HOUSEHOLD GOODS AND FURNITURE

TRAVEL TIME

Time is computed from the time vehicle and helpers report at the original point of loading until the completion of unloading the last load at final destination, less time spent for meals or vehicle breakdown, plus an added charge for each vehicle and all helpers used, to cover running time which shall not be assessed more than once during any one day to the same shipper for the same vehicle as previously indicated.

DEFINITION - The term "Household Goods and Furniture" as used in this tariff means: The transportation of furniture and household goods in whole or in part incident to a move by a householder to or from a dwelling and a storage warehouse; or from one dwelling to another.

ESTIMATES/QUOTATIONS - Carrier cannot quote a firm price on a move from a residence or establishment to another if a public way has to be used by a vehicle. He may give a written estimate, but in doing so be qualified to estimate within twenty-five (25%) of the actual charges. The final charges to be assessed shall be in accordance with actual tariff rates.
