Supporting Neighborhood Opportunity in Massachusetts

The Supporting Neighborhood Opportunity in Massachusetts (SNO Mass) program supports Housing Choice Voucher families with school-aged children making moves to communities with high quality schools, parks and open space and healthy, safe environments. SNO Mass helps families take full advantage of the “choice” embedded in the Housing Choice Voucher Program.

Where You Live Matters

Greater access to safe streets, strong schools, and healthy environments can make a huge difference to you and your family. The longer you live in these kinds of communities, the bigger the positive impact. Children who move to high-opportunity areas are much more likely to graduate college and earn, on average, \$300,000 more over their lifetimes than if they stay in a lower-opportunity neighborhood.

Neighborhood Matters

It has a BIG impact on your family. It can influence your family’s health, the quality of your child’s education, their future income and quality of life.

- It is a BIG decision. You shouldn’t have to rush into taking any apartment just because it’s available. It has to be the right place for your family.
- You have CHOICES. SNOMass can help you with the choices that matter most to you and your family.

Who is Eligible?

- A current Housing Choice Voucher holder who is in good standing with your housing agency, or an applicant on the waitlist.
