The purpose of this meeting is to present the South Bank Park 25% design plans. The proposed design creates a welcoming and accessible pathway connection and greenspace for people of all ages and abilities, including pedestrians and bikers. South Bank Park extends from the end of Lovejoy Wharf to the southern-most lock of the New Charles River Dam. The development of the South Bank Park is one of the mitigation measures required by the Central Artery/Tunnel Project in Boston.

The public will be invited to ask questions and provide feedback on the presentation, using the Q&A functionality that will be available through the virtual participation platform. After the meeting, the presentation will be available for viewing at <https://www.mass.gov/dcr/past-public-meetings>.
