FY 2021 Timber Harvester License Application

Expires June 30, 2021

PROCEDURE FOR OBTAINING A MASSACHUSETTS TIMBER HARVESTING LICENSE:

1. Fill out the attached license application

Fill out all sections of the attached forms; incomplete applications will be returned to applicant. M.G.L. c. 132, §46 a provision of the Forest Cutting Practices Law, provides: “No person, firm or corporation engaged in the business of harvesting timber or other forest products for hire or profit shall cut such products on land devoted to forest purposes and for purposes not exempted by [M.G.L. c. 132, § 44] without first obtaining a license to do so from the director who is hereby authorized to issue such licenses, and to withhold or revoke such licenses, after hearing for failure to comply with sections 42 to 46, inclusive.”

The legislature provides a penalty of not more than \$500.00 for each violation of this law, which requires that a license be outstanding in the name of the person, firm or corporation actually cutting forest products, whether on the land of the license holder or the land of another.

2. Mail license application and fee to:

MA Timber Harvesting License
Dept. of Conservation and Recreation
PO Box 1433
Pittsfield, MA 01202

The fee for this license is **\$15.00 for Massachusetts residents and \$30.00 for non-residents; this fee is non-refundable.**

3. Testing and Continuing Education Requirement

M.G.L. c. 132, § 46 provides: “Applicants [for timber harvesting licenses] shall demonstrate general familiarity with the laws of the commonwealth that concern timber harvesting and provide the director [of the Department of State Parks and Recreation] such reasonable information as he [or she] may require concerning the amount and type of forest products cut by [the applicant] during the previous year.” This provision refers to loggers of sawtimber and cordwood, including those connected with sawmills.

Therefore, prior to the issuance of a harvesting license, all applicants must initially pass a timber harvester licensing exam. If your license has expired, then you must also retake and pass the next available timber harvester exam. You will be notified of the upcoming exam schedule. Applicants that have been continuously licensed for three or more years may waive the examination requirement by showing proof of meeting the continuing education requirements. See attached “Continuing Education Summary.”

4. License Period

All timber harvester licenses are issued on a fiscal year calendar. Annually, licenses are valid from July 1st thru June 30th.

****Please note that all licenses expire on June 30th of each year****

Continuing Education Summary

All applicants who have had their Timber Harvester’s License (THL) over three (3) consecutive years or more, must fill out this form with your Continuing Education credits. You must show 9 hours of education credits to recertify your current THL.

Failure to fill out this form will result in written notification to take and pass the next scheduled THL exam to continue to operate in Massachusetts.

(If you have had your license fewer than 3 years you do not need to fill out this Continuing Education Summary form.)

Course/class/training/workshop/name:	Location	Date	Hours	Instructor/sponsor

Total Hours: _____

Applicant signature: _____ **Date:** _____

**RECERTIFICATION
FOR EVERYONE**

All licensed harvesters, including those employees identified on their employer’s license applications (one for each employee), must each accumulate nine (9) continuing education hours within each three (3) year recertification period.

CONTACT HOURS

Each licensed harvester, (including employees listed on an employer’s Timber harvesting licenses – one approved Timber Harvester’s License for each employee with a separate THL number for each assigned person), is required to attend nine hours of continuing education within each three year recertification period. Each sixty minutes of training equals one “contact hour” of continuing education. Three (3) of these nine (9) hours, must focus on the Massachusetts Forest Cutting Practices Act (M.G.L. chapter 132, sections 40 to 46) - Rules and Regulations 302 CMR 16.00: FOREST CUTTING PRACTICES, sponsored by the Massachusetts Department of Conservation and Recreation, Service Forestry Program. The remaining six (6) hours of continuing education can focus on a wide variety of subjects including, but not limited to: wetland identification, wetland values and functions, rare species habitat protection, safety, business management, equipment maintenance, new equipment technologies, communication skills, natural resource management, forest product measurement, grading lumber or standing timber, wildlife management, and forestry engineering.

FY 2021
