

Participant	Question
Michelle Papanicolaou	Where would PCR tests be entered in? Rather, what type are PCR tests?
sartori hobgood	If we submit a project request now how long before we receive the funds? Thanks im trying to figure out if something is disallowed how to seek reimbursement thru the state program
Brandon Gourgues	Should we upload invoices (even though they are not required) when we are submitting projects to avoid the CRC returning the project with an RFI later?
Carla McAuliffe	I have a BOH nurse that is splitting time between FEMA PA and FEMA Vaccine. We have health insurance associated with her unbudgeted hours. Should the insurance cost be split between FEMA PA and Vaccine reimbursements?
Shannon Lyonnais	How can we get a copy of this presentation?

Answer

in the Scope of Work section, applicants can select the "other activity" field and write a description of the tests.

Unfortunately, there are various State and FEMA reviews queues, so we are unable to provide a definitive timeframe for when applicants can expect funds.

We recommend including all necessary documentation that helps support expenses. Applicants need to demonstrate that costs were incurred to perform an eligible COVID-19 emergency response activity.

Applicants are encouraged to submit costs related to COVID-19 vaccines in separate projects. Please contact your assigned MEMA Project Coordinator to provide additional details.

All presentation materials will be uploaded to MEMA's website: <https://www.mass.gov/info-details/webinars-for-dr-4496-covid-19-federal-disaster-declaration-in-massachusetts#mema-summer-webinar-series---fema-public-assistance->
