

## **Supported Employment Services (3168 / 3181 / 3196) FY26 Rate Implementation**

**October 31, 2025**

On October 24, 2025, the Executive Office of Health and Human Services (EOHHS) promulgated updates to [\*101 CMR 419.00: Rates for Supported Employment Services\*](#). These rate updates are also reflected in the FY26 Regulated Rate Table posted on the [DDS Contracts Information](#) webpage. Rate changes are effective retroactively July 1, 2025.

DDS has entered the new billing rates in EIM. DDS will process retroactive payments to reimburse for the difference between the current billing rate and the new billing rate for all attendance that has already been paid since July 1, 2025. New attendance entered after October 29, 2025, will be paid at the new billing rate.

At this time, DDS will not increase the maximum obligation of contracts. Amendments to the maximum obligation of contracts will only be performed after utilization review and as necessary.
