Chair: Babak Enayati, National Grid  
Vice-Chair: Michael Conway, Borrego Solar Systems  
MTSRG Regular Meeting  
Date: Dec 2, 2016  
Time: 7:30AM-1:30PM  
Location: National Grid office in Worcester  
939 Southbridge St.  
Worcester, MA 01610  
Room: Auditorium

## Agenda

- 1) **The meeting kick off by Babak and introduction** **7:30AM-7:40AM**  
.....
- 2) **IEEE 1547 full revision updates** **7:40AM-8:40AM**  
We also need to start talking about how utilities are going to adopt the new version of the IEEE 1547 standard.  
.....
- 3) **Solar+storage: Technical standards for interconnecting behind the meter** **8:40AM to 9:40AM**  
and stand-alone storage - relaying, monitoring and controls requirements. DOER's SREC successor program will likely include encourage solar + storage systems.
  - How will these be treated by the utilities in the interconnection screening and study process?
  - Will the storage's power capacity (kW) be added to the solar, and the study conducted as the aggregate kW of both?
  - Will the specific operation of the storage be considered in the study?.....
- 4) **New York JU's Supplemental Unintentional Islanding** **9:40AM-10:10AM**  
Protection flowchart. The NY JU's issued a state-wide policy on islanding protection that I think it would be good for the group to review. It hinges largely on using the full Sandia screening, Detailed Risk of Islanding studies, and reclose blocking.
