

Summary of EIM/ESM UR/SDR Reference Guide

You use UR/Service Delivery Reports (SDRs) to bill against Unit Rate contracts. The SDR contains a roster of clients, each with a calendar for each service delivered for the month. You can bill for more than one Core Service or Add-on Service on the same day by using the multiple calendar functionality in the SDR. Billing for clients is completed by filling out attendance information for each month.

When the information is complete, the provider authorizes and submits the SDR to EIM, where the service lines are validated, approved, and then paid.

This reference guide provides users with the steps to successfully bill for UR/SDR contracts in EIM/ESM.

Note: This job aid has been updated to reflected EIM/ESM system enhancements that will become effective as of May 19, 2013.

UR/SDR Monthly Billing Process

1. Create a new SDR.
2. Enter the following:
 - SDR reference number, if applicable
 - SDR mode, if applicable
 - Service delivery information
 - Core
 - Add-On, if applicable
 - Client or Header level offsets, if applicable
 - SDR notes, if applicable
 - Client forms, if applicable

Important Reminder: After accessing the SDR, remember to unlock all enrollments before exiting.

3. Release the SDR.
4. Authorize the SDR.
5. Create a Supplemental if corrections to billing are needed.

Create an SDR

1. Select the **[Billing]** module.
2. Select **[Service Delivery Report Search]** from the navigation bar.

*The **Service Delivery Report Search** page appears.*

Record Service Delivery Information

Service delivery information may be entered in a single session or throughout the billing period and released at the end of the month.

Important Tips:

- For Providers using Client Interfaces (Meditech):* You can sort the SDR by Client ID, Enrollment ID, Client Name, and Provider Location. If sorting by Provider Location and you do not see a client record, check the Provider Organization Parent level location. All new or updated interfaced client enrollment records come into EIM at the Parent level of the organization from the agency enrolling system, i.e. Meditech. To learn more about Manage Enrollment Locations functionality, take online course 159: Manage Enrollment Locations in [PACE](http://www.pace.state.ma.us/vq) (www.pace.state.ma.us/vq).
- If you want to go to a page containing a specific client record, you can use the **[Go To Page Containing Client Last Name Starting With]** field. Simply enter all or part of a client's last name, click **[Go]**, and you will be brought to the page containing that record. You may need to scroll down to see it. Using this feature will "over-ride" any previous sorts.

If prior record is Rejected:

- If you are resubmitting services that were previously rejected, you must first void those services. (See following section)
- If the prior record includes more than one Service Code, the void will be applied to all

codes, including those that were not rejected. All service codes will have to be re-billed.

If prior record is Denied

- a. *If the prior services are denied, there is no need to void those services.*

Tip: See the Copy section for steps to copy the prior services to the supplemental calendar.

4. Enter services/resubmit correct information on the client record.

- a. Using the **Apply Service Pattern, Select Date section**,

1. Select the [**Select All**], [**Deselect All**] or check off the specific dates on the calendar that services were provided for selected client, by checking the checkboxes.
2. Select the [**Service Code**] drop down menu to choose the service code and select the [**Select**] button. (Selecting this button is required to generate the correct list of Attendance Codes)
3. Enter the [**Unit(s)**].
4. Select the [**Attendance Status**] from the drop down menu options.
5. Select the [**Apply**] button.
6. Select the [**Save Changes**] button. *A message appears, "Record has been updated successfully."*

5. Repeat above steps if there are additional calendars that need updating for the selected client.

Reminder: Once all of the billing information has been updated remember to Release and Authorize this Supplemental SDR.

Void Services on a Supplemental SDR

Note: If the SDR has been Rejected or Paid and services were incorrectly submitted, use the **Void** button to void the entire previous month's record. You can then resubmit the correct information.

1. Access the **Service Delivery Summary** page.
2. Select the Enrollment ID link for a client. *The **Record Service Delivery** page appears.*
3. Select the [**View Previous Service Delivery Reports**] button.

1. Access the Service Delivery Summary page.
2. Select the **[Delete SDR]** button.

☐ By checking this box, you hereby confirm that by clicking the "Authorize" or "Release" button below, you are providing data that is complete and accurate in all respects, and that you have been given authority by your organization to submit such data through EIM. If after submission of this record you determine that it is incorrect, you can submit a supplemental transaction to correct it. Please see the user guide for instructions on submitting supplemental transactions. You also acknowledge that it is not the intent of your organization to bill for any services that would result in payments exceeding the contracted amount. In such instances, the service data marked as "Claimed" is intended for reporting purposes only.

Note: You may not see the PRC you are searching for appear as a search result. Nightly system jobs will turn SDRs into electronic PRCs for Agency approval.

Tip: Providers can use the Invoice/SDR Reference Number field to search against a particular SDR Reference Number. An SDR Reference Number must be entered prior to SDR authorization to allow tracking via a provider-specific reference number.

Generate, View and Save an SDR Report

An SDR may be printed from the Report module or from the Service Delivery Summary page.

Notes to follow regarding how the two options differ:

- **SDR Summary page:** Printing from the Service Delivery Summary infers from the screen the SDR you want to print. Users may also select whether to include clients with delivered services, clients with no delivered services, or all clients.
- **Report Module:** Printing from the Report module allows the user to select input criteria and report output format. Users may also select whether to include clients with delivered services, clients with no delivered services, or all clients.

- Service Delivery Report may be printed by authorized users depending on their access level.

To generate and view from the SDR Summary page:

- Access the **Service Delivery Summary** page.

At the bottom of the SDR Summary page you will see the Print SDR button and three options:

- Only Clients with Delivered Services
- Only Clients with No Delivered Services
- All Clients (Default)

All Clients is the default. If you only want to see clients with delivered services or clients with no delivered services, you will need to select the appropriate radio button.
