GRANT OF LICENSE

SECTION 2.1 C GRANT OF RENEWAL LICENSE

PURSUANT to the authority of Chapter 166A of the General Laws of the Commonwealth of Massachusetts, (G.L.c. 166A) as inserted by Chapter 1103 of the Acts of 1971, as amended, and to federal law, the Board of Selectmen as the ISSUING AUTHORITY of the Town of West Boylston, Massachusetts ("West Boylston"), hereby grants a non-exclusive renewal cable television license to Greater Worcester Cablevision, Inc. ("Licensee") a Delaware corporation established for such purpose, AUTHORIZING and permitting said LICENSEE to construct and operate a Cable Television System within the corporate limits of the TOWN OF WEST BOYLSTON, MASSACHUSETTS.

This Renewal License is granted in compliance with Chapter 166A of the General Laws of the Commonwealth of Massachusetts, as amended, and in compliance with all rules and regulations of the Federal Communications Commission ("FCC"), the rules and regulations of the Massachusetts Community Antenna Television Commission ("CATV Commission"), the Cable Communications Policy Act of 1984, as amended, and all other rules and regulations in force and effect upon the date hereof or which may hereafter be in force and effect during the period for which this License is granted.

Subject to the terms and conditions herein, the Issuing Authority hereby grants to Greater Worcester Cablevision, Inc., Licensee, the right to construct, upgrade, install, operate and maintain a Cable System in, under, over, along, across or upon the streets, lanes, avenues, alleys, sidewalks, bridges, highways and other public places under the jurisdiction of the Town of West Boylston within the municipal

boundaries and subsequent additions thereto, including property over which the Town has an easement or right-of-way, for the purpose of reception, transmission, collection, amplification, origination, distribution, or redistribution of audio, video, text, data or other signals in accordance with the laws of the United States of America and the Commonwealth of Massachusetts. In exercising rights pursuant to this Renewal License, Licensee shall not endanger or interfere with the lives of persons or, without prior written permission, interfere with any installations of the Town, any public utility serving the Town or any other persons permitted to use public ways and places. Grant of this Renewal License does not establish priority for use over other present or future permit holders or the Town's own use of public ways and places. Disputes between Licensee and other parties regarding use of public ways and places shall be resolved in accordance with the DPW regulations and any special laws or Town ordinances enacted hereafter.

SECTION 2.2 C TERM OF RENEWAL LICENSE

The term of this Renewal License shall commence on September 30, 1996 and shall expire on September 29, 2006, unless sooner terminated as provided herein.

SECTION 2.3 C TRANSFER and ASSIGNMENT OF RENEWAL LICENSE

This Renewal License or control thereof shall not be transferred, assigned or disposed of in any manner, voluntarily or involuntarily, directly or indirectly, or by transfer of control of any person holding such License to any other person, without the prior written consent of the Issuing Authority, which consent shall not be unreasonably or arbitrarily withheld; provided, however, that Issuing Authority consent for a transfer or assignment of control between commonly controlled corporations, pursuant to 207 CMR 4.02, shall not be necessary. Any required consent shall be given only after a public hearing upon a written application therefore as provided by the Commission and on forms prescribed by the Commission. The application for transfer consent shall be signed by Licensee and by the proposed transferee or

assignee. The Issuing Authority review of any transferee shall be limited to transferee's ability to satisfy the terms of the existing license.

SECTION 2.4 C NON-EXCLUSIVITY OF LICENSE

(a) This Renewal License shall not affect the right of the Issuing Authority to grant to any other person a license or right to occupy or use the streets, or portions thereof, for the construction, installation, operation or maintenance of a Cable Television System within the Town of West Boylston, or the right of the Issuing Authority to permit the use of the public ways and places of the Town for any purpose whatever. Licensee hereby acknowledges the Issuing Authority's right to make such grants and permit such uses.

SECTION 2.5 C FUTURE RENEWALS

Renewal rights shall be afforded the Licensee at the expiration of this license consistent with applicable state and federal law. In no event shall such renewal rights be less favorable to the Licensee than those set forth in 47 USC Section 546, as it exists on the date hereof.

SECTION 2.6 C COMPETITION

(a) This License shall not affect the right of the Issuing Authority to grant to any other person, company or other entity a license or right to occupy or use the streets, or portions thereof, for the construction, installation, operation or maintenance of a Cable Television System within the Town of West Boylston or the right of the Issuing Authority to permit the use of the public ways and places of the Town for any purpose whatsoever. The issuance of any additional license(s) shall be on substantially equivalent terms and conditions contained in this agreement or such terms and conditions equitably modified to reflect any differences between this License and any additional license(s) in terms of benefit to the respective Licensee, including, but not limited to, such considerations as length of term, extent of License area and system

design and construction. The issuance of any additional license(s) shall also be subject to M.G.L. Chapter 166A and any licensing regulations thereunder. In the event the Issuing Authority issues any subsequent or additional Cable Television License(s) shall be on terms no more favorable or less burdensome to the person to whom the License is issued than the terms of equivalent provisions in this License, specifically including but not limited to terms for (i) the payment of any franchise fees; (ii) any payments for the support of public, educational, or governmental access programming; (iii) any grants for capital equipment for public, educational or governmental access programming; (iv) the provision of any service or service connections to schools or public buildings; (v) the construction of an I-Net; and (vi) customer service standards. To the extent that the terms of this License are less favorable and more burdensome to the Licensee than those of equivalent provisions of such subsequent or additional license(s), the Town, upon written request of the Licensee, after providing public notice, shall hold a public hearing to afford Licensee the opportunity to demonstrate the disparate nature of the terms of the additional license(s) and, following said hearing, the Town shall take actions to rectify said differences, including, but not limited to, amending the additional license(s) so that they are not on more favorable or less burdensome terms than the terms of this License or amending this License so that its terms are not less favorable or more burdensome than those of any additional license(s). In devising an appropriate remedy, the Town shall consider that, in certain instances, eliminating ongoing obligations after the implementing construction has been undertaken may be inadequate to provide meaningful relief.

(b) In the event the services of any multichannel programming provider competing with the Licensee, is not required to be licensed by the Town, and provides comparable programming to that of Licensee, and becomes available to fifty percent (50%) or more of the households in the Town of West Boylston, then to the extent such multichannel programming competitor is not required to (i) pay any franchise fee; (ii) pay for support of public, educational or government access programming; (iii) make grants for public, educational or government access facilities; (iv) provide drops

and service to public buildings; (v) construct an I-Net; or (vi) comply with customer service standards, the Town upon written request of the Licensee citing this provision and requesting relief sought, after providing public notice, shall hold a public hearing at which it will consider the reasonableness of Licensee's request for relief from complying with the above mentioned requirements and afford Licensee the opportunity to demonstrate the disparate burdens and inequities on Licensee of having to comply with said requirements. Following said hearing, the Town shall issue a report ascertaining the reasonableness of continuing to require Licensee to engage in the above mentioned requirements and what relief, if any, Licensee may be afforded. In the absence of any applicable federal law that occupies the field specifically aimed at equalizing competition or otherwise creating a "level playing field" between municipally licensed and non-licensed multichannel programming providers, should the conditions which Licensee demonstrates in the aforementioned hearing give rise to a competitive disadvantage for the Licensee, the Town shall rectify said differences by modifying the License in such a manner as to relieve the Licensee of the burdens which are not imposed on or provided by the Licensee's competitors or by imposing similar requirements on the multichannel programming provider.

ARTICLE 3

SYSTEM DESIGN

SECTION 3.1 C SUBSCRIBER NETWORK

(a) The Licensee shall continue to operate its 450 MHz Cable System, currently capable of providing sixty (60) video channels.

(b) Cable Service shall be made available to all homes in the Town; provided, however, that (i) all such homes are located along Public Ways or along private ways which access more than one home; (ii) such Public Ways or private ways can be accessed by Licensee from a Public Way without crossing a Town boundary; and (iii) to the extent that Licensee shall require easements, attachment to utility poles or other rights not granted herein, then such easements, attachments or other rights might be available to Licensee on reasonable terms and conditions.

(c) Standard drops and installations shall include aerial drops up to 125 feet in length. Larger aerial drops and underground drops shall be priced based on cost.

SECTION 3.2 C INSTITUTIONAL NETWORK

The Licensee shall maintain the 450 MHz bi-directional Institutional Network to be used by the Town and the Licensee. The Town shall have the exclusive right to program, for non-commercial purposes, a combined total of four (4) Upstream and Downstream Channels and shall designate the desired combination of Upstream and Downstream Channels prior to the commencement of activation by the Licensee. Specific channel assignments shall be made by the Licensee.

The I-Net shall link the municipal buildings along the I-Net route and listed in

Exhibit 1 of this Renewal License, attached hereto and made a part hereof. Upon written request, the Licensee shall provide, free of charge, one activated I-Net Drop and Outlet to (i) existing Town buildings; (ii) those buildings listed in **Exhibit 1**; and (iii) such other new or unwired municipally-owned non-residential buildings along the I-Net route as may be designated by the Issuing Authority from time to time.

The I-Net shall be interconnected with the Subscriber Network, in order that video signals originating from Town buildings can be sent Upstream on an I-Net Channel and then switched to a Downstream Subscriber Network Channel. There shall be no charge to the Town for such switching for video signals.

The Licensee shall not be required to attach the I-Net to any of the Town's peripherals or pay for any headend equipment or software which may be necessary for switching the Town's telephone or data traffic. In making installations of I-Net outlets, the Licensee shall not be required to come into contact with asbestos building materials, and the Town shall designate alternate routing to avoid asbestos building materials.

The Licensee shall have the sole responsibility, at its sole cost and expense, for normal maintenance of the I-Net, I-Net modulators, and I-Net processors for the term of this Renewal License, except for equipment not directly under its control, but including all necessary inspections and performance tests. The Licensee shall only be responsible, at its sole cost and expense, for all switching of Access Channel video signals between the Subscriber Network and the I-Net. Licensee shall provide any equipment and software necessary to effectuate such switching. The term "video" shall include the accompanying audio portion of any video signal. Licensee may impose charges to transport, monitor, and manage non-video signals over the I-Net.

SECTION 3.3 C PARENTAL CONTROL CAPABILITY

The Licensee shall provide to Subscribers, at cost (including a reasonable profit) and upon request, and to the extent required by Law, with the capability to control the reception of any channels on the Cable System.

ARTICLE 4

CONSTRUCTION, INSTALLATION and MAINTENANCE STANDARDS

SECTION 4.1 C SERVICE AVAILABLE TO ALL RESIDENTS

Subject to **Section 3.1** supra, the Licensee shall make its Cable Service available to all residences in the Town.

SECTION 4.2 C LOCATION OF CABLE SYSTEM

The Licensee shall construct, install, operate and maintain the Cable System within the Town. Poles, towers and other structures shall be erected so as not to interfere with vehicular or pedestrian traffic over Public Ways and places. The erection and location of all poles, towers and other obstructions shall be in accordance with all laws, regulations and/or by-laws.

SECTION 4.3 C UNDERGROUND FACILITIES

(a) For residential subdivisions constructed after the Effective Date of this License with all utilities located underground, the Licensee shall install its Distribution Plant underground, provided: (i) the subdivision contractor building the subdivision shall make the necessary easements available without cost to Licensee; and (ii) the subdivision contractor provides at least sixty (60) days' notice to the Licensee in order for the Licensee to place the Distribution Plant in utility trenches opened by the contractor.

(b) To facilitate the orderly development of new residential subdivisions with underground utilities, the Issuing Authority shall use its best efforts to have the Planning Board (i) require that subdivision developers work with the Licensee during the planning of subdivisions to provide for Distribution Plant installation; (ii) require that a plan for the Distribution Plant be included in the subdivision plan as a condition for Planning Board approval; and (iii) require that the developer provide a copy of the approved plans to the Licensee.

SECTION 4.4 C MAINTENANCE STANDARDS

Subject to the limitations of the original Cable System design, the Licensee will use its reasonable efforts to maintain the original specifications of the Cable System. During the term hereof, the Licensee shall comply with all applicable FCC statutes, regulations and standards relating to the quality of signals transmitted over the Cable System.

SECTION 4.5 C RESTORATION TO PRIOR CONDITION

Whenever the Licensee takes up or disturbs any pavement, sidewalk or other improvement of any Public Way or place, the same shall be replaced and the surface restored in as good condition as before entry as soon as practicable. If the Licensee fails to make such restoration within a reasonable time, the Issuing Authority may fix a reasonable time for such restoration and repairs and shall notify the Licensee in writing of the restoration and repairs required and the time fixed for performance thereof. Upon the failure of the Licensee to comply within the specified time period, the Issuing Authority may cause proper restoration and repairs to be made and the reasonable expense of such work shall be paid by the Licensee upon demand by the Issuing Authority.

SECTION 4.6 C TEMPORARY RELOCATION

The Licensee shall temporarily raise or lower its wires or other equipment upon the reasonable request of any person holding a building moving permit issued by the Town. The expense of such raising or lowering shall be paid by the Licensee unless otherwise provided by Law. The Licensee shall be given at least twenty (20) days' advance notice of any such move.

SECTION 4.7 C DISCONNECTION and RELOCATION

The Licensee shall, at its sole cost and expense, protect, support, temporarily disconnect, relocate in the same street, or other Public Way or place, or remove from any street or other Public Way or place, any of its property as may be required by the Issuing Authority or its designee by reason of traffic conditions, public safety, street construction, change or establishment of street grade, or the construction of any public improvement or structure by any Town department acting in a governmental capacity.

SECTION 4.8 C PRIVATE PROPERTY

The Licensee shall be subject to all laws, by-laws or regulations regarding private property in the course of constructing, upgrading, installing, operating and maintaining the Cable Television System in the Town. The Licensee shall, at its sole cost and expense, promptly repair or replace all private property, real and personal, damaged or destroyed as a result of the construction, upgrade, installation, operation or maintenance of the Cable Television System.

SECTION 4.9 C CONSTRUCTION MAPS

Upon request, the Licensee shall file with the Issuing Authority or its designee accurate maps of existing and newly constructed Cable System plant.

SECTION 4.10 C SERVICE INTERRUPTION

Except where there exists an emergency situation necessitating a more expeditious procedure, the Licensee may interrupt service for the purpose of repairing, upgrading or testing the Cable System, only during periods of minimum use, determined in the reasonable discretion of the Licensee, and, if practical, only after a reasonable notice, on one of the System's local channels, to all affected Subscribers; provided; however, that this section shall not apply to necessary interruptions resulting from subscriber change-overs to an upgraded Cable System which requires significant construction.

SECTION 4.11 C COMMERCIAL ESTABLISHMENTS

The Licensee shall make cable services available to any commercial establishments in the Town, which are located on the residential Subscriber Network, subject to the Licensee and each commercial establishment reaching a reasonable agreement regarding the terms and costs of initial installation and service which may or may not differ from the terms and costs that apply to residential Subscribers. It is herein acknowledged that certain programming services may not be available to commercial establishments, or may be available only upon certain terms and conditions, pursuant to Law or the Licensee's agreements with its program suppliers.

ARTICLE 5

SERVICES and PROGRAMMING

SECTION 5.1 C BASIC SERVICE

It is the Licensee's intention to provide a Basic Service which shall initially include at least all programming listed on **Form 100**, which list may be modified at Company's sole discretion at any time with or without notice but at all times in accordance with all Laws.

SECTION 5.2 C FREE CONNECTIONS and BASIC SERVICE TO MUNICIPAL BUILDINGS

Upon written request of the Issuing Authority, the Licensee shall provide one Subscriber Network Drop, Outlet and Basic Service, plus additional non-premium satellite delivered channels, without charge, to all municipal schools, police and fire stations, municipal libraries, and other municipal buildings listed in **Exhibit 2**, attached hereto, and specifically designated in writing by the Issuing Authority. Licensee shall provide a converter for a complimentary drop outlet only when an individual assumes responsibility for the converter. This obligation will be an External Cost for the purpose of rate regulation.

SECTION 5.3 C LEASED CHANNELS FOR COMMERCIAL USE

Pursuant to Section 612(b)(1)(B) of the 1984 Act, codified at 47 U.S.C. §532(b)(1)(B), the Licensee shall make available channel capacity for commercial use by persons unaffiliated with the Licensee.
