Message from the Executive Director, Deferred Compensation

Introducing The Retirement Income Control Panel...

We are pleased to announce that the SMART Plan will now offer our participants an exciting and innovative new tool to help ensure you remain on track to reach your retirement goals. *The Retirement Income Control Panel* (RICP) will provide participants with a projection of how their SMART Plan account balance might translate into monthly income in retirement.

This projection is based on your current account balance, rate of deferral, years to retirement and pre-and-post retirement assumed rates of return. To see what your projected retirement income might be login to your SMART Plan account today.

If you do not have an online ID to access and view your account please contact a SMART Plan representative at (877) 457-1900. We will continue our work to enhance the Plan and provide you with industry best practices in order to give you the most ideal opportunity to reach your retirement savings goals.

David Lynch, Executive Director

Auto Deferral Increases

One important part of your retirement savings strategy is your savings deferral rate. For many participants it can be hard to keep track of. Your SMART Plan can help you make this step easier by allowing you to set up auto deferral increases on your account. Just visit the SMART Plan website, click on the **Transaction** tile and set up an annual increase to your contribution amount with a few easy steps:

- Click on **Change Paycheck Contribution**
- Select **Scheduled Increase** and click Continue
- Complete the fields and click Continue
- Review the **summary** of your auto deferral elections and click Submit

Visit www.mass-smart.com to take advantage of this enhancement.

SAVINGS TIP...
Starting to save for retirement early in your working years and annually increasing your deferral may give you the best chance of growing your retirement nest egg.

Rejoin the SMART Plan

Are you Taking Advantage of the Massachusetts Deferred Compensation SMART Plan?

If you have stopped contributing and would like to rejoin the SMART Plan...The Massachusetts Deferred Compensation SMART Plan is proud to be the trusted partner for your retirement savings. We understand that our responsibility as plan administrators begins with you, the participant, and helps to make a difference in your life in a practical and personal way. The SMART Plan continues to enrich the lives and futures of thousands of active employees and retirees who have successfully started their retirement journeys. This success can be measured by the testimony of one of our proud program participants:

"My advice is: join the SMART Plan right away and then just slowly increase contributions over the years. That way, when your 25 years go by, like mine did, in the blink of an eye, that money will be there for you."

Rick W., Lieutenant, Mass State Police

New Online Resource: The Retirement Income Panel

A new, powerful retirement planning tool will soon be offered on your SMART Plan website. Brought to you by the Advised Assets Group, the Retirement Income Control Panel will help you quickly and easily see if you're on track toward your retirement goals.¹

This tool will show participants their *projected retirement income* in retirement based on their current account balance, factoring in several assumptions such as average rate of return pre-retirement and post-retirement, taxes and current rate of deferral. By clicking on the tool, you can tailor the results by:

- Your annual salary;
- Your retirement age; and
- The percentage of income you want to replace.

You can also choose other income sources beyond the assets in your SMART Plan account so that your projected monthly amount is customized for you. Should you have any gaps with your retirement income goals, you'll be provided with recommendations on how to close them.

What will your retirement income projection be? Find out soon by logging onto your SMART Plan website to check out the Retirement Income Control Panel.

For illustrative purposes only.

¹ The Retirement Income Control Panel is provided as an educational tool for the participant's private use to assist in analyzing the various impacts of his or her savings and investment decisions. It is not intended to provide financial planning or investment advice. All information provided by the Retirement Income Control Panel is hypothetical and for illustrative purposes only.
