^Population totals in county jail reporting charts represented figures as of last day of reporting period.

*The number of reported tests of correctional officers and staff consists of tests performed by the correctional facility, and, for most of the facilities, also includes tests of correctional officers and staff performed by outside healthcare providers that have been reported to the correctional facility. Some facilities, however, only report the tests of correctional officers and staff performed by the correctional facility.

^Population totals in DOC reporting charts represented figures as of last day of reporting period.

*Because correctional officers and staff generally receive testing and treatment from their personal physicians or some other outside healthcare provider, the confirmed positive cases consist of those correctional officers or staff that have reported that information to the DOC.

**Although these inmates have been approved for medical parole, an inmate will only be approved for release from DOC custody once the Parole Board has approved the inmate's home plan. In addition, the Special Master has been working with DOC, the Parole Board, and CPCS to facilitate the finalization of release plans and the process for considering inmates who may be eligible for medical parole, but for whom a medical petition has not been filed.

***Certain figures in this column have been adjusted from DOC's daily reports to the Special Master to reflect only the number of positive cases, rather than adjusting the number of cases to account for individuals who have recovered.

^^Beginning the week of November 25-December 2, figures in these columns were derived from the sum of by-facility data reported by DOC (applies to correctional officers and other staff).

#The Department of Correction performed an audit of its inmate testing figures through April 30, 2021, which resulted in updated aggregate figures for the number of inmate tests conducted and the number of positive results. As a result, beginning with the week of April 29-May 5, the aggregate totals reflected in this report will reflect the figures determined by the audit, rather than a summation of the figures reported by the Department of Correction prior to April 30, 2021.

[#]The Department of Correction performed an audit of its inmate testing figures through April 30, 2021, which resulted in updated aggregate figures for the number of inmate tests conducted and the number of positive results. As a result, beginning with the week of April 29-May 5, the aggregate totals reflected in this report will reflect the figures determined by the audit, rather than a summation of the figures reported by the Department of Correction prior to April 30, 2021.
