UIC Class V Well Motor Vehicle Rinse Water, Snow/Ice Melt or Rain Drip Technical Compliance Form

(Attach to your eDEP BRP WS 06 UIC Registration application form for all Motor Vehicle – Rinse Water wells)

Enter UIC Registration Number (if applicable):

UIC Registration Number

This technical compliance form should be submitted as part of inventory registration to qualify as a Rule Authorized Underground Injection Control (UIC) Class V Well for Motor Vehicle - Rinse Water, Snow/Ice Melt or Rain Drip discharge to an infiltration or injection well system.

The technical compliance form should be used by the applicant and Massachusetts Department of Environmental Protection (MassDEP) to determine whether a UIC Registration may be approved. Depending upon responses to questions provided on this form, MassDEP may contact you for additional information.

Technical Compliance forms are not required if you are registering UIC wells for the purpose of closing all of them.

A condition of “technical compliance” exists at a site when all oil and hazardous materials/wastes and activities with the potential to contaminate groundwater are segregated from the UIC well’s drainage area. All questions regarding the UIC program should be addressed to ask.uic@mass.gov or to Joe Cerutti by phone at 617 292-5859 or by mail at the address shown at the end of this document. You may also contact the MassDEP Drinking Water Program at program.director-dwp@mass.gov, Subject: UIC, or by phone at 617-292-5770.

A. Residential/Facility Information

Important: When filling out forms on the computer, use only the tab key to move your cursor - do not use the return key.

Facility/Residential Property Name

Facility/Residential Property Street Address

City/Town

State

Zip Code

B. Preparer Information

Preparer Name

Preparer Address (if different from facility)

City/Town

Preparer's Phone #

C. Non-Exposure Checklist

Are any of the following materials stored or activities present in the drainage area to the UIC Class V Motor Vehicle – Rinse Water, Snow/Ice Melt or Rain Drip well(s) or will they be in the foreseeable future (indicate either “Yes” or “No” in the appropriate box)? For the purpose of completing this form, the term “UIC Class V well” refers either to a typical well (i.e. dry well, leaching chamber, drain field, etc.) or to the ground surface location to which the rinse water will be discharged. **If you answer “Yes” to any of these questions, you do not qualify for UIC Class V Registration approval.**

A1. Maintenance and/or repair of motor vehicles or motorized equipment ☐ Yes ☐ No

A2. Materials or residuals resulting from previously identified spills/leaks of oil or hazardous materials ☐ Yes ☐ No

C. Non-Exposure Checklist (cont.)

- | | | |
|--|------------------------------|-----------------------------|
| A3. Vehicle or equipment rinse water that includes the use of detergents or solvents | <input type="checkbox"/> Yes | <input type="checkbox"/> No |
| A4. Rinsing of undercarriage or engine washing and/or washing of vehicles and other equipment exposed to contamination such as vehicles returning from a fire or an oil/hazardous material spill site or vehicles used to transport hazardous material | <input type="checkbox"/> Yes | <input type="checkbox"/> No |
| A5. Materials or products storage that could result in contaminants entering the UIC Class V well either through an accidental spill or through contact with precipitation and snow melt | <input type="checkbox"/> Yes | <input type="checkbox"/> No |
| A6. Materials contained in open, deteriorated or leaking storage drums, barrels, tanks, and similar containers in the drainage area(s) of the Class V well that could result in contaminants entering the UIC Class V well | <input type="checkbox"/> Yes | <input type="checkbox"/> No |
| A7. Waste material stored in the drainage area(s) of the Class V well | <input type="checkbox"/> Yes | <input type="checkbox"/> No |
| A8. Application or disposal of process water or wastewater | <input type="checkbox"/> Yes | <input type="checkbox"/> No |

For the following statements indicate whether or not the facility has implemented the required non-structural Best Management Practices (BMPs) for activities taking place in the drainage area to the UIC Class V well(s). **If you answer “No” to any of these questions, you do not qualify for UIC Class V Registration approval.**

- | | | |
|--|------------------------------|-----------------------------|
| B1. Have you developed a plan to properly handle all contaminated rinse water? | <input type="checkbox"/> Yes | <input type="checkbox"/> No |
| B2. Have you developed an emergency response plan in case of leaks or spills of hazardous material or wastes? | <input type="checkbox"/> Yes | <input type="checkbox"/> No |
| B3. Have you trained staff on the procedures for using the rinsing area and on procedures for handling spills and leaks within the drainage area? | <input type="checkbox"/> Yes | <input type="checkbox"/> No |
| B4. Do you train new employees on all proper procedures and plans and carefully monitor them until they receive the training? | <input type="checkbox"/> Yes | <input type="checkbox"/> No |
| B5. Have you posted signs to reflect the restrictions in place for all drainage areas discharging to the Class V well? | <input type="checkbox"/> Yes | <input type="checkbox"/> No |
| B6. Is spill cleanup equipment well marked and easily available at all times? | <input type="checkbox"/> Yes | <input type="checkbox"/> No |
| B7. Is the MassDEP guidance followed when recycling or disposing of rags and other absorbent material (BWP-94-015 - Policy for Industrial Wipes Contaminated with Solvents)? | <input type="checkbox"/> Yes | <input type="checkbox"/> No |
| B8. Are records kept on site and are they made accessible to DEP staff upon request, including: | <input type="checkbox"/> Yes | <input type="checkbox"/> No |
| <ul style="list-style-type: none">• Updated facility plans that reflect the current configuration• Operation and maintenance procedures• Copies of associated approvals, registrations and permits,• Waste disposal and recycling records• Material Safety Data Sheets | | |

UIC Class V Well Motor Vehicle Rinse Water, Snow/Ice Melt or Rain Drip Technical Compliance Form

(Attach to your eDEP BRP WS 06 UIC Registration application form for all Motor Vehicle – Rinse Water wells)

C. Non-Exposure Checklist (cont.)

For the following statements indicate whether or not the facility is meeting required MassDEP and EPA setbacks. **If you answer “No” to any of these questions, you do not qualify for UIC Class V Registration approval.**

- C1. If the discharge is onto the ground (intent to infiltrate) is the discharge location selected (location and size) such that none of the discharge will flow over the ground (even if frozen) and discharge into a wetland resource area, surface water body or catch basin leading to a surface water discharge? ☐ Yes ☐ No
- C2. Does the location of the discharge, whether onto the surface or into the ground, meet MassDEP setbacks as described in the document Standard Design Requirements for Shallow UIC Class V Injection Wells and will the discharge meet all other requirements of that document? ☐ Yes ☐ No
- C3. Is the location of the discharge situated such that it is outside of an Activity Use Limitation area and the discharge may not reasonably be expected to impact the migration of any known contaminant plumes? ☐ Yes ☐ No
- C4. Is the discharge located at least 100' feet (up gradient) from a recharge system approved pursuant to the Wetlands Protection Act? ☐ Yes ☐ No

D. Certification Statement

I certify the following under penalty of law:

1. The facility listed in Section A of this form does not conduct any business as a commercial car and/or truck washing facility; and,
2. This document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my diligent inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment.

I also hereby acknowledge that I shall submit an updated UIC Class V Well Vehicle Rinse Water, Snow/Ice Melt or Rain Drip Technical Compliance Form upon a change in activity in the UIC Class V well drainage area which may result in ineligibility for the well's "technical compliance" status. I hereby acknowledge that I shall allow MassDEP staff on-site to perform inspections to assess the well's technical compliance.
