

MA Coastal Designated Shellfish Growing Areas for the Surf Clam & Ocean Quahog Fishery

The above map shows areas that are ordinarily open (hatched areas closed) to surf clamming and ocean quahogging. Occasionally, public health closures may be put into effect due to emergency conditions, i.e., harmful algal blooms, oil spills, etc. Special notices and maps may be found at <http://www.mass.gov/marinefisheries/programsandprojects/surfclam.htm>
