Public Stakeholder Meetings on Upcoming Massachusetts Advanced Clean Cars II Regulation

This Public Notice is available in alternative languages:

**Spanish | Chinese (Simplified and Traditional) | Haitian French
Creole | Portuguese | Vietnamese**

MassDEP will hold two online public stakeholder meetings to share information on upcoming regulatory efforts to address emissions from light- and medium-duty on-road vehicles. These efforts will accelerate the market for light-duty zero emission vehicles and reduce emissions of oxides of nitrogen and other criteria pollutants, toxic air contaminants, and greenhouse gases from light- and medium-duty vehicles.

The stakeholder meetings will cover Massachusetts' planned adoption in 310 CMR 7.40 *Low Emission Vehicle Program* of California's proposed Advanced Clean Cars II light- and medium-duty on-road vehicle regulations including:

- Zero Emission Vehicle standards
- Low Emission Vehicle IV standards on exhaust and evaporative emissions

The same material will be covered at each meeting. Register in advance at the below links. After registering, you will receive a confirmation email containing information about joining the meeting.

Tuesday, September 13, 2022 9:30 AM -11:30 AM (ET)
