Observations and Recommendations

1. The inmate population was 997 at the time of inspection.
2. The new Culinary Arts kitchen hood ventilation system was missing the required hood inspection stickers. As a result, the Culinary Arts kitchen exhaust system was not in compliance with the provisions for inspection, cleaning and labeling required by 527 CMR 1.00, Chapter 50 Commercial Cooking Operations. The Department recommends you contact the Department of Fire Services for further information.
3. During the inspection of the main kitchen, both warewash machines did not reach the appropriate temperature to properly sanitize dishes. It was stated that kitchen staff would use a chemical sanitizer to sanitize dishes until the proper temperature could be reached.

This facility does not comply with the Department's Regulations cited above. In accordance with 105 CMR 451.404, please submit a plan of correction within 10 working days of receipt of this notice, indicating the specific corrective steps to be taken, a timetable for such steps, and the date by which correction will be achieved.
