^Population totals in county jail reporting charts represented figures as of last day of reporting period.

*Because correctional officers and staff generally receive testing and treatment from their personal physicians or some other outside healthcare provider, the confirmed positive cases consist of those correctional officers or staff that have reported that information to the county jails.

Weekly Report for DOC/Parole Board

^Population totals in DOC reporting charts represented figures as of last day of reporting period.

*Because correctional officers and staff generally receive testing and treatment from their personal physicians or some other outside healthcare provider, the confirmed positive cases consist of those correctional officers or staff that have reported that information to the DOC.

**Although these inmates have been approved for medical parole, an inmate will only be approved for release from DOC custody once the Parole Board has approved the inmate’s home plan. In addition, the Special Master has been working with DOC, the Parole Board, and CPCS to facilitate the finalization of release plans and the process for considering inmates who may be eligible for medical parole, but for whom a medical petition has not been filed.

***Certain figures in this column have been adjusted from DOC’s daily reports to the Special Master to reflect only the number of positive cases, rather than adjusting the number of cases to account for individuals who have recovered.
