To Whom it May Concern,

The legislation being proposed that would allow clear cutting of MA forest is illconceived at best and counter to our goal as a State to be carbon neutral. We have plenty of available open space not to mention the available rooftop space, especially on commercial building. I have been selling Residential and Commercial Solar for 6 yrs now and know the Solar industry will thrive without clear-cutting our vital forests.

I ask that you oppose clear-cutting of any kind.

Sunny Regards,  
Liz
