Watershed Permit Information

Does your town have a DEP approved CWMP/TWMP? Yes

Additional Information

Additional Information

In January 2021, the CWMP was approved by the state, which concluded that the plan adequately and properly complies with Massachusetts Environmental Policy Act (MEPA). Following approval from state environmental agencies, the CWMP was also deemed consistent with the Cape Cod 208 Plan. The CMWP was approved as a 30-year plan focused on traditional sewer and wastewater treatment solutions to replace the current dependence on septic systems, with the solutions being implemented in three 10-year phases. The CWMP is designed to address multiple goals and needs of the community, including nutrient removal, pond protection, drinking water protection, and other related concerns regarding wastewater management.

Certification

I agree

Yes

Date

09/01/2023
