

Steps for IID Beginning Process

Follow the steps below to enter the Ignition Interlock Device (IID) Program:

- Step 1** Visit an RMV Service Center and speak with an RMV Hearings Officer. The RMV Hearings Officer will explain the criteria for a conditional hardship license or for full reinstatement.
- Step 2** The Hearings Officer will verify your eligibility and then provide you with a list of approved Vendor/Service Providers and Affidavit(s) that must be completed, signed, notarized and returned to the RMV Hearings Officer.
- Step 3** Complete and have notarized the Ignition Interlock Operator's Affidavit. By signing this you certify that you understand that you need a functioning Ignition Interlock Device on all vehicles you own, operate or lease.
- Step 4** Return to an RMV Hearings Officer and submit the notarized affidavit(s) for approval of license reinstatement with an IID restriction.
- Step 5** Contact an IID Vendor/Service Provider to schedule an installation appointment. **DO NOT** plan to drive yourself to the appointment.
- Step 6** After IID installation, return to an RMV Service Center, pay a reinstatement fee and pass a learner's permit exam, if applicable.
- Step 7** Take and pass an Ignition Interlock road test.
