Formstack Submission for form A Clearer Code: Regulatory Reform

Submitted at 12/22/15 3:18 PM

Name (optional)::	Priscilla Ryder
Company/Organization (if applicable) (optional)::	Marlborough Conservation Commission
Address (optional)::	1 [REDACTED]
Primary Phone (optional)::	[REDACTED]
Email (optional)::	
CMR Number (If known): :	321 CMR 10
General Regulatory Themes::	Environmental Protection
Please list the Agency or Agencies affiliated with this regulation::	DEP Natural Heritage and Endangered Species Program
Describe the regulatory issue or observation::	Prior to the adoption of Massachusetts Endangered Species Act Regulations, conservation commissions would receive complaints about rare species review "taking" land away from landowners and about the length of time for a NHESP review. Now that the Regulations have been adopted and implemented, those complaints have mostly been eliminated. Therefore, the current regulations work very well as they are and should not be changed.
Suggestions for improvements to the regulation::	NHESP has worked hard to create Regulations with clear requirements and timeframes for project review. The regulations have taken the guess-work out of the permitting process. Further, the increased staff at NHESP has greatly improved response to questions, permit review and actual land protection and management. Massachusetts has a responsibility to preserve our native wildlife and natural habitats, particularly those globally rare species that are only, or mostly, found in Massachusetts. There should not be any changes to MESA or its implementing Regulations.

Thank you!

CMR Number (If known): :	310 CMR 10.00
General Regulatory Themes::	Environmental Protection
Please list the Agency or Agencies affiliated with this regulation::	MA DEP
Describe the regulatory issue or observation::	EO 562 seems to favor business over the ecosystem. #5 of EO562 says that a "regulation should not adversely affect MA citizens and customers or the competitive environment". THAT is very business friendly and it paves the way for dumping in wetlands, disrespecting natural areas, and the loss of endangered species. Enacting the original wetlands protection act was done because so many businesses took advantage of natural areas and wetlands as dumping areas for whatever commodity they wanted to get rid of (toxic stuff, hazardous chemicals, trash, etc.) This would harken back to those days and allow businesses to be more important than our environment.
Suggestions for improvements to the regulation::	Vernal pools, wetland areas, endangered species and buffer zones NEED to be protected. Massachusetts has been first in the nation about many things and we need to lead by example in protecting these valuable resources: native wildlife and natural habitats. It is our responsibility to protect them. There should not be any changes to MESA , or 310 CMR, MGL ch 131 sec 40, or their implementing Regulations.

**Describe the regulatory issue or
observation::** Please remove the quarantine requirements from 330 CMR 12.00.
It makes it extremely hard on the pet shops attempting to do great
adoption work.

**Describe the regulatory issue or
observation::** Pet shops are required to quarantine dogs from out of state for 48
hours upon arrival. This hinders the adoption process and leaves
many dogs remaining in shelters instead of forever homes.
