

Massachusetts Safe Routes to School Walking, Biking & Rolling Activity Book

Activity One: Bingo

When outside (practicing safe social distancing and adhering to local health and safety guidelines) why not play a fun game of bingo? Check off the items you see when walking, biking, or observing from your place of residence.

Activity Two: Sneaker Coloring

Take a stroll in your stairwell, yard, place of residence, or community while practicing safe social distancing and adhering to local health and safety guidelines. When you finish your walk color this sneaker and place it in your window to let everyone know you are celebrating walking, biking, and rolling with Safe Routes to School.
