RE Case 08-0298-T-PC Intrado Communications, Inc and Verizon West Virginia, Inc

Dear Ms Squire,

The WV Enhanced 9-1-1 Council has been informed of the above case and has discussed this at a recent meeting. The members understand that Intrado has expressed a desire in this case to perform 9-1-1 call delivery using line call attribution. The 9-1-1 Council is concerned about the reliability and effectiveness of this method of emergency call delivery.

The Council has no desire nor intention to limit competition among the companies or to limit the free market in providing a more efficient or less costly product.

Please include our concerns with this method of emergency 9-1-1 call delivery.

Sincerely yours

Robert Hoge, Secretary  
WV Enhanced 9-1-1 Council
