

Massachusetts Technical Standards Review Group (MTSRG)

Chair: Babak Enayati, National Grid
Vice-Chair: Michael Conway, Borrego Solar Systems
MTSRG Regular Meeting
Date: Dec 3, 2015
Time: 9AM-3PM
Location: **National Grid's Worcester Office**
939 Southbridge St.
Worcester, MA 01610
Room: Auditorium

Agenda

- 1) **The meeting kick off by Babak and introduction** **9AM-9:10AM**
.....
- 2) **IEEE 1547 revision status update** **9:10AM-9:40AM**
.....
- 3) **NREL Report on Inverters' Ground Fault Over Voltage and** **9:40AM to 10:10 AM**
Load Rejection Over Voltage
 - **Each utility representative will be asked to talk about their represented companies' standpoint on the NREL report.**.....
- 4) **Break** **10:10AM – 10:25 AM**
.....
- 5) **Summarize and wrap up the discussions on the**
Supplemental Review Voltage/PQ and Safety/Reliability Screen **10:25AM-11:25AM**
.....
- 6) **Eversource's policy on Disconnect switch for single phase DG<10kW** **11:25AM-11:40PM**
.....
- 7) **Negative sequence relaying presented by Borrego Solar as an alternative to substation level 3V0 protection during backfeed (research opportunity)** **11:40AM-12PM**
.....
- 8) **Lunch** **12PM-1PM**
.....
- 9) **Status update on National Grid's Solar Phase II program** **1PM-1:30PM**
.....
- 10) **Overview of the 2015 TSRG group's completed tasks, review the process of updating the common guideline, and create a roadmap for 2016 (smart inverters, microgrids, etc)** **1:30PM-3PM**
