

Dear Commissioner Commissioner Judith Judson,

I am contacting as a resident of the Commonwealth to urge that you improve the Solar Massachusetts Renewable Target (SMART) program. Continued solar growth is critical to the Massachusetts economy and keeping our environment clean and safe for our families and future generations. We need more, not less truly renewable energy given the regressive energy policies in Washington.

Thank you for your work to continue Massachusetts' continued solar leadership. I appreciate the opportunity to weigh in on the new SMART program and hope you will make these much needed improvements.

Sincerely,

Sincerely,

Don Ogden
