4. SWITCHED ACCESS SERVICES

4.2 Call Completion Service

Non-recurring and usage rates apply for each Call Completion Service furnished by the Company. Non-recurring charges are the one time charges that apply for a specific work activity, (e.g., new installations or changes to existing installations). Usage rates apply only when a specific rate element is used. They apply on a per Call Completion Service access minute and are accumulated over a monthly period.

Rate Categories

The following diagram depicts a generic view of the components of Call Completion Service and the manner in which the components are combined to provide a complete service.

End Office

The End Office rate category provides for the local end office switching and end user termination functions necessary to complete the transmission of Call Completion Services to and from the end users served by the Company's end offices. The End Office rate category consists of the Call Completion rate element.

A. Call Completion Rate Category

The Call Completion rate element provides for the use of end office switching equipment, terminations for the end user lines terminating in the local end office, and for the termination of calls at a Company Intercept operator or recording. Calls will be rated based on time-of-day where technically feasible. Where the technical capability does not exist, calls will be rated at day rates.
