Citizenship Affirmation

I am a U.S. Citizen

Residency Affirmation

I am a resident of the Commonwealth of Massachusetts

Statement of Intent

I intend to comply with and advance the policy established by this Act.

Statement of Interest

I have been considering becoming more involved in public service in MA, and feel this is a good opportunity to do that. I feel that the citizens of MA and the USA need to feel represented by those who are like them. Becoming involved in this commission would give me the opportunity to work with the citizens of the commonwealth and represent their views on this issue. My hope is that this commission will help improve the process by which we elect our public servants, and allow for a greater voice for the average citizen. My goal in joining this commission would be that, to give voice to the citizens of MA, and give voice to those who wish to be heard. I am also very concerned about the ability of corporations to pour money, unabated, into electing "their choice" for office. I believe myself to be qualified to serve on this commission. I have lived in MA for most of my life. I've raised my family in MA, and participated in voting every chance I have. I have a Master's degree from Fitchburg State University, in Counseling Psychology. I've been licensed by the State of MA as a counselor for 8 years. I've worked in the field of Health and Human Services for 20 years, and have worked or contracted with state agencies. I currently have a private practice in Leominster MA, I am an advocate for social justice, and would very much appreciate the opportunity to serve the citizens of MA on this commission. Thank you for considering me and my application.

Experience

Private Practice, Sue Henrickson LMHC LLC dab Pathways Counseling
August 2017 to Current

I am a community based private practice. I am credentialing with a variety of insurance agencies, and accepting new patients at this time. I have an agreement with a doctor in the area, who will be referred to if necessary for medication. I have extensive experience with adolescents and their families.

Clinical Director, Eliot Community Human Services — June, 2013 to July, 2017

As the Clinical Director in a Juvenile Justice program for adolescent males, I provided oversight and supervision of the delivery of Clinical Services in the program. All treatment, from the intake, to the discharge was under my direction. My responsibilities included oversight of individual therapy, group therapy, and family therapy for the youth in the program and their families. Other responsibilities included supervision of two residential clinicians, and meeting the policy requirements of the Department of Youth Services. I helped implement new treatment modalities into the milieu, such as Positive Youth Development, and Attachment, Regulation and Competency. Creating and maintaining a Trauma Informed Environment was also under my oversight.

Residential Clinician, Doctor Franklin Perkins School — June, 2006 to May, 2013

As a residential clinician, my responsibilities were to deliver therapeutic services to the children and families on my caseload. I engaged in individual therapy, group therapy and family therapy. I also provided crisis management and assisted in developing new programs at the agency, such as Trauma Informed Care.

Director of Training, Doctor Franklin Perkins School — July, 1998 to June, 2006

As Director of Training I was responsible for providing all professional development to the staff at the agency. I created and implemented a 40 hour new employee orientation program, and developed community based training programs that offered CEU's. I also assisted in the agencies licensing and accreditation process with DEEC, DOE, and the JCHCO accreditation process.

Case Manager, Doctor Franklin Perkins School — September, 1996 to June, 1998

Provided case management services to students and their families at the school.

Education

Fitchburg State University — MS in Counseling - May, 2009

Skills

Extensive experience working with youth and their families. Intake, assessment, diagnostics, treatment planning, using the virtual gateway, and discharge.
