The purpose of this online meeting is to review, discuss, and better understand recently updated data with respect to the Program Administrators’ draft Second Three-Year Plan concerning programs, cost drivers, and new strategies and to better inform the Council how to achieve all cost-effective energy efficiency, and support deeper strategies and services for rate-payers. During the webinar the Council Consultants hope to present some analysis to better assess measure level information so that the Voting Members can ascertain how various cost drivers proportionally affect customer sectors’ savings and costs.

These matters all relate to the continuing review and evaluation of the draft Second Three-Year Energy Efficiency Investment Plan of electric distribution companies, natural gas distribution companies, and municipal aggregators.
