TRANSPORTATION RATES

SECTION III - WEIGHT BASIS - TABLE 2

(For application of this table, see list of participating carriers.)

Rates in this Section apply to all shipments not provided for in time basis rates. Rates are in dollars and cents per 100 pounds applied to actual weight (subject to a minimum weight as provided in rules herein). They include loading and unloading and the actual movement or transportation of property from origin to destination, but do not include Additional Services and Charges shown in this tariff. Rates will be calculated from origin, via points of extra pickup or delivery, to destination and will apply to total weight. Break point indicates weight at which a lower charge develops by use of lowest weight and applicable rate in next higher weight bracket.
