

Massachusetts Technical Standards Review Group (MTSRG)

Chair: Babak Enayati, National Grid
Vice-Chair: Michael Conway, Borrego Solar Systems
MTSRG Regular Meeting
Date: September 17, 2014
Time: 9AM-3:30PM
Location: MA DPU Office
Commissioners Conference Room
One South Station
Boston, MA 02110

Agenda

- 1) The meeting kick off by Babak and introduction 10 mins**
- 2) MA DPU-11-75-F order discussion 9:10 AM-9:40 AM**
 - a. Penetration Screen Tracking
 - b. TSRG Future
- 3) Substation transformer backfeed. 9:40AM-10AM**

NSTAR will clarify their stance on the substation transformer backfeed due to high penetration of DG on the distribution system.
- 4) Break 10AM-10:15AM**
- 5) Updates on National Grid's 20MW solar filing. 10:15-10:45**

MA DPU has approved the solar filing. Babak will introduce the technical goals of the solar filing and will ask for feedback on how TSRG team should monitor the progress of the installations.
- 6) Updates to Common Guideline 10:45AM-11:15AM**
 - a. NSTAR Anti-Islanding screening
 - b. NSTAR progress on DG fixed PF requirement
 - c. Status of each utility's interconnection guideline
 - d. Other updates?
- 7) Continue the inverter ride-through recommended settings by ISO-NE and start the discussions on under/over frequency ride-through 11:15AM-12PM**
- 8) Lunch 12PM-1PM**

9) Supplemental Review Voltage/Power Quality and Safety/Reliability Screens 1PM-3:30PM

- a. Utilities will be asked to talk about their existing process in addressing the safety/reliability and voltage/power quality screens. 1PM-1:45PM
- b. Discussions with the non-utility members. 1:45PM-3:30PM

Adjourn 3:30PM
