including prorated periods as a result of establishment and termination of service;
 - (c) the dates on which individually chargeable services were rendered or any applicable credits were applied;
 - (d) separate itemization of each rate or charge levied or credit applied, including, but not be limited to, basic, premium service and equipment charges, as well as any unit, pay-per-view or per item charges;

- (e) the amount of the bill for the current billing period, separate from any prior balance due;
- (f) The date on which payment is due from the subscriber.
- (2) Cable operators may identify as a separate line item of each regular subscriber bill the following:
 - (a) The amount of the total bill assessed as a franchise fee and the identity of the franchising authority to whom the fee is paid;
 - (b) The amount of the total bill assessed to satisfy any requirements imposed on the cable operator by the franchise agreement to support public, educational, or governmental channels or the use of such channels;
 - (c) The amount of any other fee, tax, assessment, or charge of any kind imposed by any governmental authority on the transaction between the operator and the subscriber. In order for a governmental fee or assessment to be separately identified under 207 CMR 10.03, it must be directly imposed by a governmental body on a transaction between a subscriber and an operator.
- (3) All itemized costs shall be direct and verifiable. Each cable operator shall maintain a document in its public file which shall be available upon request, that provides the accounting justification for all itemized costs appearing on the bill.

10.04: Advance Billing and Issuance of Bill

- (1) In the absence of a license provision further limiting the period of advance billing, a cable operator may, under uniform nondiscriminatory terms and conditions, require payment not more than two months prior to the last day of a service period.
- (2) A cable subscriber may voluntarily offer and a cable operator may accept advance payments for periods greater than two months.
- (3) Upon request, a cable television operator shall provide subscribers with a written statement of account for each billing period and a final bill at the time of disconnection.

10.05: Billing Due Dates, Delinquency, Late Charges and Termination of Service

- (1) Subscriber payment is due on the due date marked on the bill, which shall be a date certain and in no case a statement that the bill is due upon receipt. The due date shall not be less than five business days following the mailing date of the bill.
- (2) A subscriber account shall not be considered delinquent unless payment has not been received by the company at least 30 days after the bill due date.
- (3) The following provisions shall apply to the imposition of late charges on subscribers:
 - (a) A cable television operator shall not impose a late charge on a subscriber unless a subscriber is delinquent, the operator has given the subscriber a written late charge notice in a clear and conspicuous manner, and the subscriber has been given at least eight business days from the date of delinquency to pay the balance due.
 - (b) A charge of not more than 5 percent of the balance due may be imposed as a one-time late charge.
 - (c) No late charge may be assessed on the amount of a bill in dispute.
- (4) A cable television operator shall not terminate a subscriber's service unless the subscriber is delinquent, the cable operator has given the subscriber a separate written notice of termination in a clear and conspicuous manner, and the subscriber has been given at least eight business days from the mailing of the notice of termination to pay the balance due. A notice of termination shall not be mailed to subscribers until after the date of delinquency.
- (5) A cable television operator shall not assess a late charge on a bill or discontinue a subscriber's cable television service solely because of the nonpayment of the disputed portion of a bill during the period established by 207 CMR 10.07 for registration of a complaint with the operator or during the process of a dispute resolution mechanism recognized under 207 CMR 10.07.
- (6) Any charge for returned checks shall be reasonably related to the costs incurred by the cable company in processing such checks.

10.06: Charges for Disconnection or Downgrading of Service

- (1) A cable television operator may impose a charge reasonably related to the cost incurred for a downgrade of service, except that no such charge may be imposed when:
 - (a) A subscriber requests total disconnection from cable service; or
 - (b) A subscriber requests the downgrade within the 30 day period following the notice of a rate increase or a substantial change in the number or type of programming services relative to the service (s) in question.
- (2) If a subscriber requests disconnection from cable television service prior to the effective date of an increase in rates, the subscriber shall not be charged the increased rate if the cable television operator fails to disconnect service prior to the effective date. Any subscriber who has paid in advance for the next billing period and who requests disconnection from service shall receive a prorated refund of any amounts paid in advance.

10.07: Billing Disputes

- (1) Every cable television operator shall establish procedures for prompt investigation of any billing dispute registered by a subscriber. The procedure shall provide at least 30 days from the due date of the bill for the subscriber to register a complaint. The cable television operator shall notify the subscriber of the result of its investigation and give an explanation for its decision within 30 working days of receipt of the complaint.
- (2) The subscriber shall forfeit any rights under 207 CMR 10.07 if he or she fails to pay the undisputed balance within 30 days.
- (3) Any subscriber in disagreement with the results of the cable television operator's investigation shall promptly inquire about and take advantage of any complaint resolution mechanism, formal or informal, available under the license or through the issuing authority before the Commission may accept a petition filed under 207 CMR 10.07(4).
- (4) The subscriber or the cable television operator may petition the Commission to resolve disputed matters within 30 days of any final action. Final action under 207 CMR 10.07(3) shall be deemed to have occurred 30 days after the filing of a complaint.
- (5) Upon receipt of a petition, the Commission may proceed to resolve the dispute if all parties agree to submit the dispute to the Commission and be bound by the Commission's decision and the Commission obtains a statement signed by the parties indicating that agreement. In resolving the dispute, the Commission may receive either written or oral statements from the parties, and may conduct its own investigation. The Commission shall then issue a decision based on the record and the parties shall receive written notification of the decision and a statement of reasons therefor.

10.08: Security Deposits

- (1) A cable operator shall not require from any cable subscriber a security deposit for converters or other equipment in excess of the cost of the equipment.
- (2) The cable operator shall pay interest to the cable subscriber at a rate of 7% per year for any deposit held for six months or more, and such interest shall accrue from the date the deposit is made by the cable subscriber. Interest shall be paid annually by the cable operator to the cable subscriber, either as a direct payment or as a credit to the cable subscriber's account.
- (3) Within 30 days after the return of the converter or other equipment, the cable operator shall return the security deposit plus any accrued interest to the cable subscriber, either as a direct payment or as a credit to the cable subscriber's account.
