Subject: skydiving in Chatham, MA

Mr. Dicario,

I am writing to request and even implore that skydiving not be allowed to return to Chatham. It is a very dangerous activity for a town whose airport is surrounded by residential homes. The weather is an issue with constantly changing gusts of winds as is a drop zone that is not adequate or even legal by MassDot regulations. There are local pilots who will say anything to protect the airport as it is. There are others who will not come forward who know and have shared with town Selectmen that skydiving is not a safe operation with all the other plane activity at the airport.

Please consider my request carefully to stop skydiving in Chatham, MA.

Thank you.

Sharon Bixby
West Chatham
MA
