## **INDIAN ROADS RESERVATION PROGRAM CSTIPS Module of ITIMS**

### **CSTIP Report**

The CSTIP report shows the full contents of one or more CSTIPS.

For example, if the report is requested for a particular reservation with a managing entity that also manages two other reservations, then projects for all three reservations are reported. This means that subtotal amounts are always correct, no matter what the filter might be. However, see the next remark on how to read subtotals.

The CSTIP Subtotal is the full total for values on the CSTIP.

The state subtotal is the sum of the values in the state and on the current CSTIP. This report does not show overall state totals.

The location subtotal is the sum of values for projects on a particular reservation and in a particular state. When a reservation lies in two states, project data for each part including the subtotal is presented in separate places.

Any type of CSTIP may be the subject of the report.
