Subject: 2015 International Energy Conservation Code (IECC)

Mr. Zemel,

Please register my opposition to the proposed adoption of the 2015 International Energy Conservation Code (IECC), as an amendment to the eighth edition of the Massachusetts State Building Code, 780 CMR. I am in agreement with the points raised by Guy Webb, EO of Central MA. We should avoid making housing more expensive, which would appear to be the probable result of this legislation. I speak as a lawyer of 35 years experience in the construction industry and as a member of the Board of the Home Builders & Remodelers of Cape Cod.

Thank you.

Warren H. Brodie
