This notice applies to all of the records of your care generated by the Veterans Home at Holyoke, whether made by our personnel or your personal physician. Any physician outside the Veterans Home at Holyoke may have different policies or notices regarding his/her use of your medical information created at his/her office.

This notice will tell you about the ways in which the Veterans Home at Holyoke may use and disclose the medical information it has about you. We will also describe your rights and obligations we have regarding the use and disclosure of medical information.

HOW THE VETERANS HOME AT HOLYOKE MAY USE AND DISCLOSE MEDICAL INFORMATION ABOUT YOU

The following categories describe the different ways that the Veterans Home at Holyoke uses and discloses medical information. For each category of use or disclosure, we will explain what is meant and try to give an example. Not every use or disclosure in a category will be listed. However, all of the ways we are permitted to use and disclose information will fall within one of the categories.

For Treatment: We may use medical information about you to provide you with medical treatment or services. We may disclose medical information about you to physicians, nurses, technicians, or other personnel of the Veterans Home at Holyoke or contracted personnel of the Veterans Home at Holyoke who are involved in taking care of you either as an inpatient or outpatient. For example, the physician treating you for a heart condition may need to know if you have diabetes because of the effects diabetes may have on you. In addition, the physician may need to tell the dietician that you are diabetic in order that your meals as an inpatient may be arranged. Different departments of the Veterans Home at Holyoke may also share medical information about you in order to coordinate the different services you may need, such as prescriptions, lab work, x-rays and therapy. We may also disclose medical information about you to people

outside the Veterans Home at Holyoke who may be involved in your medical care such as family members, health care proxy, or others we use to provide services that are part of your care.

For Payment: We may use and disclose medical information about you so that the treatment and services you receive at the Veterans Home at Holyoke may be billed and payment may be collected from you, your insurance carrier or a third party. For example, we may need to give your health plan information about services you received at the Veterans Home at Holyoke so that your health plan will pay us or reimburse you. The Veterans Home at Holyoke may also tell your health plan about a treatment you are going to receive in order to obtain prior approval and to determine whether your plan will cover the treatment.

For Health Care Operations: The Veterans Home at Holyoke may use and disclose information about you for our own operations. These uses and disclosures are necessary to run the Veterans Home at Holyoke and make sure that all our veterans receive quality care. For example, we may use medical information to review our treatment and services and to evaluate the performance of our staff in caring for you. We may also combine medical information about many of our veterans in order to decide what additional services the Veterans Home at Holyoke should offer, what services may not be needed, and whether certain new treatments are effective. We may also disclose information to doctors, nurses, technicians and other personnel for review. We may also combine the medical information we have with medical information from other state Veterans Homes or VA Hospitals in order to compare how we are doing and to ascertain where we can make improvements in the care and services we provide. We may remove information that identifies you from this set of medical information so others may use it to study health care and health care delivery without learning who the specific veteran may be.

Appointment Reminders: The Veterans Home at Holyoke will not use or disclose medical information to contact you as a reminder that you have an appointment for treatment or medical care at the Veterans Home at Holyoke unless you have specifically authorized us, in writing, to do so.

Patient Directory: We may include certain limited information about you in the directory while you are an inpatient at the Veterans Home at Holyoke. This information may include your name, location within the Veterans Home, your general condition and your religious affiliation. This information, excluding your religious affiliation, may also be released to a person who asks for you by name. Your religious affiliation may be given to a member of the clergy such as a priest, minister or rabbi, even if they don't ask for you by name. You have a right to further limit this information and if your request is in writing, we will abide by your request until such time as we are otherwise notified.

Individuals Involved in Your Care or Payment for Your Care: We may release medical information about you to a friend or family member whom you have designated as your health care proxy or you have authorized us to release medical information. We may also tell your family or friends your general condition and your location in the Veterans Home at Holyoke. We may also disclose medical information about you to an entity assisting in disaster relief efforts, so that your family can be notified about your condition, status and location.

As Required by Law: The Veterans Home at Holyoke will disclose medical information about you when required to do by federal, state or local law.

To Avert a Serious Threat to Health or Safety: We may use and disclose medical information about you when necessary to prevent a serious threat to your health, and safety or the health and safety of the public or another person. Any disclosure, however, would be to someone able to help prevent the threat.

SPECIAL SITUATIONS
