

Back by popular demand—for its third year—Massachusetts Attorney General Martha Coakley is hosting the [2014 National Cyber Crime Conference](#) to be held *Monday, April 28th - Wednesday, April 30th* at the [Four Points by Sheraton in Norwood](#). The conference will feature three tracks of instruction: a track for prosecutors, a track for investigators and a track for digital evidence forensic examiners. Each track will have multiple breakout sessions featuring instruction from nationally recognized experts in the field of cyber crime. All participants will be provided with an opportunity to receive hands-on instruction.

---

### **UPDATE—SANS Institute**

We are extremely happy to announce that the SANS Institute will again support our upcoming annual conference in April! SANS' Digital Forensics and Incident Response (DFIR) curriculum will provide three cutting-edge labs on hot topics that are relevant to law enforcement (LE) investigations/activities to give you a focused training experience for improving your and your team's skills. As an added bonus, SANS will provide an evening Lightning Talk and will also host the "SANS DFIR Room" for discussions and consultations with experienced and LE-cleared consultants. Every afternoon of the conference, SANS will host the recently launched DFIR NetWars Tournament – a completely hands-on learning environment for mastering your skills. Additionally, through partnering and for a limited time, SANS is offering discounted OnDemand (online) training to qualifying US and Canadian state, local, territorial and tribal government organizations and not-for-profit entities.

2014 NCCC is a must-attend event as leading SANS experts focus on helping you build your investigative and DFIR skills to new levels. Bring your entire team to take advantage of the multiple labs, network with your peers during special sessions at the conference, and test your mettle at DFIR NetWars Tournament!

#### *Top reasons to attend:*

1. Labs of New SANS Courses – SANS will provide three cutting-edge labs at the event: [Windows Memory Forensics Lab](#) (Instructor: **Alissa Torres**), [MAC Forensics Lab: When Macs get Hacked](#) (Instructor: **Sarah Edwards**), and [Advanced Smartphone Forensics Lab](#) (Instructor: **Cindy Murphy**).
2. DFIR NetWars Tournament – SANS DFIR NetWars Tournament is a hands-on, interactive learning environment that enables DFIR professionals to develop and master the skills they need to excel in their field. For more information, please refer to: <http://www.sans.org/netwars/dfir-tournament>.
3. Bonus Sessions – SANS will provide special bonus sessions (evening Lightning Talk and Hosted SANS DFIR Room for discussions and consultations) covering the most cutting-edge DFIR topics.
4. Networking – Network with the smartest people in your industry, gathered together discussing advanced law enforcement, investigative, and DFIR topics.
5. CIS Partnership Discount for Online Training – SANS OnDemand is the world's leading provider of e-learning for law enforcement organizations and information security professionals. With OnDemand, you can access more than 30 SANS courses whenever and wherever you want from your PC/laptop (Windows, Mac, and UNIX), iPad, or Android Tablet. Each course gives you four months of access to our OnDemand e-learning platform, which includes a mix of presentation slides, video demonstrations, interactive labs, and assessment tests supported with audio of SANS' top instructors teaching the material.

Through SANS' partnership with the Center for Internet Security (CIS) Trusted Purchasing Alliance (TPA) program, qualifying US and Canadian state, local, territorial and tribal government organizations and not-for-profit entities can purchase SANS OnDemand training and GIAC offerings at special Partnership pricing through an Aggregate Buy (cooperative buy) program. The current purchase window is December 2013 – January 31, 2014. **During this limited time, you can purchase OnDemand Long (4-Day or longer) courses at a 55% savings**, provided that you buy in bulk of at least three or more long courses per transaction. Courses must be purchased through the CIS program to qualify for the discount. For more details, please refer to: <http://www.sans.org/partnership/cis>. To purchase courses or for questions/comments, please contact Jay Armstrong at [jarmstrong@sans.org](mailto:jarmstrong@sans.org) or 614-543-0357.

**P.S.** If you enjoy the lab sessions at 2014 NCCC, SANS will debut the new FOR585: Advanced Smartphone Forensics course and new content in the FOR526: Windows Memory Forensics In-Depth course at DFIRCON in Monterey, CA on March 5<sup>th</sup> - 10<sup>th</sup>, <http://www.sans.org/event/dfircon-monterey-2014>. Additionally, the FOR518: MAC and iOS Forensics course will be coming to the Washington DC area in the April/May 2014 timeframe. Additional details will be available soon!
