

Survey of Sentencing Practices

FY 2023

December 2024

**Massachusetts Sentencing Commission
John Adams Courthouse
One Pemberton Square, RM G320
Boston, MA 02108**

Voice: (617) 788-6867

Fax: (617) 788-6885

Acknowledgements

The Massachusetts Sentencing Commission would like to acknowledge the assistance of the many individuals and agencies who assisted in the preparation of this survey of sentencing practices. In particular, the commission is indebted to the staff of the District and Superior Courts who enter data and maintain MassCourts, the court systems case tracking system. The commission is also grateful to the Office of the Commissioner of Probation who maintain and update the Court Activity Record Information (CARI) database. The commission would also like to acknowledge the continued assistance of the Department of Criminal Justice Information Services (DCJIS). The commission made extensive requests of DCJIS in the data collection phase of this project.

Executive Summary

The Massachusetts Sentencing Commission (commission) was directed by the legislature to conduct a comprehensive survey of sentencing practices. This report updates earlier surveys of sentencing practices which began as part of the process of formulating sentencing guidelines. The present survey considers those individuals convicted in the courts of the commonwealth during FY 2023. The survey considers the nature of the sentence imposed following conviction, including sentences to probation or incarceration. Further, the survey presents the length of sentences imposed when those sentences include a period of incarceration.

Throughout the report the sentencing guidelines grid is used as a framework for the analysis. This allows for the seriousness of the offense of conviction and the criminal history of the defendant to be considered in relation to observed sentencing practices.

Some highlights from the FY 2023 survey of sentencing practices are:

- There were an estimated 19,504 convicted defendants in FY 2023.
- Of the 19,504 convictions in FY 2023:
 - 87.7% were in the district court, and
 - 12.3% were in the superior court.
- Of the incarcerated defendants, 84.7% were sentenced to a house of correction and 15.3% were sentenced to state prison (Department of Correction: DOC).
- Of the incarcerated superior court defendants, 29.2% were sentenced to a house of correction and 70.8% were sentenced to the DOC.
- For state prison sentences, the median minimum state prison sentence was 42.0 months and the median maximum state prison sentence was 60.0 months.
- For house of correction sentences, the median sentence length was 6.0 months.
- There were an estimated 230 convictions for mandatory drug offenses of which only one (0.4%) was sentenced to a house of correction, 99.6% to the DOC.

- For those defendants convicted of offenses assigned to the sentencing guidelines grid:
 - The overall incarceration rate was 45.9%.
 - The district court incarceration rate was 42.7%.
 - The superior court incarceration rate was 72.9%.
 - With respect to the sentencing zones on the sentencing guidelines grid:
 - 6.5% of the defendants were classified in the incarceration zone.
 - 62.5% of the defendants were classified in the discretionary zone.
 - 30.3% of the defendants were classified in the intermediate sanctions zone.
 - 0.7% of the defendants were not classified to a sentencing zone.

- For those defendants convicted of offenses not assigned to the sentencing grid:
 - There were an estimated 230 convictions for mandatory drug offenses.
 - There were an estimated 558 convictions for mandatory firearms offenses.
 - There were an estimated 2,098 convictions for OUI offenses.

- For all convicted defendants:
 - 14.6% of all convicted defendants were female.
 - 85.3% of all convicted defendants were male.

 - The mean age of convicted defendants at the time of disposition was 39 years and ranged from 18 years to 90 years.

 - 52.7% of all convicted defendants were White.
 - 24.6% of all convicted defendants were Hispanic.
 - 18.7% of all convicted defendants were Black/African-American.
 - 1.1% of all convicted defendants were Asian.
 - 1.4% of all convicted defendants were of another race.
 - The race was unknown for 1.7% of the defendants.

- For those defendants incarcerated for offenses assigned to the sentencing guidelines grid:
 - defendants with more serious (higher) governing offense levels were incarcerated at higher rates across all race/ethnic groups in both the superior and district courts, and
 - defendants with more serious criminal histories were incarcerated at higher rates across all race/ethnic groups in both the superior and district courts.

- The average minimum state prison term increased with offense seriousness and criminal history. The lowest average minimum sentence ranged from a low of 24.0 months in grid cell “2A” to a high of 198.0 months in grid cell “8D”. This pattern was similar across all race/ethnic groups.
- The average minimum state prison term for offenses assigned to the grid (excludes murder) were:
 - 62.6 months for White defendants
 - 57.6 months for Black/African-American defendants
 - 55.9 months for Hispanic defendants, and
 - 54.5 months for Asian defendants.
- The average maximum state prison term for offenses assigned to the grid (excludes murder) were:
 - 77.9 months for White defendants
 - 70.8 months for Black/African-American defendants
 - 69.5 months for Hispanic defendants, and
 - 67.1 months for Asian defendants.
- The average house of correction term also increased with offense seriousness and criminal history. This pattern was true for both the superior and district court departments, though sentences in the superior court were significantly longer than those imposed in the district court. These patterns were also observed across all race/ethnic groups.
- The average house of correction term in the superior court was:
 - 17.1 months for Hispanic defendants
 - 16.7 months for White defendants
 - 15.5 months for Black/African-American defendants, and
 - 14.3 months for Asian defendants.
- In district court, the average of house of correction term was:
 - 7.5 months for Black defendants
 - 7.2 months for Hispanic and Asian defendants, and
 - 6.3 months for White defendants.

**MASSACHUSETTS SENTENCING COMMISSION
SURVEY OF SENTENCING PRACTICES
FY 2023**

PART I. THE MASSACHUSETTS SENTENCING COMMISSION

BACKGROUND OF THE SENTENCING COMMISSION

The Massachusetts Sentencing Commission (commission) was established by Chapter 432 of the Acts of 1993 as “an independent commission within the judicial branch of the commonwealth”¹ whose purpose was “to recommend sentencing policies and practices for the commonwealth.”² Legislation pertaining to the commission was later codified in the Massachusetts General Laws as c. 211E.³ The commission submitted its recommended sentencing guidelines in April 1996.⁴ A legislative hearing on the report was held by the Joint Committee on Criminal Justice in July 1996.

Sentencing guidelines legislation based on those recommendations was filed in December 1996.⁵ In June 1997, the Joint Committee on Criminal Justice held a hearing on the sentencing guidelines legislation. The guidelines legislation did not come to a vote in the 1997-1998 legislative session and the sentencing guidelines legislation was filed for consideration in the 1999-2000 legislative session and in the 2001-2002 legislative session.^{6 7} The Joint Committee on Criminal Justice held hearings on this legislation in May 1999 and May 2001. In October 2001 the House of Representatives voted to engross the sentencing guidelines legislation but no further action was taken during that session.⁸ Sentencing guidelines legislation was filed for consideration during the 2003-2004 legislative session.⁹ A hearing on this legislation was held on May 21, 2003 but the guidelines legislation did not come to a vote during that session. Sentencing guidelines legislation was filed for consideration during the 2005-2006 legislative session and hearings were held November 22, 2005.¹⁰ Sentencing guidelines legislation was filed for the 2007-2008 legislative

² St. 1993, c. 432 § 2.

³ St. 1996, c. 12.

⁴ Massachusetts Sentencing Commission, *Report to the General Court*, April 10, 1996.

⁵ Filed for the 1997-1998 legislative session as Senate No. 135 and House No. 2634.

⁶ Filed for the 1999-2000 legislative session as Senate No. 198 and House No. 1521.

⁷ Filed for the 2001-2002 legislative session as Senate No. 1004 and House No. 3497.

⁸ The guidelines legislation was reported out of the Criminal Justice Committee as House 4596 and was engrossed as House 4642 on October 9, 2001 by a vote of 126 to 19.

⁹ Filed for the 2003-2004 legislative session as Senate No. 219 and House Nos. 2749, 2750, and 3302.

¹⁰ Filed for the 2005-2006 legislative session as Senate No. 1064 and House Nos. 813, 682, 683, and 938.

session and hearings were held November 13, 2007.¹¹ Sentencing guidelines legislation was filed for the 2009-2010 legislative session and those bills were referred for further study.¹² Sentencing guidelines legislation was filed for the 2011-2012, 2013-2014, and 2015-2016 legislative sessions and those bills were referred to the Committee on the Judiciary.¹³

In 2014, the Massachusetts Sentencing Commission was re-constituted with nine new voting members. In November 2017, the commission issued advisory sentencing guidelines, see *Advisory Sentencing Guidelines, Massachusetts Sentencing Commission, (November 2018)*.¹⁴ New appointments to the present commission are currently being finalized.

Sentencing Guidelines Grid

The advisory sentencing guidelines are in the form of a sentencing guidelines grid. The vertical axis of the grid is comprised of ten levels of offense seriousness, ranging from level 0, the lowest level of offense seriousness, to level 9, the highest level of offense seriousness. The horizontal axis of the grid is comprised of five categories of defendant criminal history, ranging from criminal history category A, “No/Minor Record” to criminal history category E, “Serious Violent Record”. There is also a column containing the suggested maximum probation term for each offense seriousness level. The resulting grid is divided into three sentencing zones: the “incarceration zone”; the “discretionary zone”; and, the “intermediate sanction” zone. A detailed description of the advisory sentencing guidelines can be found in the *Advisory Sentencing Guidelines, Massachusetts Sentencing Commission, (November 2018)*. The sentencing guidelines grid is shown in Figure 1. The definition of the criminal history groups is contained in Appendix A.

¹¹ Filed for the 2007-2008 legislative session as Senate No. 1034 and House Nos. 1415,1569, 2264, and 2265.

¹² Filed for the 2009-2010 legislative session as Senate Nos. 1679 and 1860 (referred to study on October 24, 2010 by S. 2631) and House No. 1518 (referred to study on May 19, 2010 by H. 4691).

¹³ Filed for the 2011-2012 legislative session as Senate No. 743 and House No. 1340; 2013-2014, House No. 1466; 2015-2016, House No. 1458.

¹⁴ Massachusetts Sentencing Commission, *op. cit.*

Figure 1. Sentencing Guidelines Grid

Level	Example	Presumptive Sentence Range					Suggested Maximum Probation Term Range
		A	B	C	D	E	
9	Murder	Life	Life	Life	Life	Life	3 Y e a r s
8	Manslaughter (Voluntary)	96 - 144 Mos.	108 - 162 Mos.	120 - 180 Mos.	144 - 216 Mos.	204 - 306 Mos.	
7	Armed Robbery (Gun)	60 - 90 Mos.	68 - 102 Mos.	84 - 126 Mos.	108 - 162 Mos.	160 - 240 Mos.	
6	Manslaughter (Involuntary)	40 - 60 Mos.	45 - 67 Mos.	50 - 75 Mos.	60 - 90 Mos.	80 - 120 Mos.	2 Y e a r s
5	Indecent A&B on Child Under 14	12 - 36 Mos.	24 - 36 Mos.	36 - 54 Mos.	48 - 72 Mos.	60 - 90 Mos.	
4	Larceny From a Person	0 - 24 Mos.	3 - 30 Mos.	6 - 30 Mos.	20 - 30 Mos.	24 - 36 Mos.	
3	A&B DW (No or minor injury)	0 - 12 Mos.	0 - 15 Mos.	0 - 18 Mos.	0 - 24 Mos.	6 - 24 Mos.	1 Y e a r
2	Assault		0 - 6 Mos.	0 - 6 Mos.	0 - 9 Mos.	0 - 12 Mos.	
1	Operating Aft Suspended Lic				0 - 3 Mos.	0 - 6 Mos.	
0	Lic Law Violation (not MV) Violation Town By-Law	IS-0					
Criminal History Scale		A No/Minor Record	B Moderate Record	C Serious Record	D Violent or Repetitive	E Serious Violent	

Sentencing Zones

- Incarceration Zone
- Discretionary Zone (incarceration/intermediate sanction)
- Intermediate Sanction Zone
- No supervision, no fines, no fees zone

The numbers in each cell represent the range from which the judge selects the maximum sentence (Not More Than);
The minimum sentence (Not Less Than) is 2/3rds of the maximum sentence and constitutes the initial parole eligibility date.

CURRENT ROLE OF THE SENTENCING COMMISSION

The mission of the commission is to promote truth-in-sentencing by formulating uniform sentencing policies, developing systematic sentencing guidelines, and integrating intermediate sanctions within the sentencing guidelines.

Monitoring

In developing the sentencing guidelines, the legislation directed the commission to conduct a comprehensive survey of sentencing practices:

The commission shall conduct an empirical study in order to ascertain, to the extent practical, a survey of those individuals appearing before the commonwealth's criminal courts, and those committed to probation, prison, and jail. It should also include the average sentence imposed for all offenses prior to the promulgation by the commission of the sentencing guidelines, and the length of prison terms actually served in those cases.¹⁵

Further, the commission has ongoing responsibilities for monitoring sentencing practices:

The commission periodically shall assess the impact of the sentencing guidelines in order to determine the type and amount of correctional resources needed. In particular, the commission shall examine the impact of said guidelines on intermediate sanctions and correctional institutions and may consult with all appropriate authorities for this purpose.¹⁶

The commission included a survey of sentencing practices when completing its 1996 recommendations.¹⁷ The original survey of sentencing practices covered the period of FY 1994, or July 1, 1993 through June 30, 1994. The series of annual surveys of sentencing practices continued through FY2013. The annual survey series was paused in FY2014. In 2019, a FY2018 survey of superior court sentencing practices was issued.¹⁸ This report includes a survey of superior court and district court sentencing for the first time since FY2013.

Training

The advisory sentencing guidelines are currently in voluntary use in many courts. The commission is involved in training court practitioners in the use of sentencing guidelines. The commission maintains the *Felony and Misdemeanor Master Crime List* which contains basic sentencing information for those criminal offenses which are punishable by an imprisonment term and serves as a reference guide to the advisory sentencing guidelines for those offenses.¹⁹

¹⁸ *FY 2018 Survey of Superior Court Sentencing Practices*, (October 2019). Massachusetts Sentencing Commission.

¹⁹ Massachusetts Sentencing Commission, *Felony and Misdemeanor Master Crime List*, June 2018.

Information Resource

The commission is also responsible to:

. . . serve as a clearinghouse for the collection, preparation, and dissemination of information on sentencing practices and assist courts, departments, and agencies in the development, maintenance, and coordination of sound sentencing practices.²⁰

The current report serves to meet this responsibility of the commission.

RECENT DEVELOPMENTS IN SENTENCING POLICY

In the spring of 2018, two comprehensive criminal justice reform bills – *An Act Implementing the Joint Recommendations of the Massachusetts Criminal Justice Review* and *An Act Relative to Criminal Justice Reform* – were enacted.²¹ These laws made important revisions to several existing sentencing provisions, evidence of which may be seen in the FY 2023 data, including:

- repealed offense of being in the presence of heroin;
- limited applicability of school zone law to cases involving guns or minors;
- eliminated mandatory minimum for second offense distribute class B;
- eliminated mandatory minimum for first offense distribute cocaine/PCP/meth;
- eliminated mandatory minimum for second offense distribute cocaine/PCP/meth;
- eliminated mandatory minimum for second offense distribute class C;
- eliminated mandatory minimum for second offense distribute class D;
- eliminated mandatory for sales of drug paraphernalia;
- made all federally scheduled synthetic opioids class A drugs;
- modified fentanyl trafficking statute;
- added mandatory minimum sentence for trafficking in carfentanil;

- strengthened penalties for intimidation of a witness;
- strengthened penalties for solicitation of murder and other crimes;
- expanded district court jurisdiction;
- strengthened penalties for corporate manslaughter;
- strengthened penalties for high repetition of OUI offenses;
- strengthened penalties for reckless homicide by motor vehicle;
- created new crime of assault and battery on a police officer causing serious injury;
- created new crime of unlawful possession of credit card scanners;
- expanded crime of providing false information to police officers; and

- raised the threshold that defines felony larceny from \$250 to \$1,200 so making more cases misdemeanors.

²⁰ G.L. c. 211E § 1(c)(7).

PART II. SURVEY OF SENTENCING PRACTICES

The results of the survey of sentencing practices are presented in this section. Additional statistical results are presented in Appendix B. The method used to develop the statistical estimates of sentencing practices is described in Appendix A.

SENTENCING PRACTICES: OVERVIEW

Sentencing Practices: Court Department

Fiscal Year 2023 (FY 2023) covers the period July 1, 2022 through June 30, 2023. During this period there were an estimated 19,504 convictions in the courts of the Commonwealth. As indicated in Table 1, there were 17,107 convictions in the district court, representing 87.7% of all convictions, and 2,397 convictions in the superior court, representing 12.3% of all convictions.

Table 1. Month of Conviction by Court Department

Month	District Court	Superior Court	All Courts
July	1,305	146	1,451
August	1,464	182	1,646
September	1,592	215	1,807
October	1,429	211	1,640
November	1,383	160	1,543
December	1,305	190	1,495
January	1,452	209	1,661
February	1,317	175	1,492
March	1,547	258	1,805
April	1,284	171	1,455
May	1,595	229	1,824
June	1,434	251	1,685
Total	17,107	2,397	19,504

Sentencing Practices: County

There are fourteen counties in Massachusetts. As indicated in Table 2, the number of convictions ranged from 16 in Nantucket County to 3,067 in Worcester County. Eight of the fourteen counties (Worcester, Essex, Hampden, Bristol, Suffolk, Middlesex, Plymouth and Norfolk) accounted for 88.2% of all convictions in Massachusetts.

Table 2. County of Conviction by Court Department

County	District Court	Superior Court	All Courts
Barnstable	624	82	706
Berkshire	531	50	581
Bristol	2,007	243	2,250
Dukes	74	3	77
Essex	2,707	307	3,014
Franklin	428	60	488
Hampden	1,922	376	2,298
Hampshire	405	28	433
Middlesex	1,809	319	2,128
Nantucket	14	2	16
Norfolk	875	139	1,014
Plymouth	1,002	152	1,154
Suffolk	1,829	449	2,278
Worcester	2,880	187	3,067
Grand Total	17,107	2,397	19,504

Sentencing Practices: Number of Charges

At the time of conviction a defendant can be sentenced for one or more charges. Table 3 shows the number of charges resulting in conviction at the current sentencing event by court department. The number of convicted charges ranged from 1 to 94 and the mean number of charges resulting in conviction was 2.0. Overall, 10,790, or 55.3% of the defendants were convicted of a single charge and 8,714 or 44.7% were convicted of two or more charges. The proportion of defendants convicted of multiple charges was higher in the superior court than in the district court:

- 6,905 or 40.4% of the district court defendants were convicted of two or more charges and the mean number of charges for all district court defendants was 1.8.
- 1,809 or 75.5% of the superior court defendants were convicted of two or more charges and the mean number of charges for all superior court defendants was 3.6.

Table 3. Number of Charges Resulting in Conviction by Court Department

Total Charges	District Court		Superior Court		All Courts	
	N	%	N	%	N	%
One	10,202	59.6%	588	24.5%	10,790	55.3%
Two	4,066	23.8%	594	24.8%	4,660	23.9%
Three	1,451	8.5%	393	16.4%	1,844	9.5%
Four	720	4.2%	246	10.3%	966	5.0%
Five to Nine	590	3.4%	442	18.4%	1,032	5.3%
Ten or More	78	0.5%	134	5.6%	212	1.1%
Total	17,107	100.0%	2,397	100.0%	19,504	100.0%
Mean	1.8		3.6		2.0	
Highest	85		94		94	

Sentencing Practices: Type of Sentence Imposed

Table 4 shows the type of sentence imposed for all convicted defendants: life, state prison, other DOC, house of correction, house of correction / split, probation, fine, and other. The most frequently imposed type of sentence was probation.

As indicated in Table 4, the type of sentence imposed differed in the district court and the superior court. The district court cannot impose sentences to the state prison. Therefore, there are no district court sentences of life, state prison, or other DOC. All sentencing options are available in the superior court.

An estimated 57 defendants received a sentence to life. Of the 57 convicted defendants who received a life sentence, 56 were convicted of murder and one was convicted of another offense, armed robbery.

Table 4. Type of Sentence Imposed by Court Department

Sentence Type	District Court		Superior Court		All Courts	
	N	%	N	%	N	%
Life			57	2.4%	57	0.3%

Sentencing Practices: Penalty Structure

In Massachusetts, felonies are defined as any offense punishable by imprisonment in the state prison, and misdemeanors are all other offenses.²² For many felonies, judges have the option to sentence an offender to state prison or to a house of correction. Table 5 shows the penalty structure associated with the governing offense by court department. For purposes of this analysis, governing offenses were divided into four categories: felony with no house of correction alternative (e.g. robbery), felony with house of correction alternative (and no district court jurisdiction) (e.g. mayhem), felony with house of correction alternative (and district court or joint jurisdiction) (e.g. A&B with dangerous weapon), and misdemeanor (e.g. A&B).

As indicated in Table 5, 36.7% of all defendants were convicted of felonies and 63.3% of all defendants were convicted of misdemeanors. As expected, the penalty structure associated with the governing offense differed by court department:

- Of defendants convicted in the district court, 29.2% were convicted of felonies and 70.8% were convicted of misdemeanors.
- Of defendants convicted in the superior court, 90.6% were convicted of felonies and 9.4% were convicted of misdemeanors.
- Of defendants convicted in the superior court, 50.0% were convicted of offenses with district court jurisdiction (felonies with joint jurisdiction or misdemeanors).

Table 5. Penalty Structure of Governing Offense by Court Department

Sentencing Practices: Jurisdiction of Incarceration Sentences

In order to consider the jurisdictional placement of offenders sentenced to incarceration for an offense assigned to the sentencing guidelines grid, Table 6 shows the penalty structure associated with the governing offense and the jurisdiction of the sentence actually imposed by court department.

- Of all defendants sentenced to incarceration, 53.6% were convicted of felonies and 46.5% were convicted of misdemeanors.
- Of defendants convicted in the district court and sentenced to incarceration, 42.3% were convicted of felonies and 57.7% were convicted of misdemeanors.
- Of defendants convicted in the superior court and sentenced to incarceration, 94.3% were convicted of felonies and 5.7% were convicted of misdemeanors.
- Of all defendants sentenced to incarceration, 7,495 (84.7%) were sentenced to houses of correction and 1,354 (15.3%) were sentenced to the DOC.
- Of those defendants convicted in the district court, all were sentenced to houses of correction.
- Of those defendants convicted in the superior court, 1,354 (70.8%) were sentenced to the DOC and 558 (29.2%) were sentenced to houses of correction.

Sentencing Practices: State Prison Sentences

In this section some of the characteristics of state prison sentences are discussed. Life sentences are not included in this analysis, even though the defendants were sentenced to the jurisdiction of the DOC. Both male and female defendants are included in this analysis. The analysis includes offenders sentenced for mandatory firearms and OUI offenses.

Minimum and Maximum Sentence Length. State prison sentences have both a minimum (not less than) and a maximum (not more than) term. For example, a defendant may be sentenced to a term of 72 to 108 months (6 to 9 years) in the state prison. Parole eligibility is set at the minimum sentence and minimum sentences to the state prison are generally 1 year or more.

Table 7 shows the minimum and maximum sentence length for state prison sentences. The mean minimum sentence imposed was 55.2 months and ranged from 3.4 months to 360.0 months (or 30 years). The median minimum state prison sentence was 42 months. The mean maximum sentence imposed was 67.5 months and ranged from 3.5 months to 480.0 months (or 40 years). The median maximum state prison sentence was 60.0 months.

Table 7. State Prison Sentences: Minimum and Maximum Sentence Length

Sentence Length	Minimum		Maximum	
	N	%	N	%
Less than 24 Months	48	3.7%	26	2.0%
24 to Less than 35 Months	254	19.6%	132	10.2%
36 to Less than 47 Months	376	29.0%	290	22.4%
48 to Less than 59 Months	188	14.5%	176	13.6%

Maximum	360.0		480.0	
Minimum	3.4		3.5	
N	1,296		1,297	

Minimum to Maximum Sentence Ratio and Difference. Under current sentencing laws, judges are generally not constrained when setting the ratio or difference between the minimum and maximum sentences to state prison. Thus, a judge might impose a sentence of 60 to 180 months (5 to 15 years) where the minimum sentence is 33% of the maximum sentence and where the difference between the minimum and maximum sentence is 120 months (10 years). Alternatively, a judge might impose a sentence of 60 months to 60 months and 1 day (5 years to 5 years and 1 day), where the minimum sentence represents about 99% of the maximum sentence and where the difference between the minimum and maximum sentence is 1 day. Under proposed sentencing guidelines, the minimum sentence will be required to be two-thirds of the maximum sentence and the minimum sentence represents parole eligibility. Judges would not be able to impose a sentence where the difference between the minimum and maximum sentence is one day, a common sentencing practice today which precludes parole consideration.

Table 8 shows the ratio of minimum to maximum sentence lengths for all convicted defendants sentenced to the state prison by type of offense. Offenses are separated into three categories: grid offenses, mandatory drug offenses, and mandatory firearm offenses. Table 9 shows the difference between the minimum and maximum sentences for all convicted defendants with state prison sentences by type of offense.

Table 8. State Prison Sentences: Minimum-to-Maximum Sentence Ratio by Type of Offense

Minimum-to-Maximum Ratio	Grid Offenses		Mandatory Drug		Mandatory Firearm		Total	
	N	%	N	%	N	%	N	%
1% to 9%	0	0.0%	0	0.0%	0	0.0%	0	0.0%
10% to 19%	0	0.0%	0	0.0%	0	0.0%	0	0.0%
20% to 29%	1	0.1%	0	0.0%	0	0.0%	1	0.1%
30% to 39%	2	0.3%	0	0.0%	0	0.0%	2	0.2%
40% to 49%	3	0.4%	1	0.4%	2	0.7%	6	0.5%
50% to 59%	40	5.1%	2	0.9%	4	1.4%	46	3.6%
60% to 69%	139	17.8%	33	14.4%	32	11.5%	204	15.9%
70% to 79%	142	18.2%	51	22.3%	35	12.6%	228	17.7%
80% to 89%	178	22.8%	54	23.6%	67	24.1%	299	23.2%
90% and over	275	35.3%	88	38.4%	138	49.6%	501	38.9%
Total	780	100.0%	229	100.0%	278	100.0%	1,287	100.0%

In 38.9% of the state prison sentences imposed, the minimum sentence was at least 90% of the maximum sentence, including 38.4% of those sentenced for mandatory drug offenses and 49.6% of those sentenced for mandatory firearm offenses. It was estimated that 73.0% of state prison sentences for offenses assigned to the sentencing grid, had a minimum to maximum ratio that was narrower than the two-thirds ratio called for under the proposed guidelines legislation, that is the minimum sentence was at least 70% of the maximum sentence.

In 35.5% of all state prison sentences, the difference between the minimum and maximum sentences was one day, including 35.8% of those sentenced for mandatory drug offenses, 45.7% of those sentences for mandatory firearm offenses, and 31.8% of those sentenced for grid offenses. Based on sentence structure, 65.1% of defendants sentenced to state prison could be considered for parole release and supervision at the end of that sentence and 35.5% would not be eligible for parole consideration.

Table 9. State Prison Sentences: Minimum-to-Maximum Sentence Difference by Type of Offense

Minimum-to-Maximum Ratio	Grid Offenses		Mandatory Drug		Mandatory Firearm		Total	
	N	%	N	%	N	%	N	%

Sentencing Practices: House of Correction Sentences

In this section, some of the characteristics of house of correction sentences are discussed. This analysis includes those defendants with a house of correction sentence as well as those defendants with a house of correction / split sentence. For defendants sentenced to a house of correction / split sentence, the committed portion of the sentence was included in the analysis; the total or the suspended portion of the sentence was not considered in the analysis. Defendants sentenced to a house of correction from either the district or superior court are included in this analysis. Male and female defendants are included even though some female defendants with a house of correction sentence may be committed to a correctional facility for women under the jurisdiction of the DOC. A total of 137 defendants with missing sentence information were excluded from the analysis.

Sentences to houses of correction do not have a minimum sentence and can range from one day up to thirty months. For most defendants sentenced to a house of correction with a sentence of 60 days or more, parole eligibility is set at one-half of the maximum sentence length. Under the proposed sentencing guidelines, house of correction sentences would have both a minimum and maximum sentence, the minimum sentence would be set at two-thirds of the maximum sentence and would constitute the initial parole eligibility date. Under proposed sentencing guidelines, the maximum time that a defendant sentenced to the house of correction could be supervised by parole would be reduced from one-half of the sentence to one-third of the sentence.

House of correction sentences ranged from 1 day to 30 months. The mean house of correction sentence was 8.1 months and the median house of correction sentence was 6.0 months. Table 10 shows the sentence length of house of correction sentences by court department. Most of the house of correction sentences were imposed in the district court. The range of house of correction sentences imposed was broad, ranging from 1 day to 30 months. The mean house of correction sentence imposed in the district court was 7.3 months while the mean house of correction sentence imposed in the superior court was 18.1 months. The median house of correction sentence imposed in the district court was 4.0 months while the median house of correction sentence imposed in the superior court was 18.0 months. It is estimated that 5,958 or 81.0% of the defendants sentenced to a house of correction had a sentence of 2 months or more and would be eligible for parole consideration.

**Table 10. House of Correction Sentences: Sentence Length
by Court Department**

Sentencing Practices: Mandatory Sentences

Certain incarceration sentences to houses of correction or the DOC are mandatory sentences. Mandatory sentences are those sentences to incarceration where the statutory penalty provisions preclude the judge from imposing any sentence other than incarceration - i.e., sentencing the defendant to probation, suspending the sentence, filing the case, or continuing the case without a finding are all statutorily prohibited. Statutory penalty provisions for these offenses also provide for a mandatory term of incarceration in a house of correction or the DOC.

Table 11 shows, for all defendants, the number of governing offenses subject to a mandatory sentence. In FY 2023 an estimated 1,109 mandatory sentences were imposed representing 5.7% of all sentences. This includes 365 (or 2.1%) sentences imposed in the district court and 744 (or 31.0%) sentences imposed in the superior court department. Mandatory sentences were most frequently imposed for motor vehicle offenses (Operating Under the Influence), drug offenses, and weapons offenses. Less frequently, mandatory sentences were imposed for person, property, sex, and public order offenses.

Table 11. Type of Offense for Mandatory Sentences by Court Department

Offense Type	District Court		Superior Court		All Courts	
	N	%	N	%	N	%
Person	2	0.5%	59	7.9%	61	5.5%
Sex			43	5.8%	43	3.9%

Non-Mandatory	6,559	94.7%	1,168	61.1%	7,727	87.4%

Sentencing Practices: Type of Offense

The governing offense was used to classify all convicted defendants to a type of offense group: person, sex, property, drug, motor vehicle, weapons, public order, and other offenses. Consideration of the type of offense is another way to contrast the volume and characteristics of cases in the district court and the superior court.

Type of Offense: Governing Offense. Table 13 shows the type of offense by court department. The type of offense varied by court department. In the district court the most frequently occurring offenses were motor vehicle which accounted for 4,940 or 28.9% of all district court convictions, followed by property offenses (3,425 or 20.0% of all district court convictions), and person offenses (3,371 or 19.7% of all district court convictions). In the superior court the most frequently occurring offenses were drug offenses which accounted for 720 or 30.0% of all superior court convictions followed by person offenses which accounted for 624 or 26.0% of all superior court convictions.

Table 13. Type of Offense by Court Department

Offense Type	District Court		Superior Court		All Courts	
	N	%	N	%	N	%
Person	3,371	19.7%	624	26.0%	3,995	20.5%
Sex	278	1.6%	264	11.0%	542	2.8%
Property	3,425	20.0%	178	7.4%	3,603	18.5%
Drug	2,402	14.0%	720	30.0%	3,122	16.0%
Motor Vehicle	4,940	28.9%	60	2.5%	5,000	25.6%
Weapons	529	3.1%	408	17.0%	937	4.8%
Public Order	122	0.7%	10	0.4%	132	0.7%
Other	2,041	11.9%	133	5.5%	2,174	11.1%
Total	17,107	100.0%	2,397	100.0%	19,504	100.0%

Type of Offense: Sex Offenses. There were an estimated 542 defendants convicted of a sex offense as the governing offense. These defendants were further classified as to the nature of the sex offense: sex offense involving adult victim, sex offense involving child victim, and other sex offenses.

Table 14 shows the nature of sex offense by court department. As indicated in the table, sex offenders were convicted almost as frequently in district court as in superior court (278 in the district court and 264 in the superior court). Overall, the most frequently occurring category was sex offenses involving child victims. The nature of the sex offense and the specific offense varied by court department:

- Of all sex offenders:
 - 61.3% were convicted of an offense involving a child victim.
 - 30.4% were convicted of an offense involving an adult victim.
 - 8.3% were convicted of some other sex offense.

- Of the 264 sex offenders convicted in the superior court:
 - 75.0% were convicted of an offense involving a child victim.
 - 24.2% were convicted of an offense involving an adult victim.
 - 0.8% were convicted of some other sex offense.

Type of Offense: Drug Offenses. There were an estimated 3,122 defendants convicted of a drug offense as the governing offense. These defendants were further classified as to the nature of the drug offense (distribution or possession) and the class of substance involved in the offense (Class A, Class B, Class C, Class D, or Class E).^{23,24} A number of drug offenses were not assigned to either category (conspiracy, forging prescription, larceny of drug, inhaling toxic vapors, and giving drugs to prisoners).

Table 15 shows the nature of drug offense and class of substance by court department. There is a difference in the nature of drug offenses convicted in the district court and the superior court:

- In the district court, 988 or 41.1% of the drug offenses were classified as distribution offenses, 1,401 or 58.4% were classified as possession offenses, and 13 or 0.5% were not assigned to either category.
- In the superior court, 647 or 89.9% of the drug offenses were classified as distribution offenses, 44 or 6.1% were classified as possession offenses, and 29 or 5.9% were not assigned to either category.
- In the district court, the most frequently occurring drug offense involved possession of a Class A substance which accounted for 667 or 27.8% of all drug offenses convicted in the district court.
- In the superior court, the most frequently occurring drug offense involved distribution of a Class A substance which accounted for 361 or 50.1% of all drug offenses in the superior court.

²³ For purposes of this analysis, all cases involving trafficking, distribution, possession with intent to distribute, manufacturing, dispensing, or inducing minor to distribute were classified as distribution offenses. Cases convicted of distributing counterfeit substances or paraphernalia were assigned to the category of distribution offenses but no class of drug was assigned. Cases convicted of presence of Class A or hypodermic / syringe violations were assigned to the possession category.

²⁴ For purposes of this analysis all offenses involving heroin were assigned to the Class A category, all offenses involving cocaine were assigned to the Class B category, and all offenses involving marijuana were assigned to the Class D category. Cases convicted of inducing minor to distribute or distribution within a school zone were assigned to the class of substance for the underlying offense.

Sentencing Practices: Grid Assignment

Based on governing offense, convicted defendants were classified as to the applicability of the sentencing guidelines grid. The sentencing guidelines grid was not intended to be used for sentencing all defendants. Consistent with proposed sentencing guidelines, four major defendant groups were not assigned to the sentencing guidelines grid: (1) defendants convicted of a mandatory drug offense; (2) defendants convicted of a mandatory firearm offense; (3) defendants convicted of OUI offenses; and (4) defendants convicted of offenses for which there is no jail option.

For purposes of statistical reporting, defendants convicted of murder were assigned to the sentencing guidelines grid. The mandatory life sentence for murder is not impacted by the proposed sentencing guidelines. The commission assigned the offense of murder to level 9, but murder is not subject to the sentencing guidelines.

As shown in Table 16, it was estimated that 16,618 or 85.2% of all defendants were convicted of offenses for which the sentencing guidelines grid applied and 2,886 or 14.8% of all defendants were convicted of offenses for which the sentencing guidelines grid did not apply. Of the defendants convicted of offenses for which the sentencing guidelines grid did not apply: 2,098 or 10.8% of all defendants were convicted of OUI offenses; and 558 or 2.9% were convicted of mandatory firearms offenses.

Table 16. Grid Assignment by Court Department

Jurisdiction	District Court		Superior Court		All Courts	
	N	%	N	%	N	%
Assigned to Grid	14,834	86.7%	1,784	74.4%	16,618	85.2%

SENTENCING PRACTICES: OFFENSES ASSIGNED TO THE GRID

In this section, the sentencing practices related to the 16,618 defendants convicted of offenses for which the sentencing guidelines grid applies are discussed.

Sentencing Practices: Grid Cell Assignment

Table 17 shows the grid cell assignment of all convicted defendants by court department and is useful in contrasting the volume and type of cases in district and superior court. The number in each grid cell represents the total number of defendants who were convicted of an offense at that offense seriousness level and whose criminal history was classified in the corresponding criminal history group.

Sentencing Zone. Most defendants were classified into the discretionary zone on the grid.

- An estimated 1,082 defendants, or 6.5%, were classified within the incarceration zone.
- An estimated 10,385 defendants, or 62.5%, were classified within the discretionary zone.
- An estimated 5,029 defendants, or 30.3%, were classified within the intermediate sanction zone.
- An estimated 122 defendants, or 0.7%, were not classified into a specific zone.

In both the district court and the superior court, the most frequently occurring classification was the discretionary zone on the sentencing guidelines grid: 64.0% of the defendants convicted in the district court and 49.9% of the defendants convicted in the superior court were classified in the discretionary zone. Defendants convicted in superior court were more likely than their district court counterparts to be classified within the incarceration zone on the sentencing guidelines grid: an estimated 41.5% of the defendants convicted in the superior court were classified in the incarceration zone compared to 2.3% of the defendants convicted in the district court. Defendants convicted in district court were more likely to be classified within the intermediate sanction zone on the sentencing guidelines grid than their superior court counterparts: 33.2% of the defendants convicted in the district court were classified in the intermediate sanctions zone compared to 5.5% of the defendants convicted in the superior court.

Offense Seriousness Level. Most defendants were convicted of offenses in the lower levels of offense seriousness: an estimated 12,267 or 73.8% of the convicted defendants were assigned to offense seriousness levels 1 through 3; an estimated 3,825 or 23.0% of the convicted defendants were assigned to offense seriousness levels 4 through 6; and, an estimated 404 or 2.4% of the convicted defendants were assigned to offense seriousness levels 7 through 9.

The most frequently occurring offense seriousness level was level 3 with an estimated 5,059 of all convictions (30.4%). In the district court, level 3 was the most frequently occurring offense seriousness level, accounting for an estimated 4,902 or 33.0% of all district court convictions. In the superior court, level 4 was the most frequently occurring offense seriousness level, accounting for an estimated 551 or 30.9% of all superior court convictions.

Criminal History Group. Most convicted defendants were assigned to the less serious criminal history groups on the sentencing guidelines grid. The most frequently assigned criminal history group was Group A, No/Minor Record, which accounted for 8,434 or 50.7% of all convicted defendants. The most serious criminal history group, Group E, accounted for 3 of the convicted defendants.

Grid Cell. The most frequently occurring grid cell was “3A”: 2,456 or 14.8% of all convicted defendants were assigned to grid cell “3A”. In the district court, the most frequently occurring grid cell was “3A”: 2,366 or 15.9% of all defendants convicted in the district court were assigned to grid cell “3A”. As indicated in Table 39, the three most frequently occurring offenses in grid cell “3A” in the district court were assault & battery, assault & battery on a household member, and violate abuse prevention order. In the superior court, the most frequently occurring grid cell was “4A”: 316 or 17.7% of all defendants convicted in the superior court were assigned to grid cell “4A”. As indicated in Table 38, the most frequently occurring offenses in grid cell “4A” in the superior court were CSA distribution Class A and CSA distribution Class B.

Sentencing Practices: Incarceration Rates

Sentences were assigned to one of two groups: those involving some period of incarceration (life, state prison, other DOC, house of correction, and house of correction/split) and those involving no period of incarceration (probation, fines, and other sentences). The incarceration rate was estimated by dividing the number of defendants receiving a period of incarceration into the total number of convicted defendants.

Table 18 shows incarceration rates by grid cell assignment for all convicted defendants. For FY 2023, the estimated incarceration rate was 45.9%: 7,632 defendants received a sentence to incarceration out of 16,618 convicted defendants.

The incarceration rate was higher for those defendants in higher levels of offense seriousness and for defendants in the more serious criminal history groups.

- The incarceration rate for defendants convicted of offenses at offense seriousness level 1 was 23.3% and the incarceration rate for defendants convicted of offenses at offense seriousness level 8 was 91.0%.
- The incarceration rate for defendants in criminal history group A was 34.4% and the incarceration rate for defendants in criminal history group D was 71.2%.

The incarceration rate was related to the sentencing zone in which the defendant fell in the sentencing guidelines grid.

- The incarceration rate for defendants in the incarceration zone was 84.8%.
- The incarceration rate for defendants in the discretionary zone was 51.4%.
- The incarceration rate for defendants in the intermediate sanction zone was 26.0%.

District Court Incarceration Rates. Table 19 shows incarceration rates by grid cell assignment for all defendants convicted in district court. For FY 2023, the estimated district court incarceration rate was 42.7%: 6,331 defendants received a sentence to incarceration out of 14,834 convicted defendants. District court incarceration rates were similar in pattern to overall incarceration rates.

District court incarceration rates were higher for defendants convicted of offenses in the higher levels of offense seriousness and for defendants in the more serious criminal history groups:

- The incarceration rate for defendants convicted of offenses at offense seriousness level 1 was 23.3% and the incarceration rate for defendants convicted of offenses at offense seriousness level 4 was 68.2%.
- The incarceration rate for defendants in criminal history group A was 30.0% and the incarceration rate for defendants in criminal history group D was 68.0%.

District court incarceration rates varied by sentencing zone:

- District court defendants in the incarceration zone had an incarceration rate of 80.1%.
- District court defendants in the discretionary zone had an incarceration rate of 50.0%.
- District court defendants in the intermediate sanction zone had an incarceration rate of 25.7%.

Superior Court Incarceration Rates. Table 20 shows incarceration rates by grid cell assignment for all defendants convicted in superior court. For FY 2023, the estimated superior court incarceration rate was 72.9%: 1,301 defendants received a sentence to incarceration out of 1,784 convicted defendants. Superior court incarceration rates were similar in pattern to overall incarceration rates.

Superior court incarceration rates were higher for defendants convicted of offenses in the higher levels of offense seriousness and for defendants in the more serious criminal history groups.

- The incarceration rate for defendants convicted of offenses in offense seriousness level 2 was 46.8% and the incarceration rate for defendants convicted of offenses in offense seriousness level 8 was 91.0%.
- The incarceration rate for defendants in criminal history group A was 65.0% and the incarceration rate for defendants in criminal history group D was 92.8%.

The incarceration rate varied by sentencing zone:

- Superior court defendants in the incarceration zone had an incarceration rate of 87.0%.
- Superior court defendants in the discretionary zone had an incarceration rate of 66.3 %.
- Superior court defendants in the intermediate sanction zone had an incarceration rate of 40.8%.

Sentencing Practices: Comparing Existing Sentences and Proposed Guidelines

All existing sentences were compared with the proposed sentencing guidelines in order to estimate whether the sentence imposed was below the guideline range, within the guideline range, or above the guideline range. The method for estimating departure rates is described in Appendix A. Table 21 shows the results of this analysis. Overall, it was estimated that 81.2% of current sentences fall within the proposed guidelines and 18.8% of current sentences fall outside of proposed guidelines (an estimated 6.0% were below the guidelines and an estimated 12.8% were above the guidelines).

For most district court cases, guideline ranges are deliberately broad and departures are relatively rare. As indicated in Table 23, the proportion of sentences that fell outside the proposed guidelines varied by offense seriousness level:

- The proportion of sentences outside of the guidelines was the lowest at offense seriousness level 3, where an estimated 5.2% of all sentences were outside of the proposed guidelines and almost all of those sentences were above the proposed ranges (For most cells, the lower limit of the range is zero).
- The proportion of sentences outside of the guidelines was the highest at offense seriousness level 6, where an estimated 86.9% of all sentences were outside of the proposed ranges (69.0% were below the proposed guidelines and 17.9% were above the proposed guidelines).
- For all offenses at levels 6 through 8, 59.7% of the sentences were below the guideline ranges, 18.3% were within, and 22.0% were above.

Table 21. Comparison of Existing Sentences and Proposed Guidelines by Offense Seriousness Level and Type of Offense

All Offenses	Below Range		Within Range		Above Range		Total

Total	985	6.0%	13,391	81.2%	2,107	12.8%	16,483	100.0%

SENTENCING PRACTICES: OFFENSES NOT ASSIGNED TO THE GRID

The sentencing guidelines grid was not intended for use in sentencing every convicted defendant. As indicated in Table 16, there were 2,886 defendants representing 14.8% of the sample who were convicted of offenses for which the sentencing guidelines grid did not apply. In this section some discussion of the defendants convicted of mandatory drug offenses, mandatory firearms offenses, and OUI offenses is presented.

Sentencing Practices: Mandatory Drug Offenses

In this section, some of the characteristics of sentences imposed for mandatory drug offenses are discussed. Defendants convicted of mandatory drug offenses were not assigned to the sentencing guidelines grid.

All convictions for mandatory drug offenses include a sentence to incarceration. Table 22 shows the jurisdiction to which the sentence was imposed by court department. The superior court has jurisdiction over all mandatory drug offenses. The district court has joint jurisdiction over only one mandatory drug offense, distribution within a school zone. As required, all district court convictions for mandatory drug offenses were sentenced to a house of correction. Of the superior court convictions for mandatory drug offenses, 100.0% were sentenced to the Department of Correction (DOC).

Table 22. Mandatory Drug Offenses: Jurisdiction by Court Department

Jurisdiction	District Court		Superior Court		All Courts	
	N	%	N	%	N	%
House of Correction	1	100.0%			1	0.4%
Department of Correction			229	100.0%	229	99.6%
Total	1	100.0%	229	100.0%	230	100.0%

Table 23 shows the number of defendants convicted of mandatory drug offenses by governing offense, offense seriousness level, criminal history group, and court department. There were an estimated 230 defendants convicted of mandatory drug offenses during FY 2023.

An estimated 169 or 73.5% of the defendants convicted of mandatory drug offenses were classified as criminal history groups A or B, and 61, or 26.5%, were classified as criminal history groups C or D.

**Table 23. Mandatory Drug Offenses: Governing Offense by Offense Seriousness Level,
Criminal History Group, and Court Department**

Mandatory Minimum Term/Offense		A	B	C	D	E	T

Sentencing Practices: Mandatory Firearms Offenses

Convictions for mandatory firearms offenses are not included in the sentencing guidelines grid. It was estimated that there were 558 convictions where the governing offense was a mandatory firearms offense in FY 2023. Table 24 shows the offense for those defendants classified as mandatory firearms offenders. Sentences for the offense “Firearm Carry with Ammunition” are imposed from and after a conviction for another mandatory firearms offense. This offense was only considered the governing offense if the sentence imposed was longer than the offense for the underlying mandatory.

Table 24. Mandatory Firearms Offenses: Governing Offense by Court Department

Offense	District Court		Superior Court		All Courts	
	N	%	N	%	N	%
Firearm, Carry Without License C269 §10(A)	194	100.0%	234	64.3%	428	76.7%

Firearm Viol With 2 Prior Violent/Drug Crimes C269 §10G(B)			4	1.1%	4	0.7%
Total	194	100.0%	364	100.0%	558	100.0%

Sentencing Practices: OUI Offenses

Convictions for Operating Under the Influence (OUI) offenses are not included in the sentencing guidelines grid. It was estimated that there were 2,098 convictions for OUI offenses in FY 2023. This includes convictions involving the operation of motor vehicles or boats and includes convictions involving the use of alcohol or drugs. Convictions for operating a motor vehicle after license suspended for an OUI offense are also included in this analysis.

Defendants charged with an OUI offense that resulted in a disposition of continued without a finding (CWOFF) were not included in this sample, as a CWOFF disposition was not considered a conviction for the purposes of the survey of sentencing practices. Table 25 shows the type of sentence imposed for OUI offenses by court department. For sentences involving a period of incarceration to a house of correction, the length of sentence imposed is also shown.

Table 25. OUI Offenses: Types of Sentence Imposed by Court Department

Sentence Imposed	District Court		Superior Court		All Courts

Total	2,078	100.0%	20	100.0%	2,098	100.0%

SENTENCING PRACTICES: DEMOGRAPHIC CHARACTERISTICS

In this section certain demographic characteristics of convicted defendants (gender, age, and race) are discussed in relation to observed sentencing outcomes. The legislature directed the commission to consider certain defendant characteristics when developing sentencing guidelines:

. . . The commission shall assure that the guidelines are neutral as to the race, sex, national origin, creed, religion and socio-economic status of offenders.²⁵

More recently, in response to evidence that Black/African-Americans and Hispanics were incarcerated at significantly higher rates than Whites in Massachusetts, Chief Justice Robert Gants of the Supreme Judicial Court stated in his 2016 State of the Judiciary address:

We need to explore the reasons behind the great disparity in the rates of imprisonment among Whites, African-Americans, and Hispanics in this Commonwealth...We need to learn the truth behind this troubling disparity and, once we learn it, we need the courage and the commitment to "handle" the truth.

In September 2020, researchers from Harvard Law School's Criminal Justice Policy Program (CJPP) noted that observed sentencing disparities by race and ethnicity in Massachusetts were largely the result of the initial charge, but were unable to say "the extent to which differences in initial charge severity reflects police and prosecutor discretion vs. differences in defendants' conduct."²⁶

In the current survey of sentencing practices, the commission presents summary data on the relationship between the demographic characteristics of defendants and sentencing outcomes. In light of the CJPP study, the focus on race/ethnicity and sentencing has been expanded.

²⁵ G.L.c.211E § 3(e).

²⁶ Racial Disparities in the Massachusetts Criminal System. (September 2020). Criminal Justice Policy Program: Harvard Law School. <https://hls.harvard.edu/wp-content/uploads/2022/08/Massachusetts-Racial-Disparity-Report-FINAL.pdf>

Sentencing Practices: Defendant Gender

Table 26 shows the gender of defendants by court department. Of all convicted defendants, 14.6% were female and 85.3% were male. Of the defendants convicted in district court, 14,489 or 84.7% were male and 2,605 or 15.2% were female; and, of the defendants convicted in superior court, 2,144 or 89.4% were male and 234 or 9.8% were female.

Table 26. Defendant Gender by Court Department

Gender	District Court		Superior Court		All Courts	
	N	%	N	%	N	%
Male	14,489	84.7%	2,144	89.4%	16,633	85.3%
Female	2,605	15.2%	234	9.8%	2,839	14.6%
Not reported	13	0.1%	19	0.8%	32	0.2%
Total	17,107	100.0%	2,397	100.0%	19,504	100.0%

Table 27 shows defendant gender by grid assignment, type of offense, and mandatory status for drug offenses. While male and female defendants are represented to some extent in every offense category, disproportionately more female defendants were classified as property offenders and public order offenders, and disproportionately fewer as sex offenders or mandatory drug offenders.

Table 27. Defendant Gender by Grid Assignment

Offense Type	Male		Female		Not Reported		Total	
	N	%	N	%	N	%	N	%
Person	3,495	87.5%	495	12.4%	5	0.1%	3,995	100.0%

Total	16,633	85.3%	2,839	14.6%	32	0.2%	19,504	100.0%

Sentencing Practices: Defendant Age at Disposition

The age of defendants at the time of disposition ranged from 18 years to 90 years. The average age at disposition was 39 years and the median age at disposition was 37 years. Table 28 shows the age at disposition for all defendants by court department.

Table 28. Defendant Age at Disposition by Court Department

Ag	District Court		Superior Court		All Courts	
	N	%	N	%	N	%
19 and younger	116	0.7%	9	0.4%	125	0.6%

Oldest	90 years		86 years		90 years	
Average	39 years		38 years		39 years	
Median	37 years		35 years		37 years	

Sentencing Practices: Defendant Race

In this section, defendant race is reported by court department, grid assignment, and type of offense. Defendant race is not available for 1.8% of the convicted defendants. Further discussion of the method used to collect defendant race can be found in Appendix A.

As indicated in Table 30, 52.7% of the convicted defendants were White, 18.6% were black, 24.6% were Hispanic, 1.1% were Asian, and 1.4% were another race. Table 29 shows defendant race by court department. The proportion of White defendants was higher in the district court than the superior court and the proportion of Black defendants, Hispanic defendants, and defendants of other races was higher in the superior court than the district court. Of the defendants convicted in the district court, 55.0% were White, and 43.5% were a race other than White (23.8% were Hispanic, 17.3% were Black, 1.0% were Asian, and 1.4% were another race). The race was unknown for 1.5% of the defendants convicted in the district court. Of the defendants convicted in the superior court, 32.9% were white, 31.8% were Hispanic, 28.5% were Black, 1.7% were Asian, and 1.4% were another race. The race was unknown for 3.6% of the defendants convicted in the superior court.

Table 29. Defendant Race/Ethnicity by Court Department

Race/Ethnicity	District Court		Superior Court		All Courts	
	N	%	N	%	N	%
Another Race	246	1.4%	34	1.4%	280	1.4%
Asian	165	1.0%	41	1.7%	206	1.1%
Black / African American	2,957	17.3%	684	28.5%	3,641	18.7%
Hispanic or Latino	4,068	23.8%	762	31.8%	4,830	24.8%
White	9,416	55.0%	789	32.9%	10,205	52.3%

Total	17,107	100.0%	2,397	100.0%	19,504	100.0%

Table 30 shows defendant race/ethnicity by type of offense. Offense classifications, particularly those involving a mandatory penalty, varied by race/ethnicity. White defendants accounted for 52.3% of total convictions including 70.9% of OUI offense convictions. Black defendants accounted for 18.7% of overall convictions but 30.9% of convictions for weapons offenses and 42.7% of mandatory firearm convictions. Hispanic defendants were also overrepresented, among drug, especially mandatory drug, and mandatory firearm convictions.

Table 30. Defendant Race/Ethnicity by Offense Type and Grid Assignment

Offense	Asian		Black / African American		Hispanic or Latino		White		Another Race		Not Reported		Total

Overrepresentation of non-Whites among defendants convicted of serious weapons and drug offenses is consistent with the research findings of CJPP. Table 31 displays the distribution of defendants by race/ethnicity by offense seriousness level. The data show that Asian and White defendants were convicted of less serious offenses as measured by offense level. Among Black and Hispanic defendants, over 30% were convicted of an offense at seriousness level 4 or above, compared to 19.1% of White and 21.2% of Asian defendants. Meanwhile, more than one-third of Asian and White defendants were assigned to offense level 2.

Table 31. Offense Seriousness Level by Defendant Race/Ethnicity

	Asian	Black/ African American	Hispanic or Latino	White	Another Race	Not Reported	Total
9	0.5%	0.4%	0.4%	0.1%	0.7%	1.8%	0.3%
8	1.5%	0.7%	0.5%	0.3%	0.4%	1.8%	0.5%
7	1.9%	2.4%	2.0%	1.0%	1.8%	3.5%	1.6%
6	3.9%	3.6%	2.9%	1.6%	1.8%	6.4%	2.4%
5	1.9%	5.2%	4.0%	2.9%	3.2%	7.0%	3.6%
4	12.6%	23.5%	21.8%	13.5%	14.6%	14.9%	17.5%
3	29.1%	25.8%	25.5%	27.5%	28.2%	30.7%	26.8%
2	36.9%	25.5%	26.7%	36.7%	28.6%	21.9%	31.8%
1	9.7%	11.9%	15.5%	15.8%	20.0%	11.7%	14.9%
Not Assigned	1.9%	0.9%	0.6%	0.5%	0.7%	0.3%	0.6%

Table 32 displays criminal history group assignments by race/ethnicity. Asian defendants were most likely to have a “no/minor” record (Group A; 70.4%) followed by White defendants (58.4%). In contrast, Black/African-American defendants had more serious criminal histories: 24.6% were assigned to criminal history groups C (Serious Record) and D (Violent or Repetitive) compared to only 8.7% of Asian and 17.0% of White defendants.

Table 32. Criminal History Group by Defendant Race/Ethnicity

	A	B	C	D	E
Asian	70.4%	20.9%	8.7%		
Black / African American	45.7%	29.7%	17.9%	6.7%	0.0%

PART III. SUMMARY

The Survey of Superior Court Sentencing Practices is a comprehensive study of defendants convicted in the superior courts of the commonwealth during FY 2023. In the survey, the offense of conviction and the criminal history of the defendant are linked with the sentencing outcome using the framework of the advisory sentencing guidelines grid. The survey notes the type of sentence imposed, the incarceration rate, and the sentence length for those defendants sentenced to a period of incarceration. The survey of sentencing practices provides a rich source of data for use by the commission in meeting its on-going responsibilities to monitor sentencing practices and to develop sentencing policy. Other criminal justice policy makers and members of the public interested in sentencing issues may find the survey useful as well.

APPENDIX A. METHOD

Data Collection Method

The survey of sentencing practices is based on an analysis of Masscourts, the Trial Court's case management system, and the Court Activity Record Information (CARI) database maintained by the Massachusetts Probation Service. The commission uses a copy of the database maintained by the Department of Criminal Justice Information Services (DCJIS) for purposes of the analysis.

Masscourts includes records of all criminal charges arraigned and disposed of in the trial court. Masscourts also contains sentencing information for all charges leading to conviction. The CARI database includes records of all criminal charges arraigned in criminal courts throughout the commonwealth, including the superior court, district court, municipal court, juvenile court, and US District Courts located within Massachusetts. The existence of this database affords the commission with a centralized source of information regarding the adult and juvenile criminal history of all defendants.

Conviction Definition

For purposes of conducting the survey of sentencing practices, only charges resulting in conviction are included in the analysis. Dispositions that are considered convictions include: guilty filed, guilty, probation, fine, house of correction commitment, state prison commitment, split sentence, and suspended sentence. Dispositions that are not considered convictions include: continued without finding, filed (absent a finding of guilt), dismissed, not guilty, and nol prossed.

Only those charges that were disposed of during the sampling time period were included in the construction of the sample. Charges that were excluded from the sample include:

- Charges that were disposed of with a result other than conviction during the sampling time period;
- Charges that were pending during the sampling time period; and
- Charges that were arraigned during the sampling period but which were disposed of after the sampling period.

Sampling Frame

The date at which a determination of conviction / non-conviction was initially entered for the charge is referred to as the disposition date. The disposition date was identified through an analysis of the disposition field. If a sentence was subject to a “revise and revoke” procedure subsequent to the initial disposition date, the date on which the sentence was revised and revoked was considered the disposition date and the revised sentence was used in the further construction of the sample.

For the present survey, those charges reaching final disposition and resulting in conviction during FY 2023, or the period July 1, 2022, through June 30, 2023 constitute the initial sample of charges upon which further analysis is based. All charges reaching a conviction disposition during this time period are included in the sample regardless of when the offense occurred or when the charge was originally arraigned. Charges with an original disposition of CWOFF for which a finding of guilty was entered during FY 2023 are included in the sample.

Type of Sentence Imposed

Each convicted charge is classified into one of nine sentence groups:

- Life Sentence
- State Prison / Split Sentence
- State Prison Sentence
- Reformatory Sentence
- House of Correction Sentence/Includes Split Sentences
- Probation Sentence
- Fine Sentence
- Other Sentence

Life Sentences. Life sentences appear as a separate sentence group from the state prison category. A life sentence is any disposition in which the word “life” appears, excluding lifetime probation sentences. While most life sentences are given for the offense of murder, life sentences may be imposed for other offenses.

Life sentences may also be in the form of a term of years to life. For example, a sentence for the offense of Armed Robbery may be expressed as “20 years to life”. Under the habitual offender sentencing statute, those offenders receiving life sentences as habitual offenders are included in the life sentence group. In FY 2018, 54 defendants were classified in the life sentence group including 53 convicted of murder and one convicted of home invasion and sentenced as an habitual offender.

State Prison Sentences. State prison sentences are characterized by a minimum and a maximum term of incarceration. Of the 1,702 defendants associated with a state prison sentence, 13 were sentenced as a habitual offender.

House of Correction/Split Sentences. Straight and split sentences to the House of Correction are characterized by a sentence that includes a term of incarceration, and in the case of split sentences, a term to be served. House of correction sentences may be for a term of 30 months or less.

Probation Sentences. Probation sentences include sentences to straight probation as well as those with a suspended sentence to the state prison or house of correction. The estimates of the number of probation sentences does not include all defendants receiving probation supervision. Many defendants are supervised during a pre-trial period of probation, are supervised as the result of a non-conviction disposition (e.g. CWOFF or general continuance), or are supervised from & after a period of incarceration (e.g. split sentence or from & after probation).

Other Sentences. The other sentence group is the default group assigned for all other convicted defendants. Most of the convictions in this group are the result of a guilty filed disposition.

Sentencing Hierarchy. In some instances an individual charge may be subject to multiple sentencing conditions upon conviction. For example, a fine may be given in conjunction with a house of correction sentence along with a term of probation supervision. In all cases, the charge was assigned to a unique sentence group in a hierarchical fashion with precedence indicated by the order in which the sentence groups appear above.

Initial Sentence. The analysis focuses on the initial sentence given for a particular charge. Therefore, a charge that was originally sentenced to a fine and subsequently resulted in a commitment to a house of correction in lieu of payment of the fine was treated as a fine sentence. Similarly, a charge that was originally sentenced to straight probation or a suspended sentence and subsequently resulted in a commitment to a state or county correctional facility as a result of a probation violation was considered to be initially sentenced to a term of probation supervision.

Stayed Sentences. Defendants with a sentence to incarceration where the time between the date of disposition and the date until which the sentence was stayed was 12 months or more were assumed to have non-incarcerative sentences. Defendants with a sentence to incarceration where the time between the date of disposition and the date until which the sentence was stayed was less than 12 months were considered to have a sentence to incarceration.

Sentence Length

For each incarcerative sentence group, a sentence length was selected:

Life	Life
State Prison	Minimum sentence
House of Correction / Split	Maximum sentence/Split or committed sentence

In the analysis, sentence length is expressed in months and was derived using the following formula:

$$[\text{sentence-length-years} * 12] + [\text{sentence-length-months}] + [\text{sentence-length-days} / 30].$$

Application of Advisory Sentencing Guidelines

The 2017 advisory sentencing guidelines (“revised” proposal) was used as the framework for the analysis. This allows for the seriousness of the offense of conviction and the criminal history of the defendant to be considered in relation to observed sentencing practices.

Offense Seriousness Level

Under the previous guideline proposal (1996), all offenses were assigned to one of nine levels of offense seriousness, ranging from level 1, the lowest level of offense seriousness, to level 9, the highest level of offense seriousness. Under the revised proposal, a level 0 was added. The assigned levels of offense seriousness were consistent with the levels of offense seriousness as assigned by the commission.

The offense of conviction was assumed to be the offense associated with Masscourts’ “effective” action code (i.e. MGL chapter and section). For purposes of criminal history, offense titles in the CARI database are assumed to reflect the offense of conviction.

For each charge in the current sentence of a defendant, the offense, type of sentence, and length of sentence imposed were evaluated in order to ensure consistency with this assumption. Where there was an inconsistency, the sentence was looked-up in both the Masscourts and CARI databases to determine the appropriate level.

Staircased Offenses

For offenses where the commission assigned staircasing factors, the offense was generally assigned to the lowest level among the various staircasing levels. The analysis employed the following additional assumptions in assigning an offense seriousness level for the current offense of conviction:

Manslaughter	Level 8	State prison sentence
	Level 6	House of correction sentence or non-incarcerative sentence
Armed Robbery	Level 7	All cases with an associated gun charge
	Level 6	All cases with no associated gun charge
A&B w/DW	Level 7	Superior court state prison sentence
	Level 6	Superior court house of correction/split sentence
	Level 4	Superior court non-incarceration sentence
	Level 3	District court sentence

Larceny More / RSG More	Level 4	State prison sentence
	Level 3	House of correction sentence/split sentence Non-incarceration sentence
B&E	Level 4	State prison sentence
	Level 3	House of correction sentence/split sentence Non-incarceration sentence

Under the previous guideline proposal, there were only three levels of A&B w/DW: 3, 4, and 6. A level 7 A&B w/DW was added under the revised advisory sentencing guideline proposal.

Type of Offense

All charges were classified to a type of offense group: person, sex, property, drug, motor vehicle, weapons, public order, and other offenses. Classification is based on the chapter of the Massachusetts General Law under which the crime appears. Beginning with the FY 2006 survey the offense type classification was changed for the following offenses:

- Child Pornography was changed from the public order offense category to the sex offense category;
- Child Pornography, Possession was changed from the public order offense category to the sex offense category;
- Inducing Minor Prostitution was changed from the public order offense category to the sex offense category;
- Inducing Minor Sex was changed from the public order offense category to the sex offense category; and
- Obscene Material to a Minor was changed from the public order offense category to the sex offense category.

Statutory Penalty Status

All charges were classified to a statutory penalty status: felony (no house alternative, house alternative with no district court jurisdiction, house alternative with joint jurisdiction in the district court) and misdemeanor. All charges were also classified with respect to the statutory maximum penalty that could be imposed. Certain charges were assigned to the category of mandatory sentences and the mandatory minimum term that could be imposed. For purposes of the analysis, life sentences for murder were considered mandatory sentences.

Sentencing Events

All charges reaching final disposition on a single date for a particular defendant were considered to constitute a “sentencing event”. The sentencing event constitutes the unit of analysis for the survey of sentencing practices and represents that event at which a charge, or group of charges, reaches final disposition and conviction. As currently defined, a sentencing event occurs on a single calendar day. Throughout the narrative, the terms convictions, defendants, and convicted defendants are used to refer to a “sentencing event”. An individual defendant can have multiple sentencing events during any sampling time period.

From all charges disposed of at a “sentencing event”, a single charge was designated the “governing offense”. The charges were first ranked according to sentence group using the following hierarchy: life sentence, state prison sentence, house of correction sentence/split sentence, probation sentence, fine sentence, and other sentence. Within a sentence group, the charge with the longest sentence was selected, and within a sentence length, the charge with the most serious offense level as defined by the commission was selected. Within an offense level, the docket number assigned determined the charge selected as the governing offense.

The method used to assign the “governing offense” differed in some respects from the method used to assign the “governing offense” under the advisory sentencing guidelines. Under the proposed guidelines, the governing offense will always be associated with the highest offense level. The assignment of “governing offense” for purposes of the survey of sentencing practices incorporated information about the sentence imposed and was not solely based on the offense seriousness level. The offense seriousness level of all convicted charges in the sentencing event were reviewed in order to estimate the number of cases where a secondary conviction had a higher offense seriousness level than the governing offense. Under the method used to assign governing offenses, a defendant sentenced to incarceration for Armed Robbery (level 6 or 7) with a probation sentence for home invasion (level 8) would be assigned to the lower offense level due to incarceration status and sentence length.

Table 33 shows the offense seriousness level assigned to the governing offense and the highest offense seriousness level for all convicted offenses. Of the 16,255 defendants convicted of offenses assigned to the sentencing grid, 15,912 or 97.9% had all of their convictions at or below the level of the governing offense and 343 or 2.1% had one or more convictions at a level higher than the governing offense. Table 34 shows the specific offense associated with the highest offense seriousness level for the 343 cases. The two most common offenses to be associated with the highest seriousness level but not the governing offense were intimidation of a witness/juror (n=49) and home invasion (n= 23).

Criminal History Group

Each defendant was assigned to a criminal history group in accordance with the five-level criminal history scale established by the commission:

- E **Serious Violent Record**
Two or more prior convictions for offenses in level 7 through 9

- D **Violent or Repetitive Record**
One prior conviction for offenses in levels 7 through 9, or
Two or more prior convictions for offenses in levels 5 or 6, or
Six or more prior convictions in levels 3, 4, 5 or 6

- C **Serious Record**
One prior conviction for offenses at levels 5 or 6, or
Three to five prior convictions for offenses in levels 3 or 4

- B **Moderate Record**
One or two prior convictions for offenses in 3 or 4, or
Six or more prior convictions for offenses in levels 1 or 2

- A **No/Minor Record**
One to five prior convictions for offenses in levels 1 or 2, or
No prior convictions of any kind

In assigning cases to one of the five categories in the criminal history scale both the number of prior convictions and the seriousness of each prior conviction was considered.

Convictions. Only charges resulting in conviction were included in the construction of the criminal history scale. The conviction definition used for constructing the sentencing event was applied to the construction of the criminal history scale.

Prior Convictions. The criminal history includes only those charges which reached a final disposition prior to the disposition date of the current sentencing event. An assumption was made that for both criminal history events and for sentencing events, the date of arraignment for a charge is always on or before the disposition date for the charge. For arraignment events, it was further assumed that charges are substantially disposed of in order of arraignment. Therefore, the criminal history includes those charges which resulted in a conviction and whose arraignment date precedes the arraignment date of the governing offense in the current sentencing event.

Multiple Prior Convictions. The criminal history scale counts multiple convictions resulting from separate charges as a single conviction if those charges have the same arraignment date. This is consistent with the policy of the commission that multiple convictions arising from the same incident should be counted as one prior conviction, based on the most serious offense. All cases arraigned on a single date constitute an arraignment event. An arraignment event includes only

convicted charges, can include charges disposed of on diverse dates, and can include federal court cases that appear as part of the CARI database.

Selecting a Governing Offense. From all charges disposed of at an “arraignment event” a single charge is designated the “governing offense” for purposes of assigning the criminal history group. The charge with the highest offense seriousness level as defined by the commission is selected as the governing offense. Each arraignment event counts only once in the criminal history, regardless of the number of charges disposed of at that event.

The method may underestimate the number of defendants in the highest criminal history groups. For staircased offenses, the method calls for assigning the prior convictions to the lower(est) offense seriousness level. For example, all prior convictions for Armed Robbery where the use of gun was not specifically noted, were assigned to level 6, thereby underestimating those that were at level 7 (display of gun). Further, the method did not take into account the presumption that prior convictions with the same arraignment date represent a single incident (one prior conviction) may be rebutted, and that prior convictions with the same arraignment date may be counted as separate prior convictions.

There are differences in construction between the sentencing event and the arraignment event that should be noted. In the sentencing event, the longest sentence determines the governing offense, and in the arraignment event, the most serious offense (as defined by the commission) determines the governing offense. For example, a defendant has two charges disposed of in a single date: Aggravated Rape (guilty filed) and Assault and Battery by means of a Dangerous Weapon (2-3 years committed). The sentencing event is defined for the charge with the longest sentence, Assault and Battery by means of a Dangerous Weapon, and the arraignment event is defined for the charge with the highest offense seriousness level, Aggravated Rape.

Juvenile Criminal History

In evaluating the juvenile criminal record a set of assumptions parallel to the adult model were followed: only those offenses resulting in an adjudication of delinquency were considered; an incident-based approach was applied to counting juvenile adjudications (only one juvenile adjudication per arraignment event); and, the most serious charge for which the juvenile was adjudicated at each arraignment event counts towards the juvenile criminal history. Some further assumptions used in the construction of the juvenile criminal history model include: all juvenile criminal history adjudications were assumed to precede any adult criminal history convictions; and there was no constraint on the types of offenses that could be charged in juvenile courts.

When considering juvenile charges, no modifications to offense title by court, or sentence type were made. It was assumed that juvenile court has jurisdiction over all offenses and all dispositions were available for all offenses.

The following types of adjudications were counted toward the juvenile criminal history: DYS commitments (imposed or suspended), probation, and adjudicated delinquent/filed. The following types of adjudications were not considered juvenile adjudications: “G Filed” or “Fine” with no specific finding of “Adj Del” with the filing or fine.

Under the revised advisory sentencing guideline proposal, no prior adjudication of delinquency for a misdemeanor was counted for criminal history placement on the sentencing grid. Prior adjudications of felonies were counted for criminal history placement on the sentencing grid but were reduced by two levels. When calculating a defendant's criminal history for purposes of the guidelines, a period of 8 consecutive years after arraignment date including juvenile adjudications, was deemed to have erased the defendant's criminal history prior to that date, subject to the following exception: all prior convictions at offense seriousness levels 6 and above were counted for criminal history placement on the sentencing grid where the current governing offense was at offense level 6 or above.

Under the previous guidelines, adjudications of delinquency for offenses classified in levels 7, 8, and 9 were counted for purposes of classifying the defendant into one of five criminal history groups; other adjudications of delinquency in the juvenile record were not counted for purposes of classifying the defendant into one of the five criminal history groups. There was no age limit on the age of the juvenile at the time of conviction, all noted adjudications were considered, regardless of the age of the defendant at the time of the juvenile criminal history or the current age of the adult defendant.

Youthful Offender Dispositions

The youthful offender law allows judges sitting in juvenile court to sentence certain juvenile offenders to an adult sentence or to a combination adult / DYS sentence.²⁷ Adjudications in juvenile court under the youthful offender law were treated separately from other juvenile adjudications. Adjudications under the youthful offender law which resulted in the imposition of an adult sentence by the juvenile court were not included as convictions or sentencing events for the purposes of constructing the sample for the current survey of sentencing practices. For juveniles charged with murder, the cases are heard in adult court. If those cases resulted in a commitment to DYS, the cases were not included in the sample. If those cases resulted in an adult sentence, the cases were included in the sample.

A youthful offender adjudication was treated for the purposes of calculating a defendant's criminal history score in the same manner as a delinquency adjudication where the juvenile was committed to the Department of Youth Services or received a combination sentence under G.L. c. 119, § 58(b) or (c). A youthful offender adjudication was treated for the purposes of calculating a defendant's criminal history score in the same manner as an adult conviction where the juvenile was sentenced to an adult sentence under G.L. c. 119, § 58(a).

Impact of Criminal History Revisions

Table 35 compares criminal history assignments under the previous and current guideline proposals. As the data show, revisions to the counting of criminal history has the effect of shifting

²⁷ St. 1996, c. 200 was effective for offenses committed on or after October 1, 1996 except for juveniles charged with murder. For these individuals the effective date of the law was July 27, 1996.

defendants’ placement downward from more serious criminal history categories to less serious criminal categories. For example, under the revised guideline proposal, 8,413 defendants or 50.7% fall into criminal history group A, compared to 5,909 defendants or 35.6% under the previous guideline proposal. The greatest impact under the revised proposal would be realized in group D. Under the previous proposal, 3,566 defendants or 21.5% would be assigned to group D compared to 857 defendants or 5.2% under the current proposal.

Table 35. Revised Criminal History Groupings

Current Criminal History Group	Prior Criminal History Group (Pre-2014)					Total
	Previous Group A	Previous Group B	Previous Group C	Previous Group D	Previous Group E	
Revised Group A	5,874	1,206	773	553	7	8,413
Revised Group B	34	2,555	1,078	1,005	1	4,673
Revised Group C	1	10	1,487	1,153		2,651
Revised Group D			1	855	1	857
Revised Group E					3	3
Total	5,909	3,771	3,339	3,566	12	16,597

Sentencing Guidelines Grid Assignment

Consistent with the classification under proposed guidelines, most cases were assigned to the sentencing guidelines grid. Those cases assigned to the sentencing guidelines grid include all cases where the sentencing guidelines grid would have been considered if the sentencing guidelines had been enacted along with those defendants convicted of murder. Those cases not assigned to the sentencing guidelines grid include convictions for mandatory drug offenses, mandatory firearm offenses, and OUI offenses.

Sentencing for the offense of murder would not be changed under the advisory sentencing guidelines. However, murder is used to illustrate level 9 on the sentencing guidelines grid and those defendants convicted of murder have been included as level 9 for purposes of statistical reporting in this survey of sentencing practices.

The method should not be considered a comprehensive compilation of OUI sentencing. Many first offense OUI cases are disposed of through a CWOFF and thus were not included in this sample. The method should not be considered a comprehensive compilation of sentencing for non-jailable offenses. Many charges and convictions for non-jailable offenses were not systematically included as part of the CARI database.

For each case assigned to the sentencing guidelines grid, the intersection of the offense seriousness level and criminal history group constitutes the grid cell for the defendant. Each of the grid cells is further assigned to one of three sentencing zones: incarceration, discretionary, or intermediate sanctions.

A number of cases were placed in an unassigned level of offense seriousness. These cases involve convictions for offenses for which the commission recommended that the offense seriousness level be contingent on the associated criminal activity. Convictions involving an attempt, conspiracy, or accessory are placed into this unassigned level of offense seriousness category.

Jurisdiction

All sentences to incarceration were assigned to the jurisdiction of the DOC or to the jurisdiction of a house of correction. All house of correction sentences and house of correction / split sentences were assumed to be within the jurisdiction of a house of correction. All life sentences and state prison sentences were assumed to be within the jurisdiction of the DOC. During FY 2023, some female defendants with house of correction sentences were in the custody of the DOC at the correctional facility for females. For purposes of the statistical analysis, these female defendants were considered within the jurisdiction of a house of correction.

For certain offenses, such as manslaughter, when imposing a sentence of incarceration, a superior court judge may sentence a defendant to the jurisdiction of a house of correction or to the jurisdiction of the DOC. For other offenses, such as robbery, a superior court judge, when imposing a sentence of incarceration, may only sentence a defendant to the jurisdiction of the DOC. Finally, for other offenses, such as assault & battery, a superior court judge, when imposing a sentence of incarceration may only sentence a defendant to the jurisdiction of a house of correction.

Comparison of Existing Sentencing and Advisory sentencing guidelines

The actual sentence imposed was compared to the sentencing guidelines range for all cases assigned to the sentencing guidelines grid in order to estimate whether the sentence was below the guideline range, within the guideline range, or above the guideline range. The method used to assign the cases was:

- All incarceration sentences imposed in the intermediate sanction zone were considered above the range and all non-incarceration sentences imposed in the incarceration zone were considered below the range.
- For incarceration sentences in the discretionary zone and the incarceration zone, the length of the sentence was compared with the sentencing range using the following method:
 - All life sentences at offense level 9 and grid cell “8E” were considered to be within the range and all other life sentences were considered to be above the range.
 - The maximum sentence of state prison sentences was compared to the range.
 - The sentence length of all house of correction sentences was compared to the range.
 - The committed portion of all house of correction / split sentences was compared to the range.

- The comparative analysis was not completed for 173 cases, including 48 cases not assigned to an offense seriousness level and 125 cases where a statutory minimum incarceration sentence might be imposed (e.g. home invasion, armed assault in dwelling, armed burglary, child pornography (level 6), A&B on public employee, and drug for sexual intercourse).
- In all cases where the sentence length was compared to the range the sentence length was not truncated or rounded prior to making the comparison. Thus, a state prison sentence of 5 years to 5 years and 1 day imposed in grid cell “6A “ was considered an upward departure based on the maximum sentence being 1 day over the upper limit of the range.

Demographic Characteristics

Offender demographics characteristics (gender, age, and race) were collected from Masscourts. The source of this Masscourts data is the identification section of the CARI database. The CARI database maintains multiple identification records to capture multiple identification information reported by the defendant (e.g. aliases and dates of birth). Where multiple identification records were available for a particular defendant, those records were scanned for completeness of demographic information. Among those records with the most complete demographic information, that record with the oldest recorded date of birth was used, that is the date of birth which makes the offender appear to be older. Using this data collection method, date of birth was available for 100.0% of convicted defendants.

Race and gender was not universally available. All of the tables contained in the report include those defendants for whom race or gender is missing in the statistical tabulations.

APPENDIX B. ADDITIONAL STATISTICAL TABLES

Incarceration Status

Table 36 shows incarceration status by governing offense for all convicted defendants assigned to the sentencing guidelines grid. Offenses are shown in descending order of offense seriousness level. For each offense, the total number of convicted defendants, the number of incarcerated defendants, and the incarceration rate are shown. The same information is shown for each criminal history group.

For example, the offense of rape of child is a level 6 offense. A total of 50 defendants were convicted of this offense including 38 in criminal history group A, 3 in criminal history group B, 7 in criminal history group C, and 2 in criminal history group D. Of the 50 convicted defendants, a total of 45 received a sentence of incarceration, for an overall incarceration rate of 90%. Of the 38 defendants in criminal history group A, a total of 33 received a sentence of incarceration, for an incarceration rate of 87%. All defendants in the remaining criminal history groups received a sentence of incarceration for an incarceration rate of 100%.

Table 37 shows incarceration status by governing offense for all convicted defendants in superior court. Table 38 shows incarceration status by governing offense for all convicted defendants in district court.

State Prison Sentences

Table 39 and Table 40 show sentence length information for those defendants sentenced to the state prison by governing offense and grid cell assignment. In Table 39 the total number of convicted defendants, the mean minimum sentence, and the median minimum sentence are shown. For example, for the offense of rape of child, a level 6 offense, there were 39 defendants sentenced to the state prison in FY 2023. The mean minimum state prison sentence for rape of child was 66.0 months and the median minimum sentence for rape of child was 60.0 months.

In Table 40 the total number of convicted defendants, the mean maximum sentence, and the median maximum sentence are shown. Again, using the example of the offense of rape of child, a level 6 offense, there were a total of 39 defendants convicted of rape of child and sentenced to the state prison. The mean maximum sentence for rape of child was 79.5 months and the median sentence for rape of child was 72.0 months.

House of Correction Sentences

Table 41 shows sentence length information for those defendants who were sentenced to a period of incarceration in a house of correction. The table includes defendants who received a house of correction sentence or a house of correction / split sentence. For defendants receiving a house of correction sentence, the maximum sentence length is used in the analysis and for defendants serving house of correction / split sentences, the split or committed portion of the sentence is used in the analysis.

The table shows the total number of convicted defendants, the mean sentence and the median sentence. For example, there were 6 remaining defendants convicted of rape of child and incarcerated in a house of correction. The mean house of correction sentence was 24.7 months and the median house of correction sentence was 27 months. The number of convicted defendants and the mean and median sentence length are also shown for each criminal history group.

Type of Offense

Table 42 shows information on incarceration rates by type of offense, for those offenses assigned to the sentencing grid. All offenses were assigned to a type of offense: person, sex, property, drug, motor vehicle, weapons, public order, and other. As indicated in Table 42:

- There were 3,995 defendants convicted of person offenses with an incarceration rate of 55%.
- There were 542 defendants convicted of sex offenses with an incarceration rate of 62%.

- There were 3,603 defendants convicted of property offenses with an incarceration rate of 52%.
- There were 379 defendants convicted of weapons offenses with an incarceration rate of 38%.
- There were 2,892 defendants convicted of non-mandatory drug offenses with an incarceration rate of 46%.
- There were 2,905 defendants convicted of motor vehicle offenses with an incarceration rate of 22%.
- There were 132 defendants convicted of public order offenses with an incarceration rate of 29%.
- There were 2,170 defendants convicted of other offenses with an incarceration rate of 49%.

Sentences by Race/Ethnicity and Offense Level

Table 43 shows information on incarceration rates by race/ethnicity, court department, and grid cell assignment. Number of defendants, number of incarcerated defendants, and percentage of defendants incarcerated are displayed. As indicated in Table 43:

- Defendants with more serious criminal histories were incarcerated at higher rates across all race/ethnic groups in both the superior and district courts.
- Receiving a sentence to incarceration in the superior court were:
 - 76.5% of Hispanic defendants
 - 74.5% of Black/African-American defendants
 - 69.6% of White defendants, and
 - 44.5% of Asian defendants.
- receiving a sentence to incarceration in the district court were:
 - 45.6% of Black/African-American defendants
 - 43.2% of Hispanic defendants
 - 41.7% of White defendants, and
 - 35.4% of Asian defendants.

Tables 44 and 45 shows information on minimum state prison terms by race/ethnicity and grid cell assignment. The data show:

- The average minimum state prison term increased with offense seriousness and criminal history. The lowest average minimum sentence ranged from a low of 24.0 months in grid cell “2A” to a high of 198.0 months in grid cell “8D”. This pattern was similar across all race/ethnic groups.

- The average minimum state prison term was:
 - 62.6 months for White defendants
 - 57.6 months for Black/African-American defendants
 - 55.9 months for Hispanic defendants, and
 - 54.5 months for Asian defendants.
- The average maximum state prison term was
 - 77.9 months for White defendants
 - 70.8 months for Black/African-American defendants
 - 69.5 months for Hispanic defendants, and
 - 67.1 months for Asian defendants.

Table 46 shows information on house of correction terms by race/ethnicity, court department, and grid cell assignment. The data show:

- The average house of correction term increased with offense seriousness and criminal history. This pattern was true for both the superior and district court departments, though sentences in the superior court were significantly longer than those imposed in the district court. These patterns were also observed across all race/ethnic groups.
- The average house of correction term in the superior court was:
 - 17.1 months for Hispanic defendants
 - 16.7 months for White defendants
 - 15.5 months for Black/African-American defendants, and
 - 14.3 months for Asian defendants.
- In district court, the average of house of correction term was:
 - 7.5 months for Black defendants
 - 7.2 months for Hispanic and Asian defendants, and
 - 6.3 months for White defendants.
