

Spinning Rod

*Casting a
spinning rod*

Parts of a Spinning Rod

Rod butt: Rod end (where you hold it)

Reel handle: Used to retrieve the line

Spool: What the fishing line is wrapped around

Bail: Controls the line from coming off of the spool

Drag: Helps control the amount of pressure a fish can put on the fishing line

Fishing line: Thin and strong used to attach bait or tackle onto the fishing reel

Rod pole: Aids in how far an angler can cast

Eyelet guides: Holds the fishing line along the rod
