

First	Last	Comment	City	State	Zip
Alex	Alvanos	<p>I use the Southwest Corridor daily for biking and walking -- both for work travel and for leisure. I live a block away from it in Jamaica Plain.</p> <p>First off, thank you for your care and maintenance of the corridor, including snow removal so I can continue to use it in the winter! It is a gem and real example of what is needed across the City of Boston.</p> <p>Here are my suggestions for improving the Corridor (PART 1):</p> <p>1) IMPROVE CLARITY OF BIKING/WALKING PATHS - Clearer demarcation of biking vs walking pathways, e.g., like the section near Northeastern University next to the fields. Frequently, pedestrians are walking in the bike pathway which can be dangerous. It is very confusing that the biking/pedestrian paths change from left to right.</p> <p>2) IMPROVE WALKING SECTION - Adding a walking section in the shade of the trees. Much of the walking pathways tend to be closer to the street and without shade, I'd strongly suggest having two pathways that are off the street and through the trees - one for biking, one for walking.</p> <p>3) IMPROVE TREES/SHADE - Replace trees and add canopy/density of plantings. I'm very thankful for all the mature trees along the Corridor. I've seen some trees die and get removed. And some areas don't have dense tree cover for shade. Please add more trees along the pathways and replace all tree/shrubs that have been removed.</p> <p>4) ADD TO DENSITY OF PLANTINGS FOR HABITAT/FOOD/GARDENS - Add density to the plantings to serve as habitat for songbirds, insects/pollinators, etc. And, add woody food producing plants (since they don't uptake led into the fruiting bodies of the plant), e.g., blueberry bushes, raspberry patches, paw paw groves, current bushes, hybrid Asian pears that don't require much care, persimmons, etc etc. Also, add sections for community gardening. The garden spaces all seem totally full, so increase capacity for more gardeners. (I'm running out of characters so I'll submit a second form.)</p>	Jamaica Plain	MA	02130
Alex	Alvanos	<p>Comments for improvement (PART 2):</p> <p>5) SAFETY/BIKEABILITY - Add better safety at connection points between pathways/streets, e.g., flashing pedestrian signs. Green cross walks. Many of the right turns have both a green light for cars, and a walk/bike signal for pedestrians which is dangerous. I've almost got hit many times by cars turning, or going too fast trying to run a yellow light.</p> <p>6) IMPROVE BIKING in BAY VILLAGE SECTION - Biking in Bay Village section is not clear and onerous. I don't know where I'm supposed to ride on the sidewalk vs in the street. I always feel like I'm in the pedestrians way, or going the wrong way down a one way street next to the walking path.</p> <p>7) IMPROVE INTERSECTIONS AT JACKSON SQUARE/CENTRE STREET, & ROX CROSS/TREMONT ST -- Two things. a) these are the longest intersections to get through (the walk signal takes a long time to come on). These intersections prioritize cars/street traffic, and takes a long time to get through as a biker/walker. Improve this especially for commuting times so bike/walking commuters can move faster too. b) these sections tend to have the most bike/walk traffic to get through a small curb cut. These could be widened, expanded.</p> <p>8) IMPROVE BIKE SECTIONS NEXT TO STONY BROOK STATION, RUGGLES/NORTHEASTERN PARKING GARRAGE, ROX CROSSING STATION, and MASS AVE STATION - these tend to be the worst marked for bikes Vs pedestrians and can be dangerous areas where collisions happen. Clearly demarkae paths for pedestrians and bikers. Paint lines. Create separate paths. Make it clearer and better for both to be able to use those sections without running into each other.</p> <p>9) LIGHT UP BASKETBALL COURTS -- this seems racist from the outside. Many of the tennis courts have lighting at night, but not the basketball courts. Add lighting. Put the lighting on one of the buttons you press, so people can walk up and use the court (but lights aren't always on so don't waste electricity). Have the lights go til 11pm or later.</p>	Jamaica Plain	MA	02130

Cole	Rainey-Slavick	<p>I am glad to see a plan to improve the southwest corridor park. I grew up along this park and have used it most days of my life. This park is a tremendous asset to the community, especially compared to a highway, but it could still use improvement.</p> <p>The most important improvement to make is to street crossings along and connecting to the corridor. There should be greater signal priority for pedestrians and people on bikes at these intersections, there should be more raised crossings, and there should be more stop signs for cars at these crossings. The crossing of New Minton St. should be prioritized for improvement especially as it is a blind crossing for cars headed west on the street and people headed south on the path. The crosswalk at Cornwall st. needs to have a crossing and curb cut added to align with the cut in the half wall for the path. New crossings connecting to the path and across the tracks should be added in various locations.</p> <p>Additionally the park needs higher quality bathrooms. The existing facilities amount to port-a-potties, which are often gross, only seasonal, and not always consistently in the same place. These should be replaced with year round indoor bathroom facilities at various locations along the park.</p> <p>A long term plan for decking over the tracks should be in the works to gradually expand the footprint of the park and connect both sides of the track.</p>	Boston	MA	02130
Jeff	Friedrich	Cover the open sections and turn them into additional park space.	Roxbury	MA	02119
Nat	Talbot	<p>I'm writing as a regular runner and cyclist on the Southwest Corridor Path, both for recreation and for commuting. The SWCP has been a regular commuting route for me for some time, and I am appreciative of the Action Plan being developed to revitalize the park.</p> <p>The primary concern I have had as a user of the SWCP, both on foot and by bike, is the safety of the intersections.</p> <p>There are a number of intersections, particularly on the more eastern side in Roxbury, that are very dangerous and open up users of the path to right hook accidents by vehicles traveling on Columbus Ave. The particular ones I have in mind are:</p> <ul style="list-style-type: none"> - The Prentiss Street intersection near Wentworth Institute of Technology. Often times there are many cars blocking the crosswalk here, making it hazardous to see if there are cars in the far lane while crossing. - The Cedar Street and Heath Street intersections are in need of signal separation. There is a high risk of right hooks from vehicles traveling on Columbus Ave as the walk signals are at the same time as the green light for those intersections. I have almost been hit on several occasions when crossing Heath Street, as this tends to be a very busy intersection <p>While understanding that a number of these intersections are likely the responsibility of the City of Boston rather than DCR, I would hope that the organizations can work together to make these safer for path users.</p> <p>The other thing that I would find useful would be an increase in signage for bicycle and pedestrian separation, where possible. Either widening the path and allowing easier mixed use, or improving the separated use, would allow pedestrians to travel on the path safely along with bicycles.</p>	Cambridge	MA	02139

Julia	Hopkins	I urge DCR to prioritize stated goals of ADA compliance, climate resilience, and above all equity to ensure SWCP thrives for generations to come. In particular, path widening, surface improvements, safety improvements could be made such as painted lines for bikes and peds at difficult intersections (Northeastern crossing w/pedestrians, Roxbury Crossing section), incorporation of green infrastructure like bioswales and rain gardens to mitigate flooding (biking through recent storms has been dangerous), contract with youth empowerment job corps like X-Cel Conservation Corp (trained in GSI site maint. at Boston Public Schools w/ CRWA) or Power Corp for ongoing maintenance to advance racial equity, and additional community gardens created for food justice in the Roxbury section - could work with Boston Food Forest Coalition for maintenance.	Boston	MA	02130
Jonathan	Stack	As an abutter to the SW Corridor and frequent user (bike commuter and a pedestrian with children), our family is very excited for this project! I wanted to suggest a bigger theme of creating more decking/bridges across the train tracks (for pedestrians and bikers only). One example that comes to mind is the Harvard campus's decking over Cambridge Street. Expanding and connecting the Corridor in this way will be transformative, and bring it closer to projects like Atlanta's BeltLine or NYC's High Line. Thanks for your work on this project! Jonathan	Jamaica Plain	MA	02130
Miriam and Mike	Kurland	All Massachusetts state parks and forests should be preserved to stay wild. No logging for private profit or state profit should be allowed. There should be no use of chemical pesticides or herbicides in state parks or forests. All state money should go for educational projects and preservation of trees and all wildlife in the forest ecosystems.	Williamsburg	MA	01096
Melissa	Hamel	Hello, I am writing to thank the DCR for considering the inclusion of dog parks and shared access areas for off-leash play along the Southwest Corridor Park. As you may know, Jamaica Plain is a neighborhood in Boston with the largest number of dogs and has no safe areas where our pets can play. Additionally, Jamaica Plain is unique from other neighborhoods because there are no available options for dog park development that are city-owned properties - with the exception of existing playgrounds and Franklin Park. The SWCP park is the most centrally located park land for JP residents and has become the "unofficial" dog park area for many of us. We believe it is time to make this safer for both our pets and the other park users by designating certain areas for off-leash play. These dog parks can either fenced, enclosed areas or shared-use (such as in Brookline) with proper limitations and signage. The Friends of JP Dog Parks has been working for over 20 years to establish these areas, but need the assistance and cooperation of the DCR. We welcome the opportunity to work with you as the Action Plan moves forward. Please reach out to me any time. Thank you, Melissa Hamel Friends of JP Dog Parks	Jamaica Plain	MA	02130

Matan	BenYishay	We need dog parks on the corridor please!	Boston	MA	02119
Rebecca	Arnold	As a Jamaica Plain resident and dog-owner, I would like to advocate for dog parks and/or shared-space off-leash play areas for our dogs. The SWCP has been the "unofficial" dog park for many years and is the most centrally located parkland for JP residents. We need safe areas for our dogs to exercise. Having either designated areas would make it safer both for our dogs as well as other park-users. Please consider adding several dog parks along the SWCP in Jamaica Plain. Thank you!	Boston	MA	02130
joseph	madrid	As a Jamaica Plain resident and dog-owner, I would like to advocate for dog parks and/or shared-space off-leash play areas for our dogs. The SWCP has been the "unofficial" dog park for many years and is the most centrally located parkland for JP residents. We need safe areas for our dogs to exercise. Having either designated areas would make it safer both for our dogs as well as other park-users. Please consider adding several dog parks along the SWCP in Jamaica Plain. Thank you!	boston	MA	02130
Christy	Pardew	Dear all at DCR, I'm a JP resident, parent of two kids (15 and 11) and a dog owner. We are a very active family and love and use the Southwest Corridor regularly and have for nearly 20 years. We have even had a number of our kids birthday parties there when they were younger! I am reaching out today to ask you all to include dog parks and shared space off-leash play areas for dogs in this plan. The Southwest Corridor is centrally located and is already a well-shared space -- bikers, gardeners, people playing sports, little kids, big kids, elders, walkers, skateboarders, picnickers, birthday-party-people -- all of these community members are already here sharing the space. And of course dogs are here, too -- but having a sanctioned space for them would truly make this space shine and would make it safer for both dogs and humans. Thank you for your time and consideration! Christy Pardew (and Juno)	Jamaica Plain	MA	02130
Jamie	Cohen	I'm hoping to see large enough dog parks to run & chase far thrown balls to exercise & meet the needs of our dog owning community. Ideally a fence to keep them from running into the road at least as a deterrent even if only on the road side.	Jamaica Plain	MA	02130
Katherine	Olson	As a Jamaica Plain resident and frequent user of the SWP, I would very much like to see some area for off-leash dog exercise. I don't have strong opinions on whether it is a "dog park" or whether it is a shared-use area such as the city of Brookline has in their parks. I do know that with the number of dogs in the area, the lack of official off-leash exercise areas means that people make choices for ad hoc space, which means encountering off-leash dogs when you aren't expecting it. Officially sanctioned area(s) help contain this.	Boston	MA	02119-31
David	Baron	There was a plan that DCR put some time and money into a couple of years ago to create a real dog park on the stretch of the SW corridor between the skateboard park and Green Street T stop. I would like to see that plan revived. It was a terrific park, almost all of the close-by neighbors (including us) supported it, and the whole plan was really just killed by one very active neighbor who loudly opposed. Wouldn't it be great to not reinvent the wheel and not have to spend money designing a whole new park? At any rate, there should be a dedicated dog park somewhere in the SW corridor in JP. There is a much smaller unused patch at the corner of Atherton and Lamartine that should also be considered. Thanks. Dave	Jamaica Plain	MA	02130

Jeane	Goodman	As a Jamaica Plain resident, I would like to advocate for dog parks and/or shared-space off-leash play areas for our dogs. The SWCP has been the "unofficial" dog park for many years and is the most centrally located parkland for JP residents. We need safe areas for our dogs to exercise. Having either designated areas would make it safer both for our dogs as well as other park-users. Please consider adding several dog parks along the SWCP in Jamaica Plain. Thank you!	Jamaica Plain	MA	02130
Patricia	Lautner	I have been living in JP for over 25 years and I am a dog owner. It's very frustrating that the needs of dog owners in this area of the city have been left unmet all these years. I am commenting in support of building multiple off-lease dog areas along the SWCP. Dogs are always going to be in the park. Let's provide safe designated dog play areas which will benefit all users of the park.	Boston	MA	02130
Josh	Rosenblatt	There are so many dogs who walk the park, but don't have any place to be safely off-leash! Please put in multiple fenced-in dog areas. This will meet the need, and also keep everyone safe and happy. Thank you!	Jamaica Plain	MA	02130
Patrick	Murphy	As a Jamaica Plain resident and dog-owner, I would like to advocate for dog parks and/or shared-space off-leash play areas for our dogs. The SWCP has been the "unofficial" dog park for many years and is the most centrally located parkland for JP residents. We need safe areas for our dogs to exercise. Having either designated areas would make it safer both for our dogs as well as other park-users. Please consider adding several dog parks along the SWCP in Jamaica Plain. Thank you!	Apt 1	MA	02130
Paul	Cirincione	As a 40 plus year resident of Jamaica Plain, I have seen the Southwest Corridor morph from piles of dirt to the parkland that it is today. Overall I am very pleased with what we have today. I do agree that the system is in need of an overhaul, but I do believe that it need not be a "major overhaul" necessarily. Some relatively minor improvements can go a long way. First and foremost, we desperately need a dog park along the corridor in Jamaica Plain. We have the highest concentration of dog owners of any city neighborhood, yet we don't have a single officially sanctioned off-leash area. There is just no excuse for not including a dog park in any re-design. Boston is an embarrassment when compared to other cities in this regard. My strong recommendation would be to turn Johnson Field into a mixed use park. The season for the Little League that uses this field is only about six weeks long. The other 46 weeks the field gets very little use. All you need to do is take a look at the mixed use fields in Brookline to see that it works out quite well. My second, and last suggestion is to add more benches along the walkways. Specifically the stretch between Hubbard St. and New Minton St, as well as along the Oakdale Street stretch. Thanks !	Jamaica Plain	MA	02130
David	Boyajian	As a Jamaica Plain resident and dog-owner, I would like to advocate for dog parks and/or shared-space off-leash play areas for our dogs. The SWCP has been the "unofficial" dog park for many years and is the most centrally located parkland for JP residents. We need safe areas for our dogs to exercise. Having either designated areas would make it safer both for our dogs as well as other park-users. Please consider adding several dog parks along the SWCP in Jamaica Plain. Thank you!	Jamaica Plain	MA	02130

Michael	Kriley	<p>The dog owning taxpayers of Boston need a dog park. There is a playground on nearly every block - so many that along the Southwest Corridor that they are way under utilized.</p> <p>The last plan for a dog park was a years long process that when finally approved was killed by a weak person defending a ridiculous case of NIMBYism.</p> <p>The nearest "abutters" were not even close enough to the proposed dog park to be affected. And the noise of the trains and commuter rail is way worse than any dog park I have ever been to.</p> <p>I live two blocks from a playground - now that's some noise...blood curdling screams that make you think someone is getting murdered....</p> <p>Please stop listening to a few people with their self interests in mind and do what is fair for the dog owners of Boston</p>	Jamaica Plain	MA	02130
Anna	Agan	As a Jamaica Plain resident and dog-owner, I would like to advocate for dog parks and/or shared-space off-leash play areas for our dogs. The SWCP has been the "unofficial" dog park for many years and is the most centrally located parkland for JP residents. Having designated areas would make it safer both for our dogs as well as other parkgoers.	Boston	MA	02130
Rhea	Becker	There are so many dogs who live in JP. Let's create spaces for dog owners to exercise their dogs. This a great move for dog owners, but also for folks who don't like dogs because the pups will have a place to run free without disturbing folks who are not fans. Thanks!	Jamaica Plain	MA	02130
Tim	Holden	I am a long-time Jamaica Plain resident and dog-owner. In order to safely exercise my dog in an off-leash environment, I have to utilize other town's dog parks. We are in desperate need of some off-leash space for dogs to exercise and play in Jamaica Plain and the SWCP would be ideal being centrally located and with numerous sizable areas available. Having designated areas would also make it safer for dogs, their owners and other park-users. Please consider adding several dog parks along the SWCP in Jamaica Plain. Thank you!	Jamaica Plain	MA	02130
Silva	Cameron	<p>I am writing as a 39-year resident of Jamaica Plain, and a dog owner. That our neighborhood has the most dogs registered of any Boston neighborhood, and yet has no off-leash dog park is a shame and needs to be remedied. I strongly support inclusion of a fenced dog park within the Southwest Corridor park, so the dog owning community in JP has a safe space to allow their dogs to exercise and run off leash a bit.</p> <p>Thank you.</p>	Jamaica Plain	MA	02130

Elizabeth	Skidmore	As an Atherton St resident and dog-owner, I would like to advocate for dog parks and/or shared-space off-leash play areas for our dogs as part of the improvements to the Southwest Corridor. The SWCP has been the "unofficial" dog park for many years and is the most centrally located parkland for JP residents. We need safe areas for our dogs to exercise. Having designated areas would make it safer both for our dogs as well as other park-users. Please consider adding several dog parks along the SWCP in Jamaica Plain. Thank you!	Roxbury	MA	02119
Ryan	Clinkscales	Dog parks are desperately needed in the JP area and there is plenty of room along the SWC.	Jamaica plain	MA	02130
Justin	Portmann Katz	As a former Jamaica Plain resident and dog-owner, I would like to advocate for dog parks and/or shared-space off-leash play areas as part of the South West Corridor. The SWCP has been the "unofficial" dog park for the 8 years I lived on Brookside Ave, and as a greenway connecting Forest Hills to downtown it is the most centrally located parkland for JP residents. We, the residents of Boston, need safe areas for our dogs to exercise. Having either designated areas would make it safer both for our dogs as well as other park-users. Please consider adding several dog parks along the SWCP in Jamaica Plain. I may not live there anymore, but I still feel strongly about it's impact on safe and vibrant community building. Rest assured I will also be advocating for dog parks in my new neighborhood, Met Hill of Roslindale. Thank you!	Roslindale	MA	02131
C	Caliga	Hi Amber It's Caliga. Several suggestions. Of course I'm advocating for dog parks along the Corridor in JP. We're getting our 1st dog park on city owned land at Flaherty Park. It will be small (7500 sq feet) but it's a start. Unfortunately there is no other city land available in JP for other dog parks. JP has more registered dogs than any other single zip code area in Boston. The SW Corridor runs the length of JP & many areas are already being used as de facto dog parks. We really need & indeed deserve more dog parks & the Corridor is the only place that could happen. As an RN for >45 yrs & a pet care provider/dog trainer for >33 yrs I can give you reputable sources, studies & articles which show the benefits of dog parks for both furry & non furry people. It's also true that a well exercised dog is a much better behaved dog. We need discreet (so as not to mar the park's beauty) signs stating "No smoking". It will make it much easier to tell folks they can't smoke in the Corridor. At the SW Corridor Park Alliance meeting you brought up the bike path which winds around Northeastern & runs next to the bike path on Columbus Ave. I advocated for that. It's only parallel for a short distance. People on the NU path usually continue on through the Corridor while folks on Columbus Ave often veer off in different directions. Also during rush hours often both are very busy. Please keep those bike paths as they are. It's working. Thanx! Caliga	Jamaica Pkain	MA	02130
Claudia	Dunne	Hello, I have lived in JP for 30 years & it's long overdue that residents who are dog owners are provided equal access to space to walk & exercise with our dogs. There is a huge need for dog friendly spaces & places across Boston. Please include dog parks and/or designated off-leash areas for this SW Corridor plan as well as other areas around Boston & beyond. Thank you.	Jamaica Plain	MA	02130
Michael	Foley	A Jamaica Plain fully fenced dog park is a necessity. Dogs need a space to run and play without concerns of bothering others or running away. It's long overdue and I support the park.	Boston	MA	02130

C	Caliga	<p>I see I was too verbose & some of my comment was cut off. This is Caliga again. I believe the beginning of my comment was lost. I was advocating for dog parks along the Corridor as there is no more City land available. We are finally getting our 1st dog park at Flaherty park (Yay!) which is however small (7500 sq ft) & won't serve all of JP. The SW Corridor runs the length of JP & is being used in many areas as a de facto dog park. We need several dog parks in the Corridor. As an RN of >45 yrs & a pet care provider/dog trainer for >33 yrs I've many reputable studies/ articles which support the benefits of dog parks for people, furry & non. A well exercised dog is also a better behaved dog. JP has the most registered dogs of any single zip code area of Boston. We need & deserve more dog parks in JP & the SW Corridor is our only hope</p>	Jamaica Plain	MA	02130
Robert	Havdala	<p>My family of four lives across the street from the Southwest Corridor park. We love our location - we are so fortunate to have such wonderful park, playgrounds, and tennis courts so close to our home. And yet, it is almost unthinkable that none of it is fenced in for dogs. I urge you to add a dog park to the Southwest Corridor.</p> <p>Unfortunately, the lack of a dog park and lack of action from DCR has led to conflict. Needing a place to exercise their dog, owners have unofficially adopted select open park spaces and tennis courts as their own, resulting in confrontation in person and in online neighborhood Facebook groups. Neither signage nor policing will solve the issue; I empathize with these dog owners, who just need to get their pet some exercise without driving to the suburbs.</p> <p>In short, JP needs a dog park, and the Southwest Corridor is the perfect place to do it. We are blessed to have three playgrounds for our children, a skate park, two tennis courts, and two splash pads on the corridor within 5 minutes of our home; it is only reasonable to make a dog park official as well.</p>	Jamaica Plain	MA	02130

Dianne	Sales	<p>As a Jamaica Plain resident and sometime dog-owner, I would like to advocate for dog parks and/or shared-space off-leash play areas for our dogs. The SWCP has been the "unofficial" dog park for many years and is the most centrally located parkland for JP residents.</p> <p>We need safe areas for our dogs to exercise. Having either designated dog areas or shared space allowing for off-leash play would make it safer both for our dogs as well as other park-users. Please consider adding several dog parks along the SWCP in Jamaica Plain.</p> <p>I also feel it important to say that dog owners pay taxes as well as families with children. (Some dog owners have human families, some do not.) We deserve to have equal consideration for our needs, as citizens and voters in this great city.</p> <p>Thank you for making sure that the parks provide equal access and consideration for ALL our citizens.!</p>	Jamaica Plain	MA	02130
Robert	Connell	<p>We really need an off leash dog park and there is so much potential and room near white stadium. Please include a dog park in your plans.</p>	Jamaica Plain	MA	02130
Susan	Foster	<p>I'd like to see:</p> <ol style="list-style-type: none"> 1. DOG parks! 2. More benches! 3. Water fountains! How can there be splash decks but no water fountains?? Makes no sense to me! 	Jamaica plain	MA	02130
Jaime	Zuckerman	<p>As a Jamaica Plain resident and dog-owner, I would like to advocate for dog parks and/or shared-space off-leash play areas for our dogs. The SWCP has been the "unofficial" dog park for many years and is the most centrally located parkland for JP residents. We need safe areas for our dogs to exercise. After 16 years of living in JP, when I got a dog I finally found community and connection to my neighbors. This area has a particularly large population of dog owners and providing us a sanctioned space fosters community that is SO FUNDAMENTALLY important and healthy for humans and dogs alike. Please consider adding several dog parks along the SWCP in Jamaica Plain. Thank you!</p>	Jamaica Plain	MA	02130

Maurizio	Pari di Monriva	I am a resident of Jamaica Plain and a dog owner. I know I speak for many of my neighbors when I say that we are in urgent need an off-leash play area for dogs that is centrally located. The Southwest Corridor has been a de facto play area for the neighborhood dogs, and I would like to see that formalized. Thank you for your consideration.	Jamaica Plain	MA	02130
Phyllis	Guiliano	I live across the street from the corridor park and I welcome the addition of designated dog parks.	Jamaica Plain	MA	02130
Sarah	Becker	As a Jamaica Plain resident and dog-owner, I would like to advocate for dog parks and/or shared-space off-leash play areas for our dogs. The SWCP has been the "unofficial" dog park for many years and is the most centrally located parkland for JP residents. We need safe areas for our dogs to exercise. Having either designated areas would make it safer both for our dogs as well as other park-users. Please consider adding several dog parks along the SWCP in Jamaica Plain. Thank you!	Jamaica Plain	MA	02130
Jane	Akiba	Please consider dog parks in your plans.	Jamaica	MA	02130
David	Heimann	Please make sure that the Southwest Corridor Park includes dog parks and exercise areas, especially areas where dogs can be safely off-leash. This will create safer spaces for dogs and their owners as well as for other park users. The park has been a friendly area for dogs for some time, and it's time to make that official. Thank you, David Heimann	Jamaica Plain	MA	02130

Susan	Hansen	<p>Hello, I think proper dog parks along the Southwest Corridor are well overdue. Please, realize that the vast amount of dog ownership is along her, especially Jamaica Plain. There is plenty of amenities for the two legged kind to play freely, but zero for our four legged family members. This is a reality that has been ignored for too long. Boston is a dog city, and dog parks should be as numerous as play areas, tennis courts, and splash pads!</p> <p>By the way I work closely with Janice Arrigo, she is tired of hearing me moan about this. Please, ask her nephew to help her out by planning more dog parks for SWC in Jamaica plain!</p> <p>Regards,</p> <p>Susan Hanse JP Resident, homeowner, and taxpayer</p>	Jamaica Plain	MA	02130
Allison	Comport	<p>As a Boston resident and dog-owner, I would like to advocate for dog parks and/or shared-space off-leash play areas for our dogs. The SWCP has been the "unofficial" dog park for many years and is the most centrally located parkland for JP residents. We need safe areas for our dogs to exercise. Having either designated areas would make it safer both for our dogs as well as other park-users. Please consider adding several dog parks along the SWCP in Jamaica Plain. Thank you!</p>	Boston	MA	02132
Quyen	Cao	<p>As a Jamaica Plain resident and dog-owner, I would like to advocate for dog parks and/or shared-space off-leash play areas for our dogs. The SWCP has been the "unofficial" dog park for many years and is the most centrally located parkland for JP residents. We need safe areas for our dogs to exercise. Having either designated areas would make it safer both for our dogs as well as other park-users. Please consider adding several dog parks along the SWCP in Jamaica Plain. Thank you!</p>	Boston	MA	02119
Ralph	Walton	<p>I would like to see an ADA. Compliant ramp starting opposite the middle of the Stony Brook Transit Station and connecting to the path to the crosswalk of Amory Street near the YES Building now under construction. Please make the design compliant but make Shure that it looks like it belongs in the existing retaining wall of salvaged rough huen blocks.</p>	Boston	MA	02130-2696
Meghan	Bridle	<p>Of leash dog areas please</p>	Boston	MA	02130

Tyler	MCEACHR ON	As a Jamaica Plain resident and dog-owner, I would like to advocate for dog parks and/or shared-space off-leash play areas for our dogs. The SWCP has been the "unofficial" dog park for many years and is the most centrally located parkland for JP residents. We need safe areas for our dogs to exercise. Having either designated areas would make it safer both for our dogs as well as other park-users. Please consider adding several dog parks along the SWCP in Jamaica Plain. Thank you!	Bosto n	MA	022 15
