	Please conduct these counts on two of the following three days Tuesday, Wednesday, or Thursday.  (Three days would provide better data if counted)																															
• Please do not conduct these counts on Mondays or Fridays.																																
• Before asking your students to raise their hands, please read through all possible answer choices so they will know their choices. Each																																
Student may only answer once.  • Ask your students as a group the question "How did you arrive at school today?"																																
• Then, reread each answer choice and record the number of students that raised their hands for each. Place just one character or number in each box.																																
• Follow the same procedure for the question "How do you plan to leave for home after school?"																																
<ul> <li>You can conduct the counts once per day but during the count please ask students both the school arrival and departure questions.</li> <li>Please conduct this count regardless of weather conditions (i.e., ask these questions on rainy days, too).</li> </ul>
