## **Advisory: Boston**

### **Daytime Concrete Demolition Activities**

*Demolition will begin on Monday, September 15, no additional traffic impacts*

**BOSTON** - The Massachusetts Department of Transportation (MassDOT) is announcing concrete demolition activities in the vicinity of the Bowker Overpass in Boston, beginning the week of Monday, September 15. Crews will begin concrete demolition of certain elements within the project limits during daytime hours as part of the Bowker Overpass Bridge Replacement Project.

Concrete demolition will take place during daytime hours along Ipswich Street in the vicinity of the Bowker Overpass and will involve construction machinery removing portions of existing concrete structures to facilitate upcoming bridge construction. This work will occur within the contractor's established work zones.

This work is not expected to cause additional impacts to vehicular and pedestrian traffic.

Noise levels will be monitored during the demolition activities, and dust controls will be utilized and monitored for compliance.

This work is being conducted as part of an \$84 million project to replace the Bowker Overpass Bridge over I-90/Ipswich Street/MBTA Commuter Rail.

Appropriate signage and law enforcement details will be in place to guide drivers through the work area.

Drivers traveling through the area should expect delays, reduce speed, and use caution.

All scheduled work is weather dependent and subject to change without notice.
