

The COVID-19 Vaccine: Safe & Effective

When it's your turn,
Get the Vax

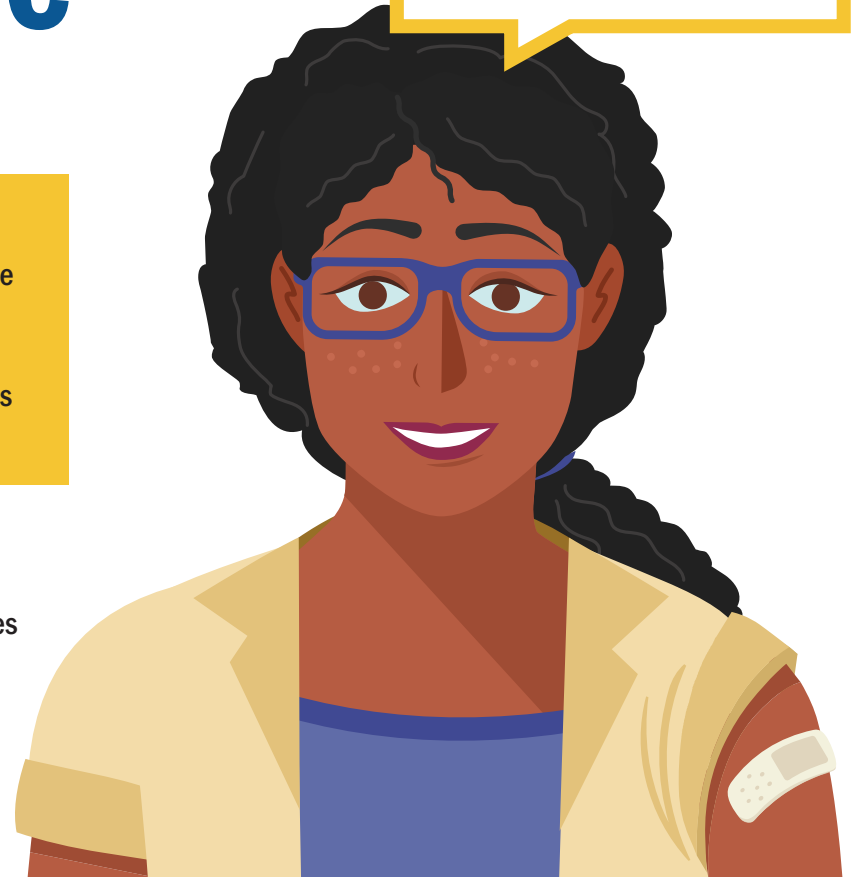

The COVID-19 Vaccine was developed safely.

- ✓ The same safety steps that are used for all vaccines were followed for the COVID vaccine.
- ✓ Tens of thousands of people participated in clinical trials to prove the vaccine is safe and effective.

Vaccine was able to be developed quickly because:

- ✓ When the pandemic began, scientists had been studying similar viruses for over 20 years, giving them a head start in creating this vaccine.
- ✓ Companies started producing the vaccine early to ensure immediate distribution upon approval.
